Morocco Agencies (British Post Offices)

With the growth of trade and commerce during the 19th century European powers opened post offices or postal agencies in various ports along the Moroccan coast from the early 1850's onwards. French and, in the north, Spanish influence eventually became predominant, leading to the protectorates of 1912. The British, who had inaugurated a regular postal service between Gibraltar and Tangier or Tetuan in May 1778, established their first postal agency in 1857. German offices followed around the turn of the century.

Before 1892 there was no indigenous postal service and those towns where there was no foreign agency were served by a number of private local posts which continued to flourish until 1900. In November 1892 the Sultan of Morocco established the Cherifian postal service, but this was little used until after its reorganization at the end of 1911. The Sultan's post was absorbed by the French postal service on 1 October 1913. Issues of the local posts and of the Sultan's post can occasionally be found used on cover in combination with stamps of Gibraltar or the Morocco Agencies.

In 1857 the first British postal agency was established at Tangier within the precincts of the Legation and was run by the official interpreter. From 1 March 1858 all letters for Great Britain sent via the British mail packets from Gibraltar required franking with Great Britain stamps.

In 1872 the Tangier office was relocated away from the Legation and the interpreter was appointed British Postal Agent. At the same time the agency was placed under the control of the Gibraltar postmaster. When the colonial posts became independent of the British G.P.O. on 1 January 1886 Gibraltar retained responsibility for the Morocco Agencies. Further offices, each under the control of the local Vice-Consul, were opened from 1886 onwards.

I. GIBRALTAR USED IN MOROCCO

Details of the various agencies are given below. Type C, the "A26" killer, is very similar to postmarks used at Gibraltar during this period. In addition to the town name, postmarks as Types A, B and D from Fez, Mazagan, Saffi and Tetuan were also inscribed "MOROCCO".

Postmark Types used on Gibraltar issues.

Type A Circular datestamp

Type C "A26" killer

Type B Duplex cancellation

Type D Registered oval

BISECTS. The 1886-87 1d. and the 10c., 40c. and 50c. values of the 1889 surcharges and the 1889–96 issue are known bisected and used for half their value from various of the Morocco Agencies (*price on cover from* £500). These bisects were never authorised by the Gibraltar Post Office.

TANGIER

The British postal agency in Tangier opened on 1 April 1857 and from 1 March of the following year letters from it sent via the packet service to Great Britain required franking with Great Britain stamps.

No identifiable postmark was supplied to Tangier until 1872 and all earlier mail was cancelled with one of the Gibraltar marks. In April 1872 a postmark as Type A was supplied on which the "N" of "TANGIER" was reversed. A corrected version, with code letter "A", followed in 1878, but both were used as origin or arrival marks and the Great Britain stamps continued to be cancelled with Gibraltar obliterators. The Type A postmarks generally fell into disuse after 1880 and very few identifiable marks occur on mail from Tangier until the introduction of Gibraltar stamps on 1 January 1886.

Stamps of GIBRALTAR cancelled with Types A (codes "A" or "C"), B (code "A") or D.

The blue-black overprint can be easily distinguished by looking through the stamp in front of a strong light. The overprint on the 50c. value shows more blue than on the 40c. and 1p. values.

The listed varieties of overprint occur from the first 12×10 litho setting. They were corrected on the second 12×10 setting of July 1898, which produced further supplies of Nos. 5/8, and included the blue-black overprints, listed as Nos. 5c, 6c, 7c. The corrected type was subsequently used to produce additional stocks of Nos. 1/2. Numerous more minor varieties exist from these settings.

No. 2e comes from two further printings in 1900 using a third setting (6×10) on which the two lines of the overprint were 5 mm apart instead of the 4 mm space used previously and applied typographically.

Control of the British postal agencies in Morocco returned to the G.P.O., London, from 1 January 1907.

All the following issues are overprinted on Great Britain

III. BRITISH CURRENCY

Stamps overprinted "MOROCCO AGENCIES" only were primarily intended for use on parcels (and later, air-mail correspondence), and were on sale at British P.Os throughout Morocco including Tangier, until 1937.

PRICES. Our prices for used stamps with these overprints are for specimens used in Morocco. These stamps were valid for postal purposes in Great Britain from the summer of 1950 onwards. Examples with G.B. postmarks are worth 50 per cent of the used prices quoted.

The first two printings of both values showed all the stamps with the short overprint, Nos. 75/6.

On 5 January 1937 a further printing of both values was placed on sale in London which had the 24 stamps from the bottom two horizontal rows (Rows 19 and 20) with the long overprint, Nos. 75a/6a. Subsequent printings increased the number of long overprints in the sheet to 25 by the addition of R. 8/9, and, finally, to 31 (R. 1/7, R. 7/1, R. 8/1, R. 13/3, 4 and 10, R. 14/6, but without R. 8/9).

For the 1d. value all sheets from cylinder 2 show the first setting. Sheets from cylinder 6 were also used for the first, and for all subsequent settings. The 2½d. value was overprinted on sheets from cylinder 2 throughout.

From 3 June 1937 unoverprinted stamps of Great Britain were supplied to the post offices at Tangier and Tetuan (Spanish Zone) as local stocks of issues overprinted "MOROCCO AGENCIES" were exhausted.

IV. SPANISH CURRENCY

Stamps surcharged in Spanish currency were sold at British P.Os. throughout Morocco until the establishment of the French Zone and the Tangier International Zone, when their use was confined to the Spanish Zone.

During this period further British postal agencies were opened at Alcazar (1907–1916), Fez–Mellah (Jewish quarter) (1909), Marrakesh (1909), Marrakesh–Mellah (Jewish quarter) (1909–17) and Mequinez (1907–1916).

The first three printings of the 10c. on 1d. (from cyls 4, 5 and 6) showed all stamps with the short surcharge (No. 161).

On 5 January 1937 a further printing was placed on sale in London which had 49 stamps in the sheet (R. 1/2 to 11, R. 2/1, 5 and 6, 8 and 9, R. 3/5, R. 4/5, R. 5/4 and 5, 10, R. 6/6 and 7, R. 7/8, R. 8/8, R. 9/8, R. 11/7, 9, R. 13/2 to 5, 7 and 8, R. 14/1, 7, R. 15/7, 11, R. 16/5, 10, R. 17/4, 10 and 11, R. 18/1, R. 19/2, R. 20/1 and 2, 3, 7, 9) with long surcharge (No. 161a). The next printing increased the number of long surcharges in the sheet to 50 (R. 10/2), but the final version, although retaining 50 long surcharges, showed them on R. 1/2 to 11, R. 17/5 to 8 and the entire rows 18, 19 and 20. The first two printings with long surcharges were from cylinder 6 and the last from cylinder 13.

Nos. 340a/b, 341a/b and 342a/b occur on R.9/2 in the sheet of 40 (4×10). They are best collected in marginal blocks of four from the bottom left corner of the sheet. Specialists recognise two forms of No. 340b; one where the hyphen on R.9/2 was inserted separately to correct the error, No. 340a; the other from a later printing where a new and corrected overprinting plate was used. (*Price* £12 *un.*).

All stamps overprinted "TANGIER" were withdrawn from sale on 30 April 1957.

Muscat

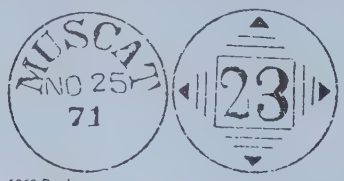
An independent Arab Sultanate in Eastern Arabia with an Indian postal administration.

The Indian post office at Muscat town is officially recorded as having opened on 1 May 1864. Stamps of India were provided for its use.

The office was initially included in the Bombay Postal Circle and the first postmark, so far only recorded on stampless covers, was a single circle, 21½ mm in diameter, broken at the top by "MUSCAT" and with the date in two lines across the centre. This was followed by a cancellation showing the post office number, "309", within a diamond of 13, later 16, bars. It is believed that this was used in conjunction with a single-ring date stamp inscribed "MUSCAT".

1864 Diamond

In 1869 the office was transferred to the Sind Circle, assigned a new number, "23", and issued with a duplex cancellation. Major reorganisation of the postal service in 1873 resulted in Muscat becoming office "K-4". For ten years from 1873 the cancellations do not, very confusingly, carry any indication of the year of use.



1869 Duplex

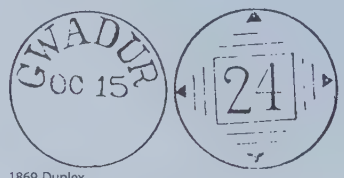
1873 Duplex

Muscat rejoined the Bombay Circle in 1879 and was issued with a cancellation showing a "B" within a square of horizontal bars. The date stamp used at this time was unique in that it carried the inscription "MASKAT", although the spelling reverted to the more usual form by 1882. The square cancellation had been replaced by a similar circular mark by 1884.

Subsequent postmarks were of various circular types, all inscribed "MUSCAT".

There was only one Indian post office in Muscat, but a further office did exist, from 12 April 1868, at the Muscat dependency of Guadur, a port on the Mekran coast of Baluchistan.

No cancellations have been reported from Guadur before its transfer to the Sind Circle in 1869. Cancellations are all similar in style to those for Muscat, Guadur being initially assigned number "24", although an office in Southern India is also known to have used this numeral. The 1869 duplex is interesting in that it is inscribed "GWADUR". Under the 1873 reorganisation the office became "4/K-1", this postmark using the "GUADUR" spelling.



1869 Duplex

Stamps of INDIA cancelled by numeral, duplex or circular types inscribed 'MUSCAT' or 'MASKAT'.

Used prices quoted for Nos. 1/15 and O1/10 are for stamps cancelled with contemporary postmarks of the Indian postal administration. Those with cancellations of the subsequent British post office are worth considerably less. Collectors are warned against forged overprints and cancellations.

From December 1947 there was a Pakistani postal administration and stamps of Pakistan were used until 31 March 1948. The subsequent British administration operated from 1 April 1948 to 29 April 1966 when the stamps of the BRITISH POSTAL AGENCIES IN EASTERN ARABIA were used. Guadur, however, continued to use the stamps of Pakistan until the dependency was finally ceded to that country in 1953.

Nauru

Stamps of MARSHALL ISLANDS were used in Nauru from the opening of the German Colonial Post Office on 14 July 1908 until 8 September 1914.

Following the occupation by Australian forces on 6 November 1914 the "N.W. PACIFIC ISLANDS" overprints on Australia (see NEW GUINEA) were used from 2 January 1915.

	b. Double opt, one albino	£500	
25	2s.6d. pale brown	80·00	£190
	a. Double opt, one albino	£500	

The initial printing of the 2s.6d. to 10s. values, made in Sept 1915 but not known to have been issued before 2 Sept 1916, comprised one and a half sheets each of the 2s.6d. (No. 19) and 10s. (No. 18) and three sheets of the 5s. (No. 17), as well as the supply of "Specimens", where the 5s. value was mostly from the De La Rue printing (No. 22).

The original supply of the 2s.6d. value (No. 19) included distinct shade variants, covered by "sepia-brown (*shades*)". The "Specimens" are mostly in a deeper shade than the issued stamp. One half-sheet of 20 was quite deep, and only appears to exist cancelled "SE 2 16", apart from a mint block of four in the Royal Collection. The full sheet of 40

was in a slightly paler shade and included 12 double, one albino and eight treble, two albino varieties. A few sheets in sepia-brown shades were also included in later supplies of the 2s.6d. value, but these were mostly in shades of yellow-brown (No. 20) and brown (No. 21).

Examples of most values between Nos. 1 and 25 are known showing a forged P.O. Pleasant Island postmark dated "NO 2 21".

Japanese forces invaded Nauru on 26 August 1942 and virtually all the inhabitants were removed to Truk in the Caroline Islands.

The Australian army liberated Nauru on 13 September 1945. After an initial period without stamps Australian issues were supplied during October 1945 and were used from Nauru until further supplies of Nos. 26/39 became available. The deportees did not return until early in 1946

New Hebrides

Stamps of NEW SOUTH WALES were used by various Postal Agencies in the New Hebrides from August 1891 onwards. From late 1892 the N.S.W. agency at Port Vila was run by the Australian New Hebrides Company who, from 1897, issued local 1d. and 2d. stamps for the carriage of mail on the Company's ships. These can be found used in combination with N.S.W. issues. Similar Postal Agencies supplying the stamps of NEW CALEDONIA were opened from 1903 onwards. The use of New South Wales and New Caledonia stamps was prohibited after 1 December 1908.

ANGLO-FRENCH CONDOMINIUM

The New Hebrides, an island group in the south-west Pacific, were recognised as an area of joint Anglo-French influence in 1878. The position was regularised by the Convention of 20 October 1906 which created a Condominium, the two nations having equal rights and shares in the administration of the islands.

Stamps inscribed in English or French were issued concurrently and had equal validity throughout the islands. A common currency was reflected in the face values from 1938.

Where common designs were used, the main differences between stamps inscribed in English and those in French are as follows:

(a) Inscriptions in English or French.

(b) Position of cyphers. French issues normally have "RF" to the right or above the British royal cypher.

(c) French issues are without watermark, *unless otherwise stated*.

New Zealand

From 1831 mail from New Zealand was sent to Sydney, New South Wales, routed through an unofficial postmaster at Kororareka.

The first official post office opened at Kororareka in January 1840 to be followed by others at Auckland, Britannia, Coromandel Harbour, Hokianga, Port Nicholson, Russell and Waimate during the same year. New South Wales relinquished control of the postal service when New Zealand became a separate colony on 3 May 1841.

The British G.P.O. was responsible for the operation of the overseas mails from 11 October 1841 until the postal service once again passed under colonial control on 18 November 1848.

The 2d. and 1s. on white paper formerly listed are now known to be stamps printed on blued paper which have had the bluing washed out. Nos. 3a and 6a were used at Port Chalmers between March 1857, when the rate for ½ oz. letters to Great Britain was reduced to 6d., and August 1859. All known examples are bisected vertically.

These stamps on blue paper may occasionally be found watermarked double-lined letters, being portions of the papermaker's name.

1857 (Jan). White paper similar to the issue of July 1855. Wmk Large Star.

7	**1**	1d. dull orange	†	£30000

This stamp is in the precise shade of the 1d. of the 1858 printing by Richardson on *no wmk* white paper. An unsevered pair is known with Dunedin cancellation on a cover front showing an Auckland arrival postmark of 19.1.1857.

The paper employed for the local printings was often too small to cover the full printing plate, a problem which was overcome by overlapping two sheets on the press. Depending on how accurately the sheets were overlapped, stamps may be found with portions of the design missing (including a unique example of the 2d. value in the Royal Philatelic Collection with the value tablet missing, formerly listed as No. 5a), or may resemble marginal copies, in spite of coming from the middle of the plate.

1857–63. Hard or soft white paper. No wmk.

The various separations detailed above were all applied by hand to imperforate sheets. The results were often poorly cut and badly aligned and examples showing separations on all sides are rare. Nos. 32*a/b* and 32*c/g* were produced using roulette wheels fitted with cutting edges in the shape of "H" or "Y", and cannot readily be distinguished from Nos. 22/6 unless the separations are well-preserved.

The separation type described as "Serrated perf" in these listings is technically a form of roulette.

The 2d. in a distinctive deep bright blue on white paper wmkd. Large Star is believed by experts to have been printed by Richardson in 1861 or 1862. This also exists doubly printed and with serrated perf.

No. 37 shows traces of plate wear to the right of the Queen's head. This is more pronounced on Nos. 37*a*/8 and quite extensive on No. 39.

These stamps show slight beginnings of wear of the printing plate in the background to right of the Queen's ear, as one looks at the stamps. By the early part of 1864, the wear of the plate had spread, more or less, all over the background of the circle containing the head. The major portion of the stamps of this printing appears to have been consigned to Dunedin and to have been there perforated 13.

The above issue is sometimes difficult to distinguish from Nos. 68/80 because the vertical perforations usually gauge 12¾ and sometimes a full 13. However, stamps of this issue invariably gauge 12½ horizontally, whereas the 1862 stamps measure a full 13.

* Until late1866 two comb perforating heads were in use. These were then converted to single-line heads, and all subsequent printings

were line perforated. Some stamps (such as Nos. 110, 113, 116 and 119) only exist with the early comb perforation, while others (such as Nos. 112, 117/8, 121 and 122*a*) are always line perforated.

Nos. 111a, 115c/d, 117a, 118a and 122b were issued during problems with the perforation machine which occurred in 1866–67, 1869–70 and 1871–73. Imperforate sheets of the 1s. were also released, but these stamps are very similar to Nos. 44/6.

The new plate of the 2d. showed signs of deterioration during 1866 and thirty positions in rows 13 and 16 to 20 were retouched by a local engraver.

The 1d., 2d. and 6d. were officially reprinted imperforate, without gum, in 1884 for presentation purposes. They can be distinguished from the errors listed by their shades which are pale orange, dull blue and dull chocolate-brown respectively, and by the worn state of the plates from which they were printed (*Prices £95 each unused*).

*1d., 2d. and 4d. stamps were printed on paper showing sheet watermarks of either "W. T. & Co." (Wiggins Teape & Co.) in script letters or "T. H. Saunders" in double-lined capitals (the former appearing once, at the top or bottom of the sheet, and the latter occurring twice in the sheet); portions of these letters are occasionally found on stamps. A third, as yet unidentified script watermark has also been identified on the 1d. and 2d. values.

It seems likely that Nos. 137/9 were printed and issued after Nos. 140/2.

As the paper used for Nos. 143/5 was originally intended for fiscal stamps which were more than twice as large, about one-third of the impressions fall on portions of the sheet showing no watermark, giving rise to varieties Nos. 146/8. In later printings of No. 151 a few stamps in each sheet are without watermark. These can be distinguished from No. 147 by the shade.

This perforation is made by a horizontal "comb" machine, giving a gauge of 12 horizontally and about 11¾ vertically. Single examples can be found apparently gauging 11½ all round or 12 all round, but these are all from the same machine. The perforation described above as "nearly 12" was from a single-line machine.

1888–98. Smooth paper with vertical mesh. W **12b**.
1890–91. Smooth paper with vertical mesh. W **12c**.
1898. Thin yellowish toned, coarse paper with clear vertical mesh. W **12b**. Perf 11 only.

In 1899–1900 stamps appeared on medium to thick white coarse paper but we do not differentiate these (except where identifiable by shade) as they are more difficult to distinguish.

PAPER MESH. This shows on the back of the stamp as a series of parallel grooves, either vertical or horizontal. It is caused by the use of a wire gauze conveyor-belt during paper-making.

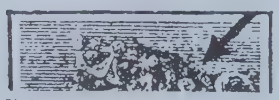
6d.



Die 1

Die 2

1882. Die 1. Shading heavy. Top of head merges into shading. Second ornament from the right on the crown shows a line in its left portion.
1892. Die 2. Background lines thinner. Shading on head more regular with clear line of demarcation between head and background shading. Second ornament from the right in the crown has small dots in its left portion. Most examples also show a break in the back line of the neck immediately above its base.

HIGH VALUES. From 1882 to 1931 postal requirements for higher value stamps were met by the Queen Victoria "Stamp Duty" adhesives (F5/144).

STAMPS WITH ADVERTISEMENTS. During November 1891 the New Zealand Post Office invited tenders for the printing of advertisements on the reverse of the current 1d. to 1s. stamps. The contract was awarded to Messrs Miller, Truebridge & Reich and the first sheets with advertisements on the reverse appeared in February 1893. Different advertisements were applied to the backs of the individual stamps within the sheets of 240 (four panes of 60).

On the first setting those in a vertical format were inverted in relation to the stamps and each of the horizontal advertisements had its base at the left-hand side of the stamp when seen from the back. For the second and third settings the vertical advertisements were the same way up as the stamps and the bases of those in the horizontal format were at the right as seen from the back. The third setting only differs from the second in the order of the individual advertisements.

Examples of the advertisements being printed double are known, but we do not list them.

The experiment was not, however, a success and the contract was cancelled at the end of 1893.

The above ½d. stamps are slightly smaller than those of the previous printing. A new plate was made to print 240 stamps instead of 120 as previously, and to make these fit the watermarked paper, the border design was redrawn and contracted, the centre vignette remaining as before. The 2d. stamp is also from a new plate providing smaller designs.

*Nos. 303*d*, 305*ab* and 307*b* were printed from a plate made by Waterlow & Sons, known as the "Reserve" plate. The stamps do not show evidence of wearing and the area surrounding the upper part of the figure is more deeply shaded. This plate was subsequently used to produce Nos. 362, 364 and 366/9.

A special plate, made by W. R. Royle & Sons, showing a minute dot between the horizontal rows, was introduced in 1902 to print the booklet pane, No. 303b. A special characteristic of the booklet pane was that the pearl in the top left-hand corner was large. Some panes exist with the outer edges imperforate.

Two sizes of paper were used for the above stamps:—

(1) A sheet containing 240 wmks, with a space of 9 mm between each.

(2) A sheet containing 120 wmks, with a space of 24 mm between each vertical row.

Size (1) was used for the ½d., 1d., 2d. and 4d., and size (2) for 2½d., 5d., 9d. and 2s. The paper in each case exactly fitted the plates, and had the watermark in register, though in the case of the 4d., the plate of which contained only 80 stamps, the paper was cut up to print it. The 3d., 6d., 8d. and 1s. were printed on variety (1), but with watermark sideways: by reason of this, examples from the margins of the sheets show parts of the words "NEW ZEALAND POSTAGE" in large letters, and some have no watermark at all. For the 1½d. and 5s. stamps variety (1) was also used, but two watermarks appear on each stamp.

*The only known example of No. 322c, postmarked at Picton on 21 March 1904, was purchased for the New Zealand Post archive collection in 1998.

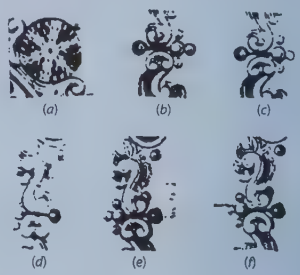
These plates have a dot in the margins between stamps, level with the small pearls at the side of the design, but it is frequently cut out by the perforations. However, they can be further distinguished by the notes below.

In 1906 fresh printings were made from four new plates, two of which, marked in the margin "W1" and "W2", were supplied by Waterlow Bros and Layton, and the other two, marked "R1" and "R2", by W. R. Royle & Son. The intention was to note which pair of plates wore the best and produced the best results. They can be distinguished as follows:—



(*a*) Four o'clock flaw in rosette at top right corner. Occurs in all these plates but not in the original Waterlow plates.
(*b*) Pearl at right strong.
(*c*) Pearl at right weak.
(*d*) Dot at left and S-shaped ornament unshaded.
(*e*) S-shaped ornament with one line of shading within.
(*f*) As (*e*) but with line from left pearl to edge of stamp.

"Dot" plates comprise (*a*) and (*d*).
Waterlow plates comprise (*a*), (*b*) and (*e*).
Royle plates comprise (*a*), (*c*) and (*e*) and the line in (*f*) on many stamps but not all.

The ½d. stamps of this 1907–8 issue have a minute dot in the margin between the stamps, where not removed by the perforation. (See note after No. 351*a*). Those perforated 14 can be distinguished from the earlier stamps, Nos. 302/*d*, by the absence of plate wear. This is most noticeable on the 1902 printings as a white patch at far left, level with the bottom of the "P" in "POSTAGE". Such damage is not present on the new plates used for Nos. 374/*c*.

Stamps of T **47**, **48** and **49** also have a small dot as described in note after No. 351*a*.

TYPOGRAPHY PAPERS.

1908–30. De La Rue paper is chalk-surfaced and has a smooth finish. The watermark is as illustrated. The gum is toned and strongly resistant to soaking.

Jones paper is chalk-surfaced and has a coarser texture, is poorly surfaced and the ink tends to peel. The outline of the watermark commonly shows on the surface of the stamp. The gum is colourless or only slightly toned and washes off readily.

Cowan paper is chalk-surfaced and is white and opaque. The watermark is usually smaller than in the "Jones" paper and is often barely visible.

Wiggins Teape paper is chalk-surfaced and is thin and hard. It has a vertical mesh with a narrow watermark, whereas the other papers have a horizontal mesh and a wider watermark.

*In addition to showing the usual characteristics of a line perforation, these stamps may be distinguished by their vertical perforation which measures 13.8. Nos. 388/94 generally measure vertically 14 to 14.3. An exception is 13.8 one vertical side but 14 the other.

†The 3d. and 6d. come in full sheets perf 14×13½. The 3d., 5d. and 6d. values also exist in two combinations: (*a*) five top rows perf 14×13½ with five bottom rows perf 14×14½ and (*b*) four top rows perf 14×13½ with six bottom rows perf 14×14½. The 8d. perf 14×13½ only exists from combination (*b*).

Examples of No. 405 with a blurred and heavy appearance are from booklets.

No. 406a comes from a sheet on which the paper coating was missing from the right-hand half.

Many stamps from the sheets of No. 408 were without watermark or showed portions of "NEW ZEALAND POSTAGE" in double-lined capitals.

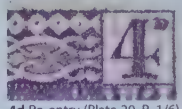
The 1½d., 2½d., 4½d. and 7½d. have value tablets as shown in Type **60**. For the other values the tablets are shortened and the ornamental border each side of the crown correspondingly extended.

With the exception of Nos. 432/4 stamps in this issue were comb-perforated 14×13½, 14×14½ or a combination of the two.

The 1½d. (No. 416), 2½d., 4d. (both), 4½d., 5d., 6d., 7½d., 8d. red-brown, 9d. and 1s. are known to have been produced in sheets perforated 14×13½ throughout with the 4d. bright violet, 5d., 6d. and 1s. known perforated 14×14½ throughout.

On the sheets showing the two perforations combined, the top four rows are usually perforated 14×13½ and the bottom six 14×14½. Combination sheets are known to have been produced in this form for the 1½d. (Nos. 416 and 431), 2d. (both), 2½d., 3d., 4d. (both), 4½d., 6d., 7½d., 8d. indigo-blue, 9d. and 1s. On a late printing of the 4d. deep purple and 5d. pale ultramarine the arrangement is different with the top five rows perforated 14×14½ and the bottom five 14×13½.

With the exception of Nos. 432/4 any with perforations measuring 14×14 or nearly must be classed as 14×14½, this being an irregularity of the comb machine, and not a product of the 14-line machine.



4d Re-entry (Plate 20, R. 1/6)

4d Re-entry (Plate 20, R. 4/10)

During the laying-down of plate 20 for the 4d., from the roller-die which also contained dies of other values, an impression of the 4½d. value was placed on R. 1/6 and of the 2½d. on R. 4/10. These errors were subsequently corrected by re-entries of the 4d. impression, but on R. 1/6 traces of the original impression can be found in the right-hand value tablet and above the top frame line, while on R. 4/10 the foot of the "2" is visible in the left-hand value tablet with traces of "½" to its right.

The designs of these stamps also differ as described beneath No. 434.

Stamps from booklet panes often have blurred, heavy impressions. Different advertisements can be found on the listed booklet panes.

Examples of No. 446aa, which occur in booklet panes, show the stamps perforated at top.

The ½d. and 2d. (Nos. 446c and 448b) are known showing ½d. and 1d. local surcharges from 1932 applied diagonally in blue to stamps previously stuck on to envelopes or cards at Christchurch (½d.) or Wellington (1d.).

No. 468ex exists in a range of colours including scarlet and deep carmine to magenta but we have insufficient evidence to show that these were issued.

Following the reduction of the postage rate to ½d. on 1 June 1932 the firm of R. H. White & Co. Ltd. of Stratford returned a quantity of envelopes stamped with 1d. stamps (No. 468) to the New Plymouth post office who surcharged the stamps "HALFPENNY" in purple using a handstamp. The covers were then returned to the firm for normal use. Similar local surcharges were applied diagonally to 1d. stamps stuck onto postcards or lettercards at Dunedin, Greymouth and Invercargill in blue or at Palmerston North in purple. With the exception of the Greymouth provisional, where 40 mint examples were acquired by a stamp dealer, these local surcharges are only found unused, no gum, or used.

Nos. 472 to 543 are vacant.

Some stamps from sheets perforated 14×13½ by De La Rue sometimes show the horizontal perforations nearer 13½.

In the 2½d., 5d., 2s. and 3s. perf 13–14×13½ the horizontal perforations of each stamp are in two sizes, one half of each horizontal side measuring 13 and the other 14.

*†Stamps indicated with an asterisk were printed and perforated by Waterlow; those having a dagger were printed by D.L.R. and perforated by Waterlow. No. 580d was printed by D.L.R. and perforated by Harrison and No. 583c was printed by Waterlow and perforated by D.L.R. These are all known as "Blitz perfs" because De La Rue were unable to maintain supplies after their works were damaged by enemy action. All the rest, except the 9d., were printed and perforated by D.L.R.

On stamps printed and perforated by De La Rue the perf 14×13½ varies in the sheet and is sometimes nearer 13½. 2d. perf 14×15 is sometimes nearer 14×14½.

2½d., 5d., 2s. and 3s. In perf 13–14×13½ one half the length of each horizontal perforation measures 13 and the other 14. In perf 14×13½ the horizontal perforation is regular.

4d. No. 583c. is line-perf measuring 14 exactly and has a blackish sepia frame. No. 583d is a comb-perf measuring 14×14.3 or 14×14.2 and the frame is a warmer shade.

2s. No. 589c is comb-perf and measures 13.5×13.75.

1s. Dies I and II. The two dies of the Queen's portrait differ in the shading on the sleeve at right. The long lines running upwards from left to right are strong in Die I and weaker in Die II. In the upper part of the shading the fine cross-hatching is visible in Die I only between the middle two of the four long lines, but in Die II it extends clearly across all four lines.

In the lower part of the shading the strength of the long lines in Die I makes the cross-hatching appear subdued, whereas in Die II the weaker long lines make the cross-hatching more prominent.

Centre plates 1A, 1B and 2B are Die I; 3A and 3B are Die II.

For stamps as T **172** but with larger figures of value see Nos. 745/51.

WHITE OPAQUE PAPER. A new white opaque paper first came into use in August 1958. It is slightly thicker than the paper previously used, but obviously different in colour (white, against cream) and opacity (the previous paper being relatively transparent).

Although issued as a definitive No. 925 was put on sale on the occasion of the Royal Visit to New Zealand.

Used examples of No. 931 are known showing the sky in light blue instead of the normal stone colour. It was suggested by the printer involved that this was caused by a residue of ink used for another stamp remaining in the ink ducts when a printing of the 30c. commenced. Most authorities, however, agree that the "blue sky" stamps are colour changelings.

The 1c., 2c., 3c. to 7c. and 8c. to 20c. values were re-issued between 1973 and 1976 on unwatermarked paper.

The letters signify "On Public Service Only" and stamps so overprinted were used exclusively at the General Post Office, Wellington, on official correspondence to foreign countries between December 1891 and 31 December 1906.

Four different handstamps were used, differing slightly in the length of the overprint. The handstamp was normally applied diagonally reading upwards but other positions are known.

The stamps were not available unused and such examples with the "O.P.S.O." handstamp are generally considered to be reprints.

POSTAL FISCAL STAMPS

As from 1 April 1882 fiscal stamps were authorised for postal use and conversely postage stamps became valid for fiscal use. Stamps in the designs of 1867 with "STAMP DUTY" above the Queen's head were withdrawn and although some passed through the mail quite legitimately they were mainly "philatelic" and we no longer list them. The issue which was specifically authorised in 1882 was the one which had originally been put on sale for fiscal use in 1880.

There is strong evidence that the authorities used up existing low value revenue stamps for postage, delaying the general release of the new "Postage and Revenue" low values (T **14**, **15** and **18**-**22**) to achieve this. Used prices for such stamps are for examples with 1882–3 postal cancellations.

Although all fiscal stamps were legally valid for postage, only values between 2s. and £1 were stocked at ordinary post offices. Other values could only be obtained by request from the G.P.O., Wellington or from offices of the Stamp Duties Department. Later the Arms types above £1 could also be obtained from the head post offices in Auckland, Christchurch, Dunedin and also a branch post office at Christchurch North where there was a local demand for them.

It seems sensible to list under Postal Fiscals the Queen Victoria stamps up to the £1 value and the Arms types up to the £5 because by 1931 the higher values were genuinely needed for postal purposes. The £10 was occasionally used on insured airmail parcels and is therefore also listed.

Although 2s. and 5s. values were included in the 1898 pictorial issue, it was the general practice for the Postal Department to limit the postage issues to 1s. until 1926 when the 2s. and 3s. appeared. These were then dropped from the fiscal issues and when in turn the 5s. and 10s. were introduced in 1953 and the £1 in 1960 no further printings of these values occurred in the fiscal series.

FORGED POSTMARKS. Our prices are for stamps with genuine postal cancellations. Beware of forged postmarks on stamps from which fiscal cancellations have been cleaned off.

Many small post offices acted as agents for government departments and it was the practice to use ordinary postal date-stamps on stamps used fiscally, so that when they are removed from documents they are indistinguishable from postally used specimens unless impressed with the embossed seal of the Stamp Duties Department.

Date-stamps very similar to postal date-stamps were sometimes supplied to offices of the Stamp Duties Department and it is not clear when this practice ceased. Prior to the Arms types the only sure proof of the postal use of off-cover fiscal stamps is when they bear a distinctive duplex, registered or parcel post cancellation, but beware of forgeries of the first two.

F1	F **1**	1d. lilac	£1100	£600
F2		1d. blue	£275	45·00
		w. Wmk inverted	—	£250

The 1d. fiscal was specifically authorised for postal use in February 1882 owing to a shortage of the 1d. Type **5** and pending the introduction of the 1d. Type **14** on 1 April.

The 1d. lilac fiscal had been replaced by the 1d. blue in 1878 but postally used copies with 1882 duplex postmarks are known although most postally used examples are dated from 1890 and these must have been philatelic.

F3	F **2**	1s. grey-green		
F4	F **3**	1s. grey-green and red		
F4*a*		2s. rose and blue		

Examples of these are known postally used in 1882 and although not specifically authorised for postal use it is believed that their use was permitted where there was a shortage of the appropriate postage value.

WMK TYPE F 5. The balance of the paper employed for the 1867 issue was used for early printings of Type F **4** introduced in 1880 before changing over to the "N Z" and Star watermark. The values we list with this watermark are known with 1882–83 postal date stamps. Others have later dates and are considered to be philatelic but should they be found with 1882–83 postal dates we would be prepared to add them to the list.

F122	15s. green	£1100	£200
F123	£1 rose-carmine	£425	90·00

The "De La Rue" paper has a smooth finish and has toned gum which is strongly resistant to soaking.

(iii) Chalk-surfaced "Jones" paper. P 14½×14, comb (1924)

F124	2s. deep blue	95·00	11·00
F125	2s.6d. deep grey-brown	£100	12·00
F126	3s. purple	£200	15·00
F127	5s. yellow-green	£200	19·00
F128	10s. brown-red	£350	30·00
F129	12s.6d. deep purple	£13000	£5000
F130	15s. green	£950	£225

The "Jones" paper has a coarser texture, is poorly surfaced and the ink tends to peel. The outline of the watermark commonly shows on the surface of the stamp. The gum is colourless or only slightly toned and washes off readily.

(iv) Thick, opaque, chalk-surfaced "Cowan" paper. P 14½×14, comb (1925–30)

F131	2s. blue	75·00	9·50
F132	2s.6d. deep grey-brown	90·00	10·00

F140	12s.6d. blackish purple	£13000	£5000
F141	15s. green	£1000	£225
F142	£1 rose-pink	£425	95·00

The "Cowan" paper is white and opaque and the watermark, which is usually smaller than in the "Jones" paper, is often barely visible.

(v) Thin, hard, chalk-surfaced "Wiggins Teape" paper. P 14½×14, comb (1926)

F143	4s. orange-red	£190	26·00
F144	£1 rose-pink	£475	£170

The "Wiggins Teape" paper has a horizontal mesh, in relation to the design, with narrow watermark, whereas other chalk-surfaced papers with this perforation have a vertical mesh and wider watermark.

The original printings were line perforated on paper with the watermark sideways inverted (top of star pointing to right, *when viewed from the back*). In 1968 the stamps appeared comb perforated with the watermark sideways (top of star to left). A further comb perforated printing in July 1984 showed the sideways inverted watermark.

TOKELAU ISLANDS

Formerly known as the Union Islands, and administered as part of the Gilbert & Ellice Islands Colony, Tokelau was transferred to New Zealand on 4 November 1925 and administered with Western Samoa. The Islands were finally incorporated in New Zealand on 1 January 1949 and became a dependency. The name Tokelau was officially adopted on 7 May 1946.

> Stamps of GILBERT AND ELLICE ISLANDS were used in Tokelau from Febuary 1911 until June 1926 when they were replaced by those of SAMOA. These were current until 1948.
>
> The post office on Atafu opened in 1911, but the cancellations for the other two islands, Fakaofo and Nukunono, did not appear until 1926.

NIUE

Niue became a British Protectorate on 20 April 1900 and was transferred to New Zealand control on 11 June 1901. There was considerable local resentment at attempts to incorporate Niue into the Cook Islands and, in consequence, the island was recognised as a separate New Zealand dependency from 1902.

Nigeria

LAGOS

A British Consul was established at Lagos during 1853 as part of the anti-slavery policy, but the territory was not placed under British administration until occupied by the Royal Navy in August 1861. From 19 February 1866 Lagos was administered with Sierra Leone and from July 1874 as part of Gold Coast. It became a separate colony on 13 January 1886.

Although a postal service had been established by the British G.P.O. in April 1852 no postal markings were supplied to Lagos until 1859. The British G.P.O. retained control of the postal service until June 1863, when it became the responsibility of the colonial authorities.

Lagos was incorporated into the Colony and Protectorate of Southern Nigeria, previously formed from Niger Coast Protectorate and part of the Niger Company territories, on 16 February 1906. Stamps of Lagos were then authorised for use throughout Southern Nigeria.

NIGER COAST PROTECTORATE

OIL RIVERS PROTECTORATE

A British consulate for the Bights of Benin and Biafra was established in 1849 on the off-shore Spanish island of Fernando Po. In 1853 the appointment was divided with a consul for the Bight of Benin at Lagos. The consulate for the Bight of Biafra was transferred to Old Calabar in 1882.

A British protectorate was proclaimed over the coastal area, with the exceptions of the colony of Lagos and the centre of the Niger delta, on 5 June 1885. It was not, however, until July 1891 that steps were taken to set up an administration with a consul-general at Old Calabar and vice-consuls at some of the river ports.

The consulate-general at Old Calabar and the vice-consulates at Benin, Bonny, Brass, Forcados and Opobo acted as collection and distribution centres for mail from November 1891, but were not recognised as post offices until 20 July 1892.

For a few months from July 1892 local administrative handstamps, as Type Z **1**, were in use either as obliterators or in conjunction with the c.d.s.

Z 1

These oval handstamps are usually found on the 1892–94 overprinted issue, but the following are known on unoverprinted stamps of Great Britain:

1892.

BENIN

Stamps of GREAT BRITAIN cancelled with oval postmark, Type Z **1**, inscribed "BENIN".

Z1	2½d. purple/*blue* (V.)	£1500

BONNY

Z3	2½d. purple/*blue* (Blk.)	£1000

OLD CALABAR RIVER

Stamps of GREAT BRITAIN cancelled with oval postmark, Type Z **1**, inscribed "OLD CALABAR".

Z4	2½d. purple/*blue* (Blk.)	£1000

Stamps of GREAT BRITAIN cancelled "BRITISH VICE-CONSULATE OLD CALABAR" within double-lined circle.

Z5	2½d. purple/*blue* (V.)	£750
Z6	5d. dull purple and blue (V.)	

For later use of Type Z **1** and the circular Vice-Consulate marks see note beneath No. 6.

Z 2

Unoverprinted stamps of Great Britain remained officially valid for postage in the Protectorate until 30 September 1892, but were available from post offices in the Niger Company Territories up to the end of 1899. The two areas were so closely linked geographically that offices in the Protectorate continued to accept letters franked with Great Britain stamps until the reorganisation of 1900. The listing below covers confirmed examples, known on cover or piece, the prices quoted being for the latter.

There are two main settings of the "One Shilling" surcharge:—

Type A. The "O" is over the "hi" of "Shilling" and the downstrokes on the "n" in "One", if extended, would meet the "ll" of "Shilling". The "g" is always raised. Type A is known in all three colours from one sheet of 120.

Type B. The "O" is over the first "i" of "Shilling" and the downstrokes of the "n" would meet the "li" of "Shilling". Type B is known in violet (two sheets) and vermilion (one sheet).

An example of No. 38 with surcharge diagonal, inverted exists in the Royal collection.

NIGER COAST PROTECTORATE

The protectorate was extended into the interior and the name changed to Niger Coast Protectorate on 12 May 1893.

PERFORATION. There are a number of small variations in the perforation of the Waterlow issues of 1893 to 1898 which were due to irregularity of the pins rather than different perforators.

In the following lists, stamps perf 12, 12½, 13 or compound are described as perf 12–13, stamps perf 13½, 14 or compound are described as perf 13½–14 and those perf 14½, 15 or compound are listed as perf 14½–15. In addition the 13½–14 perforation exists compound with 14½–15 and with 12–13, whilst perf 15½–16 comes from a separate perforator.

Owing to temporary shortages in Southern Nigeria, the above issue was again in use at various times from 1902 until 1907.

On 1 January 1900 the Niger Coast Protectorate together with the southern portion of the Niger Company Territories became the protectorate of Southern Nigeria.

NIGER COMPANY TERRITORIES

Following the development of trade along the Niger, British commercial interests formed the United African Company in 1879 which became the National African Company in 1882 and the Royal Niger Company in 1886. A charter was granted to the Company in the same year to administer territory along the Rivers Niger and Benue over which a British protectorate had been proclaimed in June 1885. The Company's territories extended to the Niger delta to provide access to the interior.

Post Offices were opened at Akassa (1887), Burutu (1896), Lokoja (1899) and Abutshi (1899). The stamps of Great Britain were used from 1888.

On the establishment of postal services in 1887 the Company arranged with the British G.P.O. that unstamped mail marked with their handstamps would be delivered in Great Britain, the recipients, only being charged the normal rate of postage from West Africa. This system was difficult to administer, however, so the British authorities agreed in 1888 to the supply of G.B. stamps for use at the Company post offices.

Initially the stamps on such covers were left uncancelled until the mail arrived in the United Kingdom, the Company handstamp being struck elsewhere on the address side. This method continued to be used until early 1896, although a number of covers from the twelve months prior to that date do show the Company handstamp cancelling the stamps. Some of these covers were later recancelled on arrival in Great Britain. From May 1896 the postage stamps were cancelled in the Niger Territories.

In the following listings no attempt has been made to cover the use of the Company marks on the reverse of envelopes.

Dates given are those of earliest known postmarks. Colour of postmarks in brackets. Where two or more colours are given, price is for cheapest.

Stamps of GREAT BRITAIN cancelled as indicated below.

AKASSA

The listings for Nos. Z7/15*a* are for covers on which the Akassa handstamp appears on the front, but is not used as a cancellation for the G.B. stamps. Examples of Nos. Z16/26 occur, from 1895–96, with the handstamp struck on the front of the cover away from the stamps, or, from 1896, used as a cancellation. The prices quoted are for single stamps showing the cancellation; covers from either period being worth considerably more. On Nos. Z29/42*b* the handstamp was used as a cancellation and the prices quoted are for single stamps.

AGENT GENERAL NIGER TERRITORIES

The listings for Nos. Z78/81 are for covers showing a handstamp struck on the address side, but not used as a cancellation for the G.B. stamp.

1894–99. Cancelled as T **8**, but inscribed "AGENT GENERAL NIGER TERRITORIES".

Z77		1d. lilac (V.)	
Z78		2½d. purple/*blue* (V.)	£2500

1895–96. Cancelled as T **7**, but inscribed as Nos. Z77/8.

Z79		2½d. purple/*blue* (V.)	£2500
Z80		5d. dull purple and blue (V.)	£2500
Z81		10d. dull purple and carmine (V.)	£2500
Z82		2s.6d. deep lilac (V.)	

It is now believed that these cancellations may have been used at Asaba. They all occur on covers with Akassa handstamps, often of different dates.

The British Government purchased the Royal Niger Company territories and from 1 January 1900 they were incorporated into the protectorates of Northern and Southern Nigeria. Of the post offices listed above, only Lokoja was then situated in Northern Nigeria, the remainder joining Niger Coast in forming Southern Nigeria.

Issues for Northern Nigeria did not reach Lokoja until sometime in March 1900 and the post office there continued to use unoverprinted stamps of Great Britain until these supplies arrived.

NORTHERN NIGERIA

The protectorate of Northern Nigeria was formed on 1 January 1900 from the northern part of the Niger Company Territories. Only one post office existed in this area, at Lokoja, and this continued to use unoverprinted stamps of GREAT BRITAIN until the arrival of Nos. 1/9 during April 1900.

On 1 January 1914 Northern Nigeria became part of Nigeria.

SOUTHERN NIGERIA

The Colony and Protectorate of Southern Nigeria was formed on 1 January 1900 by the amalgamation of Niger Coast Protectorate with the southern part of the Niger Territories. Lagos was incorporated into the territory on 1 May 1906.

The stamps of NIGER COAST PROTECTORATE were used in Southern Nigeria until the introduction of Nos. 1/9, and also during a shortage of these values in mid-1902. The issues of LAGOS were utilized throughout Southern Nigeria after 1 May 1906 until supplies were exhausted.

1d. Die I Flat-bed

Die Ia Rotary

Two types of 1d.:

The Belgian rotary printings have thicker lines of shading giving blotches of black colour instead of fine lines, particularly in the stirrups.

20 "Groundnuts"

21 "Tin"

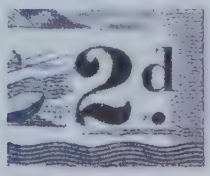
2d. Major re-entry showing duplication of steps of the terraces (Pl 3, R. 1/5)

2d. Type A Gap in row of dots

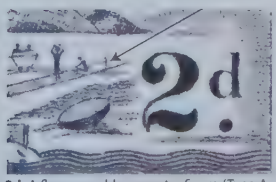
Type B Unbroken row of dots

Two types of 2d. slate-violet:

Nos. 72c/cc. The original cylinder used was Type A (July 1956); later Type B (Sept 1957). The above illustrations will help classification, but two stamps per sheet of 60 of Type A show faint dots. Shades are distinctive.



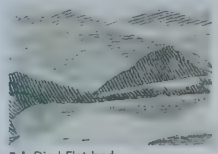
"2d" re-entry. Partial doubling of the "2d" and dot (Type A, R. 5/2 and 3). Also known on booklet panes



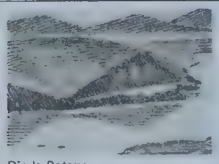
2d. A flaw resembles an extra figure (Type A, R. 5/4)

22 Jebba Bridge and River Niger

23 "Cocoa"



3d. Die I Flat-bed



Die Ia Rotary

Two types of 3d.:

As in the 1d. the Belgian rotary printings have thicker lines of shading and this is particularly noticeable in the dark hills in the background.

The 1d., 3d., 4d. (No. 177a), 1s., 1s.3d., 2s.6d., 5s. and £1 values exist overprinted "F.G.N." (Federal Government of Nigeria) twice in black. They were prepared during 1968 at the request of one of the State Governments for use as official stamps, but the scheme was abandoned and meter machines were used instead. Some stamps held at Lagos Post Office were sold over the counter in error and passed through the post in October 1968. The Director of Posts made limited stocks of all values, except the 1s., available from the Philatelic Bureau from 11 April 1969 "in order not to create an artificial scarcity", but they had no postal validity. Covers do, however, exist showing the 4d. value used by Lagos Federal Income Tax Office in April 1969, the 1s.3d. on commercial mail to Britain in May 1969 and others from the Office of the Secretary to the Military Government in 1973 carry the 3d., 4d. and 2s.6d. values.

BIAFRA

The Eastern Region of Nigeria declared its independence on 30 May 1967 as the Republic of Biafra. Nigerian military operations against the breakaway republic commenced in July 1967.

The Biafran postal service continued to use Nigerian stamps and when supplies of these became low in July 1967 "Postage Paid" cachets were used pending the issue of Nos. 1/3.

Designs:—1s. Victim of atrocity; 2s.6d. Nurse and refugees.

Nos. 17/21 also exist surcharged "HELP BIAFRAN CHILDREN" and different charity premium ranging from 2d. on the 4d. to 2s.6d. on the 10s. There is no evidence that these surcharges were used for postage within Biafra (*Price for set of 5 £2 mint*).

In September 1968 a set of four values, showing butterflies and plants, was offered for sale outside Biafra. The same stamps also exist overprinted "MEXICO OLYMPICS 1968" and Olympic symbol. There is no evidence that either of these issues were used for postage within Biafra (*Price for set of 4 £4 (Butterflies and Plants) or £3.50 (Olympic overprints), both mint*).

CANCELLED-TO-ORDER. Many issues of Biafra, including the three unissued sets mentioned above, were available cancelled-to-order with a special "UMUAHIA" handstamp. This was the same diameter as postal cancellations, but differed from them by having larger letters, 3 mm. high, and the year date in full. Where such cancellations exist on issued stamps the used prices quoted are for c-t-o examples. Postally used stamps are worth considerably more.

42		3s. Pope Paul VI, map of Africa and Statue of St. Peter	3·25	16·00
39/42 *Set of* 4			7·00	32·00

A miniature sheet with a face value of 10s. was also released.

No. 42 has a magenta background. This value is also known with the background in brown-red or brown.

On 17 December the French Agency released a Christmas issue consisting of Nos. 39/42 overprinted "CHRISTMAS 1969 PEACE ON EARTH AND GOODWILL TO ALL MEN" together with the miniature sheet overprinted "CHRISTMAS 1969" and surcharged £1. Later Nos. 35/38 were released overprinted in red "SAVE BIAFRA 9TH JAN 1970" with a premium of 8d., 1s.4d., 4s., and 10s. respectively together with the miniature sheet with a premium of £1. We have no evidence that these issues were actually put on sale in Biafra before the collapse, but it has been reported that the 4d. Christmas issue and 2d.+8d. Save Biafra exist genuinely used before capitulation.

Nos. 40/41 have been seen surcharged "+ 10/-HUMAN RIGHTS" and the United Nations emblem but it is doubtful if they were issued.

No. 81 of Nigeria has also been reported with the original "ROYAL VISIT 1956" overprint, together with "NIGERIA" from the basic stamp, obliterated and a "SERVICE" overprint added. Such stamps were not used for official mail in Biafra, although an example is known with the "UMUAHIA" c-t-o mark.

Biafra was overrun by Federal troops in January 1970 and surrender took place on 15 January.

CANCELLED-TO-ORDER—Prices are separately indicated in a third price column, for stamps showing the recognisable black bars remainder cancellation. The issues since 1916 have not been thus cancelled.

It should be noted, however, that a postmark of this form was in use for postal purposes up to this period, and was used at one or two of the smaller post-offices until 1949. A small oval with five bars was used to mark railway mail during 1945/55 and also as a paquebot mark at Jesselton *c.* 1950.

Nos. 39, 43 and 44 showing stamps printed double or triple, one inverted, are from waste sheets subsequently sold by the British North Borneo Company to collectors.

These stamps to the 10c. value were forged on several occasions. Most forgeries of the ½c. value can be identified by the presence of a diagonal line joining the top two horizontal strokes of the uppermost Chinese character.

The new 25c. has the inscription "BRITISH NORTH BORNEO" in taller capitals. In the 50c. the "0" of the numerals "50" in the two upper corners is square-shaped at the top and bottom instead of being oval. The 1 dollar has 14 pearls instead of 13 at each side, and on the 2 dollars the word "BRITISH" measures 10½ to 11 mm in length in place of 12 mm.

PERFORATION. There are a number of small variations in the perforation of the Waterlow issues of 1894 to 1922 which we believe were due to irregularity of the pins rather than different perforators.

In the following lists, stamps perf 12, 12½, 13 or compound are described as perf 12–13, stamps perf 13½, 14 or compound are described as perf 13½–14 and those perf 14½, 15 or compound are listed as perf 14½–15. In addition the 13½–14 perforation exists compound with 14½–15 and with 12–13, whilst perf 15½–16 comes from a separate perforator.

Nos. 81/4 showing stamps printed double, double, one inverted, or on both sides, are from waste sheets subsequently sold by the British North Borneo Company to collectors.

No. 83a comes from a sheet (10×5) in which columns 3 to 10 were perf 14×11, column 2 perf compound of 14 and 11 (at right only) and column 1 perf 14 all round.

No. 98 was printed in an incorrect frame colour and it is doubtful if it was issued for postal purposes in North Borneo. Used examples come from dealers' stock sent to the territory for cancellation.

In the above the 18c. has "POSTAL REVENUE" instead of "POSTAGE & REVENUE" and the 24c. has those words omitted. These stamps were replaced by others with corrected inscriptions; see Nos. 110 and 111.

Examples of the Kudat postmark dated "AU 15 1899" struck on Nos. 112/26 are generally considered to be faked.

A new setting of the surcharge, with 2½ mm between "4" and "CENTS" for values to $2 and 3½ mm on the $5 and $10, was used for the SPECIMEN overprints, including unissued surcharges on the 1c., 2c. and 3c. values (*price* £130 *the set of three*).

The above stamps were dispatched from London in three consignments, of which two were lost through enemy action at sea.

No. 218*a* normally shows a second inverted albino surcharge.

No. 218*b* occurs from the top row of a sheet on which the surcharge was misplaced downwards. Stamps from the other rows show the lines of the surcharge transposed (with "TWO CENTS" above "RED CROSS").

Only one sheet was found of No. 228.

These stamps were sold at a premium of 2c. per stamp, which went to the Red Cross Society.

These overprints were applied from a number of settings covering 10, 20, 25 or 30 stamps at a time.

Of the ten settings known for the horizontal stamps the earliest were only used for the 1c. on which most of the varieties occur. Of the others the vast majority come from settings of 20 (10×2) with the stop after "EXHIBITION" variety on R. 2/7 or R. 2/9, or 25 (5×5) on which the same variety can be found on R. 5/4. In addition the 3c. comes from a different setting of 20 (10×2) on which there is a raised stop after "1922" on R. 2/8 and "EXHIBITICN." on R. 2/9.

The 1c. sequence is complicated, but additionally includes a setting of 10 with "BORHEO" on stamps 3 and 10, "BORNEQ" on stamp 4, raised stop on stamp 8 and "EXHIBITICN." on stamp 9. A setting of 20 repeats this sequence on its bottom line as does one of 30, although in this instance "MHLAYA" joins "EXHIBITICN" as the variety on stamp 9.

For the vertical stamps (2, 6, 10, 12, 16 and 20c. on 18c.) the settings were of 20 (10×2) or 25 (5×5). The stop after "EXHIBITION" occurs on R. 2/7 or R. 2/9 of the former and R. 5/4 of the latter.

The 25c. and 50c. high values were overprinted from a setting of 10×1 or 25 (5×5), with the stop after "EXHIBITION" on R. 5/4 of the latter.

BRITISH MILITARY ADMINISTRATION

North Borneo, including Labuan, was occupied by the Japanese in January 1942. Australian forces landed on Labuan on 10 June 1945 and by the end of the war against Japan on 14 August had liberated much of western North Borneo. Prior to the issue of Nos. 320/34 Australian stamps were made available for civilian use. The territory was placed under British Military Administration on 5 January 1946.

D3s, D5s, D8s, D10cs, D11s Optd "SPECIMEN" *Set of 5*			£160		

There were two local overprintings of these stamps which show variations in the distance between the two words. Further overprints were produced in London for sale to dealers by the British North Borneo Company. Those listings marked with an * only exist from the London overprinting and are usually only known cancelled-to-order.

No. D5b comes from at least one sheet which was included in a later overprinting.

LABUAN

CROWN COLONY

The island of Labuan, off the northern coast of Borneo, was ceded to Great Britain by the Sultan of Brunei in December 1846.

Stamps of STRAITS SETTLEMENTS were used from 1867 until 1879. Covers of 1864 and 1865 are known from Labuan franked with stamps of INDIA or HONG KONG.

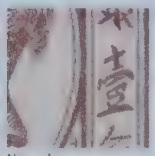
		j. Imperf between (horiz pair)	£18000	
		w. Wmk inverted	90·00	90·00
		x. Wmk reversed	45·00	
36		6c. on 8c. mauve (R.) (No. 31*b*) (2.92)	£1500	£800
		a. Surch inverted	£1800	£1000
		b. No dot at lower left	£3000	
37		6c. on 16c. blue (No. 4) (3.92)	£2750	£2250
		a. Surch inverted	£15000	£8000
38		6c. on 40c. amber (No. 21)	£14000	£5000
		a. Surch inverted	£12000	£8000

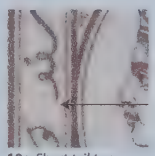
There are two different versions of Type **10** with the lines of the surcharge either 1 mm or 2 mm apart.



Normal

10c. Missing stroke at left of third Chinese character (R. 2/3)

Normal



10c. Short tail to upper Jawi character (R. 4/4)

(Recess D.L.R.)

1892–93. No wmk. P 14.

39	**1**	2c. rose-lake	6·50	3·50
40		6c. bright green	14·00	4·50
		a. No dot at upper left	30·00	15·00
41		8c. violet	13·00	19·00
		a. Pale violet (1893)	9·00	19·00
43		10c. brown	32·00	8·00
		a. Sepia-brown (1893)	26·00	19·00
		b. Missing stroke to Chinese character	£110	35·00
		c. Short tail to Jawi character	£110	35·00
45		12c. bright blue	15·00	6·50
		a. No right foot to second Chinese character	30·00	18·00
46		16c. grey	15·00	18·00
47		40c. ochre	23·00	45·00
		a. Brown-buff (1893)	50·00	25·00
39/47 *Set of 7*			£100	75·00

The 6c., 12c., 16c. and 40c. are in sheets of ten, as are all the earlier issues. The other values are in sheets of 30.

1892 (Dec). Nos. 47 and 46 surch locally as T **11** or **12**.

49	**1**	2c. on 40c. ochre (13 Dec)	£170	£100
		a. Surch inverted	£450	£600
50		6c. on 16c. grey (20 Dec)	£375	£150
		a. Surch inverted	£550	£300
		b. Surch sideways	£550	£300
		c. Surch "Six Cents"	£1900	

There are ten slightly different versions of each of these surcharges which were applied in settings of 5×2, although instances of single handstamps are known.

A "SIX CENTS" handstamp with Roman "I" in "SIX" (without dot) is a clandestine surcharge, although it can be found with genuine postmarks. It also exists sideways or inverted.

The "Six Cents" surcharge of No. 50c was handstamped onto examples where the Type **12** surcharge had failed to print or where it was partially or completely albino.

CANCELLED-TO-ORDER. Prices are separately indicated, in a third price column, for stamps showing the recognisable black bars remainder cancellation. Earlier issues of the Company administration were also so treated, but, as similar postal cancellations were used, these cannot be identified.

51s/7s H/S "SPECIMEN" *Set of 7*			£130		

Collectors are warned against forgeries of this issue.

PERFORATION. There are a number of small variations in the perforation of the Waterlow issues of 1894 to 1905 which we believe to be due to irregularity of the pins rather than different perforators.

In the following lists, stamps perf 12, 12½, 13 or compound are described as perf 12–13, stamps perf 13½, 14 or compound are described as perf 13½–14 and those perf 14½, 15 or compound are listed as perf 14½–15. In addition the 13½–14 perforation exists compound with 14½–15 and with 12–13, whilst perf 16 comes from a separate perforator.

The administration of Labuan reverted to Colonial Office control, as part of an agreement with Brunei on 1 January 1906. By Letters Patent dated 30 October 1906 Labuan was incorporated with Straits Settlements and ceased issuing its own stamps. In 1946 it became part of the Colony of North Borneo.

JAPANESE OCCUPATION OF NORTH BORNEO

Japanese forces landed in Northern Borneo on 15 December 1941 and the whole of North Borneo had been occupied by 19 January 1942.

Brunei, North Borneo, Sarawak and, after a short period, Labuan, were administered as a single territory by the Japanese. Until 12 December 1942, previous stamp issues, without overprint, continued to be used in conjunction with existing postmarks. From November 1942 onwards unoverprinted stamps of Japan were made available and examples can be found used from the area for much of the remainder of the War. Japanese Occupation issues for Brunei, North Borneo and Sarawak were equally valid throughout the combined territory but not, in practice, equally available.

The 2d. is known bisected and used as a 1d. at Luanshya or Nkana on various dates between 1937 and 1951 and on understamped letters from South Africa at Chingola in May 1950.

Following an increase in the internal letter rate from 1½d. to 2d. on 1 July 1953 stocks of postage due stamps at Mkushi became exhausted. As an emergency measure the sub-postmaster was authorised to surcharge examples of No. 28 "POSTAGE DUE (or Postage Due, or "postage due") 1d." in red by typewriter. No. 55, the 1d. Rhodes Centenary stamp was also surcharged. Examples properly used on cover between 23 July and 15 September 1953 are of considerable scarcity (*Price on cover from* £4750). No unused examples exist.

By 1891 the territory west of Lake Nyasa was recognised as being under British protection and the southern, eastern and northern borders had been delineated with the Portuguese and German governments.

BRITISH CENTRAL AFRICA

A protectorate under the name "Nyassaland Districts" was declared on 14 May 1891, the title being changed to the "British Central Africa Protectorate" on 22 February 1893. Such a description had been in use for some time previously and the handwritten notice of 20 July 1891, announcing the introduction of postal services, described the area as "British Central Africa".

Until 1895 the British South Africa Company contributed to the revenues of the protectorate administration which, in return governed North-eastern Rhodesia. Stamps of the British South Africa Company overprinted "B.C.A.", in addition to use in British Central Africa, were issued to post offices at Fife, Fort Rosebery, Katwe, Johnston Falls, Rhodesia (later Kalungwisi) and Tanganyika (later Abercorn) in North-eastern Rhodesia from 1893 until 1899.

Cancellations inscribed "BRITISH CENTRAL AFRICA" within a double-circle and with the name of a town across the centre or at foot were intended for use on stamps presented for the payment of the hut tax. Such marks can be found in black, violet or blue and are without date. Stamps with such fiscal obliterations are of little value. Prices quoted are for postally used.

Nos. 69/70 were prepared, but not issued in Nyasaland due to the Protectorate's name being changed. It is estimated that no more than a dozen examples of each remain in collectors' hands. Dangerous fakes, made from Nos. 60/1, are in circulation, but note that genuine examples are on chalk-surfaced paper, whereas the previous issue was on ordinary paper.

NYASALAND PROTECTORATE

The title of the Protectorate was changed again from 6 July 1907.

The printer's archives record the despatch of No. 142a to Nyasaland in January 1938, but no examples have been reported used before 1945. The paper coating on this printing varied considerably across the sheet. It is reported that some examples show a faint reaction to the silver test.

ERRORS. In the above issue and the corresponding official stamps we have listed errors in the stamps surcharged by the Pakistan Security Printing Corp but have not included the very large number of errors which occurred in the stamps surcharged by the less experienced Times Press. This was a very hurried job and there was no time to carry out the usual checks. It is also known that some errors were not issued to the public but came on the market by other means.

NOTE. Stamps in the old currency were also handstamped with new currency equivalents and issued in various districts but these local issues are outside the scope of this catalogue.

BAHAWALPUR

Bahawalpur, a former feudatory state situated to the west of the Punjab, was briefly independent following the partition of India on 15 August 1947 before acceding to Pakistan on 3 October of the same year.

East India Company and later Indian Empire post offices operated in Bahawalpur from 1854. By a postal agreement of 1879 internal mail from the state administration was carried unstamped, but this arrangement was superseded by the issue of Official stamps in 1945.

These had been preceded by a series of pictorial stamps prepared in 1933–34 on unwatermarked paper. It was intended that these would be used as state postage stamps, but permission for such use was withheld by the Indian Government so they were used for revenue purposes. The same designs were utilised for the 1945 Official series, Nos. O1/6, on paper watermarked Star and Crescent. Residual stocks of the unwatermarked 1a., 8a., 1r. and 2r. were used for the provisional Officials, Nos. O7 and O11/13.

A commemorative 1a. Receipt stamp was produced to mark the centenary of the alliance with Great Britain. This may not have been ready until 1935, but an example of this stamp is known used on cover from Deh Rawal to Sadiq Garh and postmarked 14 August 1933. Both this 1a. and the same value from the unwatermarked set also exist with Official Arabic overprint in black. These were not issued for postal purposes although one used example of the latter has been recorded postmarked 22 February 1933 also from Deh Rawal.

Stamps of India were overprinted in the interim period between 15 August and 3 October 1947. After the state joined Pakistan postage stamps were issued for internal use until 1953.

PRICES FOR STAMPS ON COVER
The postage and Official stamps of Bahawalpur are rare used on cover.

Nos. 1/17 were issued during the interim period, following the implementation of the Indian Independence Act, during which time Bahawalpur was part of neither of the two Dominions created. The Amir acceded to the Dominion of Pakistan on 3 October 1947 and these overprinted stamps of India were then withdrawn.

The stamps of Bahawalpur only had validity for use within the state. For external mail Pakistan stamps were used.

From 1947 stamps of Pakistan were used on all external mail. Bahawalpur issues continued to be used on internal mail until 1953.

Palestine

The stamps of TURKEY were used in Palestine from 1865.

In addition various European Powers, and Egypt, maintained post offices at Jerusalem (Austria, France, Germany, Italy, Russia), Jaffa (Austria, Egypt, France, Germany, Russia) and Haifa (Austria, France) using their own stamps or issues specially prepared for Levant post offices. All foreign post offices had closed by the time of the British Occupation.

BRITISH MILITARY OCCUPATION

British and allied forces invaded Palestine in November 1917 capturing Gaza (7 November), Jaffa (16 November) and Jerusalem (9 December). The front line then stabilised until the second British offensive of September 1918.

Nos. 1/15 were issued by the British military authorities for use by the civilian population in areas they controlled previously, part of the Ottoman Empire. Before the issue of Nos. 1/2 in February 1918, civilian mail was carried free. In addition to Palestine the stamps were available from E.E.F. post offices in Syria (including what subsequently became Transjordan) from 23 September 1918 to 23 February 1922, Lebanon from 21 October 1918 to September 1920 and Cilicia from 2 September 1919 to 16 July 1920. Use in the following post offices outside Palestine is recorded in *British Empire Campaigns and Occupations in the Near East, 1914–1924* by John Firebrace:

Two settings of Type **4**:

Setting I (used for Nos. 16/26). This consisted of two horizontal rows of 12 of which the first setting row appeared on Rows 1, 3/7, 15, 17/18 and 20 of the sheet and the second on Rows 2, 8/14, 16 and 19.

On the first position in the top setting row the Arabic "t" (third character from the left) is incorrectly shown as an Arabic "z" by the addition of a dot to its right. On the eleventh position in the same row the first two letters in the Hebrew overprint were transposed so that " character appears first. On row 12 stamp 1 the final "E" of "PALESTINE" appears as a "B" on certain values. Once the errors were noticed vertical columns one and eleven were removed from the remaining sheets.

"PALESTINB" (Setting II)

Setting II (used for Nos. 16/29). This consisted of a single horizontal row of 12 reproduced to overprint the complete sheet of 240. The order in which the horizontal rows were used was changed several times during overprinting. During one such re-arrangement a damaged impression was replaced by one from Setting I showing the Arabic "z" error. (R. 14/8 for 1, 2, 3, 4, 5m (P 14), 20p.). The "B" error also occurs in the second setting, once in each sheet on either R. 17/8, 18/8 or 19/8.

Faulty registration of the overprint in this issue has resulted in numerous misplaced overprints, either vertically or horizontally. All values exist with the overprint out of sequence, i.e. Hebrew/Arabic/English or English/Arabic/Hebrew. Also all values are known with Arabic/English or English/Hebrew only.

*In this setting the Arabic and Hebrew characters are badly worn and blunted, the Arabic "S" and "T" are joined (i.e. there is no break in the position indicated by the arrow in our illustration); the letters of "PALESTINE" are often irregular or broken; and the space between the two groups of Hebrew characters varies from 1 mm to over 1¾ mm. The " character in the left-hand Hebrew word extends above the remainder of the line (*For clear, sharp overprint, see Nos.* 47/59.).

The dates of issue given are irrespective of the perforations, i.e. one or both perfs could have been issued on the dates shown.

Nos. 31 and 39 exist with any one line of the overprint partly missing.

In this setting the Arabic and Hebrew characters are sharp and pointed and there is usually a break between the Arabic "S" and "T", though this is sometimes filled with ink. The space between the two groups of Hebrew characters is always 1¾ mm. The top of the " character in the Hebrew aligns with the remainder of the word.

The 3m. with "PALESTINE" omitted is an essay (*Price* £2500 *unused*).

POSTAL FISCALS

Type-set stamps inscribed "O.P.D.A." (= Ottoman Public Debt Administration) or "H.J.Z." (Hejaz Railway); British 1d. stamps of 1912–24 and Palestine stamps overprinted with one or other of the above groups of letters, or with the word "Devair", with or without surcharge of new value, are fiscal stamps. They are known used as postage stamps, alone, or with other stamps to make up the correct rates, and were passed by the postal authorities, although they were not definitely authorised for postal use.

Pitcairn Islands

CROWN COLONY

The settlement of Pitcairn Island by the *Bounty* mutineers in 1790 was not discovered until the American whaler *Topaz*, Capt. Mayhew Folger, called there in 1808. A visit by two Royal Navy frigates followed in 1814 and reports from their captains resulted in considerable interest being taken in the inhabitants' welfare by religious and philanthropic circles in Great Britain.

Due to overcrowding the population was resettled on Tahiti in 1831, but many soon returned to Pitcairn which was taken under British protection in 1838. The island was again evacuated in 1856, when the inhabitants were moved to Norfolk Island, but a number of families sailed back to their original home in 1859 and 1864.

The earliest surviving letter from the island is dated 1849. Before 1921 the mail service was irregular, as it depended on passing ships, and mail for the island was often sent via Tahiti. Some covers, purportedly sent from Pitcairn between 1883 and 1890 are known handstamped "Pitcairn Island" or "PITCAIRN ISLAND", but these are now believed to be forgeries.

In 1920 a regular mail service was introduced. As there were no stamps available, letters were allowed free postage as long as they carried a cachet, or manuscript endorsement, indicating their origin. Illustrations of Cachets I/VI, VIII, VIIIa, X and XIII are taken from *Pitcairn Islands Postal Markings 1883–1991*, published by the Pitcairn Islands Study Group, and are reproduced by permission of the author, Mr. Cy Kitching. Cachets I to XIII are shown three-quarter size.

The New Zealand Government withdrew the free postage concession on 12 May 1926, but after representations from the islanders, opened a postal agency on Pitcairn using New Zealand stamps cancelled with Type Z **1**. Some impressions of this postmark appear to show a double ring, but this is the result of heavy or uneven use of the handstamp. The postal agency operated from 7 June 1927 until 14 October 1940.

The Earlier New Zealand stamps are known cancelled with Type Z **1**, but these were not supplied to the postal agency and their use is considered to be contrived.

PRICES. Those quoted for Nos. Z1/72 and ZF1 are for examples showing a virtually complete strike of Type Z **1**. Due to the size of the cancellation such examples will usually be on piece.

STAMP BOOKLET

1940 (15 Oct). Black on deep green cover. Stapled.

SB1 4s.8d. booklet containing one each ½d., 1d., 1½d., 2d., 3d., 6d., 1s. and 2s.6d. (Nos. 1/5, 6, 7/8) ... £3250

Genuine examples of No. SB1 are interleaved with ordinary kitchen wax-paper, which frequently tones the stamps, and are secured with staples 17 mm long.

The status of other booklets using different size staples or paper fasteners is uncertain although it is believed that some empty booklet covers were available on the island.

Qatar

1957. 100 Naye Paise = 1 Rupee 1966. 100 Dirhams = 1 Riyal

The Arab Shaikhdom of Qatar consists of a large peninsula jutting into the Persian Gulf. In 1868, after Qatar had been invaded by Bahrain, a member of the leading Al Thani family was installed as Shaikh and an agreement was made by which he referred to the British Resident all disputes in which the shaikhdom was involved. Qatar was under nominal Turkish suzerainty, and Turkish troops were stationed there from 1871 until August 1915, when the Royal Navy forced them to abandon Doha, the capital, to the shaikh. On 3 November 1916 the shaikhdom entered into special treaty relations with the United Kingdom giving it British naval and military protection from attack. Oil was discovered on the peninsula in January 1940 and was first shipped to Europe at the end of 1949. On the withdrawal of British forces from the Gulf, Qatar declined to join the United Arab Emirates, terminated the Treaty with Great Britain and became fully independent on 3 September 1971.

There was no postal service from Qatar until 18 May 1950. Prior to this date the few foreign residents made their own arrangements for their mail to be carried to Bahrain for onward transmission through the postal service.

The first organised post from the capital, Doha, was an extension of the work in the state by the British Political Officer. From 18 May 1950 British residents were able to send mail via his office. The first three sendings had the Bahrain or British Postal Agencies in Eastern Arabia stamps cancelled by a circular office stamp, but later batches, up to the introduction of the first Doha postmark in July 1950, had the stamps cancelled on arrival at Bahrain.

July 1950 Cancellation

1956 Cancellation

The Post Office became a seperate entity in August 1950 when its services were made available to the general public. After initially using the Bahrain surcharges on Great Britain the supply of stamps for the Qatar office was switched to the British Postal Agencies in Eastern Arabia surcharges.

The circular cancellation, dating from July 1950, continued to be used until replaced by a slightly smaller version in early 1956.

A further post office was opened on 1 February 1956 at the Umm Said oil terminal, using its own cancellation.

Both offices were issued with standard oval Registered handstamps, Doha in 1950 and Umm Said in 1956.

Stamps of BECHUANALAND were used in Matabeleland on the runner post between Gubulawayo and Mafeking (Bechuanaland) from 9 August 1888 until 5 May 1894. Such stamps were cancelled "GUBULAWAYO" or by the barred oval "678" obliteration.

Between 27 June 1890 and 13 May 1892 external mail from Mashonaland sent via Bechuanaland was franked with that territory's stamps. A similar arrangement, using the stamps of MOZAMBIQUE existed for the route via Beira inaugurated on 29 August 1891. In both instances the stamps were cancelled by the post offices receiving the mail from Mashonaland. From 14 May until 31 July 1892 letters via Bechuanaland were franked with a combination of B.S.A Company and Bechuanaland issues.

Rhodesia joined the South African Postal Union on 1 August 1892 when its stamps became valid for international mail. Combination frankings with Mozambique stamps continued to be required until April 1894.

For the use of British Central Africa overprints in North-eastern Rhodesia from 1893 to 1899 see NYASALAND.

1/10 *Set of* 8			£700	£400

Great caution is needed in buying the high values in either used or unused condition, many stamps offered being revenue stamps cleaned and re-gummed or with forged postmarks.

*Printing of stamps in Types **1**, **2** and **4** commenced in 1890, although none were used for postal purposes before 2 January 1892 when the route to the East Coast was inaugurated.

**For later printings of the £2 see No. 74.

The following sheet watermarks are known on Nos. 1/26: (1) William Collins, Sons & Co's paper watermarked with the firm's monogram, and "PURE LINEN WOVE BANK" in double-lined capitals (1890 and 1891 ptgs). (2) As (1) with "EXTRA STRONG" and "139" added (1892 ptgs). (3) Paper by Wiggins Teape & Co, watermarked "W T & Co" in script letters in double-lined wavy border (1893 ptgs). (4) The same firm's paper, watermarked "1011" in double-lined figures (1894 ptgs except ½d.). (5) "WIGGINS TEAPE & CO LONDON" in double-lined block capitals (1894 ptg of No. 18). Many values can also be found on a slightly thicker paper without wmk, but single specimens are not easily distinguishable.

The remaining values were printed from double, i.e. head and duty, plates. There are at least four different head plates made from three different dies which may be distinguished as follows:—

Die I. The King's left ear is neither shaded nor outlined; no outline to top of cap. Shank of anchor in cap badge is complete.

Die II. The ear is shaded all over, but has no outline. The top of the cap has a faint outline. Anchor as Die I.

Die III. The ear is shaded and outlined; a heavy continuous outline round the cap. Shank of anchor is broken just below the lowest line which crosses it.

The 1922 printing shows the mesh of the paper very clearly through the gum. In the 1923 printing the gum is very smooth and the mesh of the paper is not so clearly seen. Where date is given as "(1922–23)" two printings were made, which do not differ sufficiently in colour to be listed separately.

Nos. 288/90 and 312/22 were never sent out to Rhodesia, but only issued in London. Any used copies could, therefore, only have been obtained by favour.

Southern Rhodesia, that part of the Company's territory south of the River Zambesi, became a self-governing colony on 1 October 1923. British South Africa Company rule continued in Northern Rhodesia until the administration was transferred to the Colonial Office on 1 April 1924.

The current stamps of Rhodesia, the Admiral series first issued in 1913, continued to be used in Southern Rhodesia until 1 April 1924 (invalidated 1 May 1924) and in Northern Rhodesia until 1 April 1925 (invalidated 30 September 1925).

TELEGRAPH STAMPS

Stamps were prepared by the Reuters agent in Bulawayo, Capt. C.L. Norris-Newman to cover the cost of sending messages to the northern end of the telegraph line, then under construction from Tati towards Bulawayo.

T2	T 2	5s. black	£500	£800
T3	T 3	10s. black	£450	£900

These stamps were produced from a hand-drawn stencil in sheets of 18 (6×3) with the three values *se-tenant*. The 10s. value (top row, inscribed "Bulawayo-Ramaguabane") was issued first, while the distance to the construction point was 96 miles. The 5s. value (middle row, inscribed "Bulawayo-Mangwe") came into use when the distance was reduced to 60 miles. The 2s.6d. value (bottom row, inscribed "Bulawayo-Fig Tree") was used only in the last phase, as the line neared Bulawayo, Fig Tree being 29 miles from Bulawayo. In June 1894 the Post Office took over the service and the stamps were withdrawn.

Used stamps were cancelled in blue crayon or ink with Capt. Norris-Newman's initials and the date.

For issues from 1924 to 1964 see Southern Rhodesia.

In October 1964 Southern Rhodesia was renamed Rhodesia.

UNILATERAL DECLARATION OF INDEPENDENCE

Independence was declared by Rhodesia on 11 November 1965 but this was not recognised by the British Government. Following a conference in London during 1979 it was agreed that the British Government should resume control, pending elections to be held in February 1980.

After the elections Rhodesia became an independent republic within the Commonwealth on 18 April 1980, as ZIMBABWE.

Owing to the existence of forgeries, the errors should only be purchased when accompanied by a certificate of genuineness. Unique pairs of the 1d and 3d exist with the overprint omitted from one stamp, but both are defective. Other overprint errors exist from the clandestine use of the original settings.

POSTAGE DUE STAMPS

After Federation in 1954 existing stocks of Postage Due Stamps from Northern Rhodesia, Nyasaland and Southern Rhodesia continued to be used and were sometimes distributed throughout the federation.

Increased postal rates in July 1956 and in 1959 led to the exhaustion of certain values, in particular the 1d., and various offices then used Rhodesia and Nyasaland postage issues for postage due purposes. There were isolated instances of such stamps being cancelled "POSTAGE DUE" from December 1956 onwards.

Some of these handstamps may have been applied at Bulawayo while others, in violet or black, originate from the Salisbury Delivery Room at Kingsway Post Office. Only the 1d. and 2d. (Nos. 2/3) are known with such handstamps. After mint examples began to appear the Postmaster General suppressed the use of the handstamps in August 1959.

Examples of the above are sometimes found showing no watermark; these are from the bottom row of the sheet, which had escaped the watermark, the paper being intended for stamps of a different size to Type **1**.

Some are found without bar and others with bar at top of stamp, due to careless overprinting.

Nos. 34a and 35a occur on R. 18/12 and show a minimum space between the letters of 0.8 mm. Normal examples are spaced 0.5 mm, but some stamps show intermediate measurements due to loose type. On No. 34ba only one impression of the surcharge shows "N" and "Y" spaced. On the reset surcharge, No. 36, a similar variety occurs on R. 5/9.

Of the 2½d. with double surcharge only six copies exist, and of the 2½d. doubly printed, one row of 12 stamps existed on one sheet only.

CANCELLATIONS. Nos. 40/5 and No. 20 were sold as remainders in 1904 defaced with a violet diamond-shaped grill with four interior bars extending over two stamps. These cannot be considered as *used* stamps, and they are consequently not priced in the list.

This violet obliteration is easily removed and many of these remainders have been cleaned and offered as unused; some are repostmarked with a date and name in thin type rather larger than the original, a usual date being "Ap.4.01."

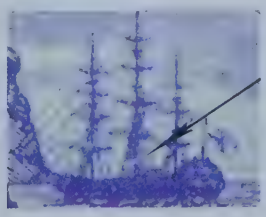
PLATE FLAWS ON THE 1922–37 ISSUE. Many constant plate varieties exist on both the vignette and duty plates of this issue. The major varieties are illustrated and listed below.



a. Broken mainmast. Occurs on R. 2/1 of all sheets from the second printing onwards. It does not appear on Nos. 93/6 and 111/13 as these stamps only exist from the initial printing invoiced in May 1922.

1936 and subsequent printings show additional minor varieties to the vignette of this stamp; a dent in the lower left frame and breaks in the bottom frame.

b. Torn flag. Occurs on R. 4/6 of all sheets from printings up to and including that invoiced in December 1922. The flaw was retouched for the printing invoiced in December 1926 and so does not occur on Nos. 97*g*, 99*e*, 103/*d*, 107/10 and 111*d*.

c. Cleft rock. Occurs on R. 5/1 of all sheets from the second printing onwards. It does not appear on Nos. 93/6 and 111/13 as these stamps only exist from the initial printing invoiced in May 1922.

ST. CHRISTOPHER

From 1760 the postal service for St. Christopher was organised by the Deputy Postmaster General on Antigua. It was not until May 1779 that the first postmaster was appointed to the island and the use of postmarks on outgoing mail commenced.

Stamps of Great Britain were used between May 1858 and the end of March 1860 when control of the postal services passed to the local authorities. In the years which followed, prior to the introduction of St. Christopher stamps in April 1870, a circular "PAID" handstamp was used on overseas mail.

The magenta used for the 1d. was a fugitive colour which reacts to both light and water.

No. 1a is known with both Crown to left of CC and Crown to right of CC, *as seen from the back of the stamp.*

No. 6a was authorised for use between March and June 1882 to make up the 2½d. letter rate and for ½d. book post.

The stamps for St. Christopher were superseded by the general issue for Leeward Islands on 31 October 1890.

NEVIS

Little is known concerning the early postal affairs of Nevis, although several covers exist from the island in the 1660s. It is recorded that the British G.P.O. was to establish a branch office on the island under an Act of Parliament of 1710, although arrangements may not have been finalised for a number of years afterwards. Nevis appears as "a new office" in the P.O. Accounts of 1787.

Stamps of Great Britain were used on the island from May 1858 until the colonial authorities assumed control of the postal service on 1 May 1860. Between this date and the introduction of Nevis stamps in 1862 No. CC1 was again used on overseas mail.

A total of 24 different transfers were used for the 1d. value, in a sequence of seven printings between June 1871 and Feb 1878. The retouches listed below occurred in the group of four transfers used for the 31 Dec 1876 printing.

Four different transfers were used for the 4d. value, but only one for the 6d. The two printings of the 1s. value, in Feb 1878 (pale green) and Nov 1878 (deep green) were from different transfers. The "crossed lines on hill" variety was retouched early in the second printing, so that No. 21c is only found on a small number of sheets.

St. Lucia

Although a branch office of the British G.P.O. was not opened at Castries, the island capital, until 1844 some form of postal arrangements for overseas mails existed from at least 1841 when the issue of a Ship Letter handstamp is recorded.

The stamps of Great Britain were used on the island from May 1858 until the end of April 1860 when the local authorities assumed responsibility for the postal service. No. CC1 was again used on overseas mail between 1 May and the introduction of St. Lucia stamps in December 1860.

For overprinting with Type **17** the sheets were vertically divided to the left of the centre margin and the top margin of the sheet was folded beneath the top row of stamps so that the marginal examples from this row show an inverted albino impression of the overprint in the top margin.

Examples are also recorded of similar albino overprints in the right-hand and bottom margins but it is unclear if some sheets had all margins folded under before overprinting.

		d. Missing stop after "LUCIA"	£900	
		e. Handstamped number double	†	£1900
		g. Incorrect number with correction above	£2000	£2250
		h. Two different numbers on same stamp	£2250	

Nos. D1/2 were produced in sheets of 60 (6×10) usually with imperforate outer edges at the top, at right and at foot. It would appear that the sheets were bound into books from which they could be detached using the line of perforations along the left-hand side.

There were three printings of each value, utilising the same basic type. The paper for the first two printings of the 1d. and the first printing of the 2d. showed papermaker's watermarks, that for the 1d. being "KINGSCLERE" in double-lined capitals below a crown with parts occurring on between ten and fourteen stamps in *some sheets*.

Details of the printings are as follows:

1d.

First printing. On paper with sheet watermark. Shows wide fount "No." on R. 10/3–6 and missing stop after "ST" on R. 5/3

Second printing. On paper with sheet watermark. Shows wide fount "No." on R. 10/2–6 and missing stop after "ST" on R. 5/3. The first two printings of the 1d. were numbered together as 1 to 12000.

Third printing. On paper without watermark. Shows wide fount "No." on all stamps in Row 10. Missing stop after "ST" on R. 5/3 corrected, but missing stop after "LUCIA" occurs on R. 9/2. Numbered 12001 to 24000.

2d.

First printing. On paper with sheet watermark. Shows wide fount "No." on R. 10/2–6 and missing stop after "ST" on R. 5/3 (as 1d. second printing). Numbered 1 to 4800.

Second printing. On paper without watermark. Shows wide fount "No." on all stamps in Row 10. Missing stop after "ST" corrected (printed *before* 1d. third printing). Numbered 4801 to 14400.

Third printing. On paper without watermark. Shows wide fount "No." on all stamps in Row 10. Missing stop after "ST" corrected, but missing stop after "LUCIA" occurs on R. 4/4 and 9/2 (printed *after* 1d. third printing). Numbered 14401 to 16800.

The handstamped numbers were applied at the Post Office using a numbering machine. Mistakes in the numbering on the 1d. were sometimes partially erased and then corrected with a second strike, either of the complete number or of incorrect digits, using a machine with a smaller fount.

St. Vincent

Although postal markings for St. Vincent are recorded as early as 1793 it was not until 1852 that the British G.P.O. opened a branch office at Kingstown, the island's capital.

The stamps of Great Britain were used between May 1858 and the end of April 1860. From 1 May in that year the local authorities assumed responsibility for the postal services and fell back on the use of No. CC 1 until the introduction of St. Vincent stamps in 1861.

1881. Nos. 30/1 surch locally. No. 33 is divided vertically as No. 28.

33	**4**	½d. on half 6d. bright green (R.) (1.9)	£160	£170
		a. Unsevered pair	£475	£500
		b. Fraction bar omitted (pair with and without bar)	£4250	£5000

35	**6**	4d. on 1s. bright vermilion (28.11)	£1600	£800
		a. 3mm space between "4d." and bar	£3000	£2250

No. 33 exists showing the "1" of "½" with a straight serif. Some examples come from a constant variety on R. 6/20, but others are the result of faulty type.

It is believed that Type **4** was applied as a setting of 36 (6×6) surcharges repeated three times on each sheet across rows 1 to 9. The missing fraction bar occurs on R. 6/3 of the setting.

The tenth vertical row of stamps appears to have been surcharged from a separate setting of 12 (2×6) on which a constant "straight serif" flaw occurs on the bottom right half-stamp.

Three unused single copies of No. 33 are known with the surcharge omitted.

It is believed that Nos. 34 and 35 were surcharged in settings of 30 (10×3).

No. 34 was only on sale between the 30 November and 3 December when supplies of No. 37 became available.

INDEPENDENT KINGDOM OF SAMOA

The first postal service in Samoa was organised by C. L. Griffiths, who had earlier run the *Fiji Times* Express post in Suva. In both instances the principal purpose of the service was the distribution of newspapers of which Griffiths was the proprietor. The first issue of the *Samoa Times* (later the *Samoa Times and South Sea Gazette*) appeared on 6 October 1877 and the newspaper continued in weekly publication until 27 August 1881.

Mail from the Samoa Express post to addresses overseas was routed via New South Wales, New Zealand or U.S.A. and received additional franking with stamps of the receiving country on landing.

Cancellations, inscribed "APIA SAMOA", did not arrive until March 1878 so that examples of Nos. 1/9 used before that date were cancelled in manuscript. The Samoa Express stamps may also be found cancelled at Fiji, Auckland and Sydney.

Originals exist imperf, but are not known used in this state.

On sheets of the 1d., 1st state, at least eight stamps have a stop after "PENNY". In the 2nd state, three stamps have the stop, and in the 3rd state, only one.

In the 1st state, all the stamps, 1d., 3d. and 6d., were in sheets of 20 (5×4) and also the 1d. in the 3rd state.

All values in the 2nd state, all values except the 1d. in the 3rd state and No. 20 were in sheets of ten (5×2).

As all sheets of all printings of the originals were imperf at the outer edges, the only stamps which can have perforations on all four sides are Nos. 1 to 3*a*, 10 and 15 to 15*b*, all other originals being imperf on one or two sides.

The perf 12 stamps, which gauge 11.8, are generally very rough but later the machine was repaired and the 1d., 3d. and 6d. are known with clean-cut perforations.

Remainders of the 1d., unissued 2d. rose, 6d. (in sheets of 21 (7×3), 3d., 9d., 5s. (in sheets of 12 (4×3)) and of the 1s. and 2s. (sheet format unknown) were found in the Samoan post office when the service closed down in 1881. The remainders are rare in complete sheets.

Reprints of all values, in sheets of 40 (8×5), were made after the originals had been withdrawn from sale. These are practically worthless.

The majority of both reprints and remainders are in the 4th state as the 9d. with the spot of colour under the middle stroke of the "M", but a few stamps (both remainders and reprints) do not show this, while on some it is very faint.

There are six known types of forgery, one of which is rather dangerous, the others being crude.

The last mail despatch organised by the proprietors of the Samoa Express took place on 31 August 1881, although one cover is recorded postmarked 24 September 1881.

After the withdrawal of the Samoa Express service it would appear that the Apia municipality appointed a postmaster to continue the overseas post. Covers are known franked with U.S.A. or New Zealand stamps in Samoa, or routed via Fiji.

In December 1886 the municipal postmaster, John Davis, was appointed Postmaster of the Kingdom of Samoa by King Malietoa. Overseas mail sent via New Zealand was subsequently accepted without the addition of New Zealand stamps, although letters to the U.S.A. continued to require such franking until August 1891.

*Following a fire on 1 April 1895 which destroyed stocks of all stamps except the 1s. value perf 12½, this was bisected diagonally and used as a 2½d. stamp for overseas letters between 24 April and May 1895, and was cancelled in blue. Fresh supplies of the 2½d. did not arrive until July 1895, although other values were available from 23 May.

Examples of the 1s. rose perforated 11, No. 63, were subsequently bisected and supplied cancelled-to-order by the post office to collectors, often with backdated cancellations. Most of these examples were bisected vertically and all were cancelled in black (*Price £7*).

The dates given relate to the earliest dates of printing in the various watermarks and perforations and not to issue dates.

The perf 11 issues (including those later surcharged or overprinted), are very unevenly perforated owing to the large size of the pins. Evenly perforated copies are extremely hard to find.

For the 2½d. black, see Nos. 81/2 and for the ½d. green and 1d. red-brown, see Nos. 88/9.

The Samoan group of islands was partitioned on 1 March 1900: Western Samoa (Upolu, Savaii, Apolima and Manono) to Germany and Eastern Samoa (Tutuila, the Manu'a Is and Rose Is) to the United States. German issues of 1900–14 will be found listed in Part 7 (*Germany*) of this catalogue, there were no U.S. issues.

The Samoan Kingdom post office run by John Davis was suspended in March 1900.

Sarawak

Sarawak was placed under British protection in 1888. It was ceded to Great Britain on 1 July 1946 and was administered as a Crown Colony until 16 September 1963 when it became a state of the Federation of Malaysia.

From 1859 letters from Sarawak to overseas addresses, other than to other British possessions in Borneo and Singapore, were franked by stamps of INDIA and, after 1867, STRAITS SETTLEMENTS, a stock of which was kept by the Sarawak Post Office. The stamps of Sarawak continued to have this limited validity until 1 July 1897 when the country joined the U.P.U.

BROOKE FAMILY ADMINISTRATION

Sir James Brooke. 1842–11 June 1868

Sir Charles Brooke. 11 June 1868–17 May 1917

UNUSED PRICES. Nos. 1/7, 27 and 32/5 in unused condition are normally found without gum. Prices in the unused column are for stamps in this state. Examples of these issues with original gum are worth considerably more.

1 Sir James Brooke

2 Sir Charles Brooke

The initials in the corners of T **1** and **2** stand for "James (Charles) Brooke, Rajah (of) Sarawak".

(T **1** and **2**. Die eng Wm. Ridgeway. Litho Maclure, Macdonald & Co, Glasgow)

1869 (1 Mar). P 11.

1	**1**	3c. brown/*yellow*	55·00	£225

Similar stamps are known printed from the engraved die in orange-brown on orange surface-coloured paper, and perf 12. These are specimens submitted to the Sarawak authorities and exist both with and without obliterations.

1871 (1 Jan). P 11 (irregular).

2	**2**	3c. brown/*yellow*	3·25	3·75
		a. Stop after "THREE"	70·00	85·00
		b. Imperf between (vert pair)	£550	
		c. Imperf between (horiz pair)	£950	

The "stop" variety, No. 2a, which occurs on R. 10/7 of one printing stone is of no more philatelic importance than any of the numerous other variations, such as narrow first "A" in "SARAWAK" (R. 2/7) and "R" with long tail in left lower corner (R. 9/10), but it has been accepted by collectors for many years, and we therefore retain it. The papermaker's wmk "L N L" appears once or twice in sheets of No. 2.

Examples are known, recess-printed, similar to those mentioned in the note after No. 1.

TWO CENTS

Examples of No. 2 surcharged as above were first reported in 1876 but following the discovery of dies for forgeries and faked postmarks in 1891 it was concluded that the issue was bogus, especially as the availability of the 2c. of 1875 made it unnecessary to issue a provisional. It has now been established that a 2c. postal rate was introduced from 1 August 1874 for the carriage of newspapers. Moreover four examples are known with a stop after "CENTS." and showing other minor differences from the forgery illustrated. This version could be genuine and if others come to light we will reconsider listing it.

1875 (1 Jan). P 11½–12.

3	**2**	2c. mauve/*lilac* (*shades*)	25·00	17·00
4		4c. red-brown/*yellow*	7·00	3·00
		a. Imperf between (vert pair)	£800	£900
5		6c. green/*green*	5·50	4·75
6		8c. bright blue/*blue*	6·00	7·00
7		12c. red/*pale rose*	12·00	6·50
3/7 *Set of 5*			50·00	35·00

Nos. 3, 4, 6 and 7 have the watermark "L N L" in the sheet, as No. 2. No. 5 is watermarked "L N T".

All values exist imperf and can be distinguished from the proofs by shade and impression. Stamps rouletted, pin-perf, or roughly perf 6½ to 7 are proofs clandestinely perforated.

The 12c. "laid" paper, formerly listed, is not on a true laid paper, the "laid" effect being accidental and not consistent.

The lithographic stones for Nos. 3 to 7 were made up from strips of five distinct impressions hence there are five types of each value differing mainly in the lettering of the tablets of value. There are flaws on nearly every individual stamp, from which they can be plated.

		f. Surch double (2nd ptg)	£450	£500

No. 27 was surcharged with a setting of 100 (10×10). It was originally intended that there should be no bar at foot, but this was then added at a second operation before the stamps were issued. Subsequent supplies were surcharged with "ONE CENT" and bar at one operation.

Varieties with part of the surcharge missing are due to gum on the face of the unsurcharged stamps receiving part of the surcharge, which was afterwards washed off.

A variety of surcharge with small "S" in "CENTS" may be found in the 2c. on 12c. and 4c. on 8c. (R. 1/2, 1/8 and 3/1, first setting) and a raised stop after "CENTS" on the 4c. on 6c. (R. 1/5).

The omission of parts of the surcharge is due to gum on the surface of the stamps (see note after No. 27).

No. 35 is known with compound perforation, perf 12.7 on one or two sides, from the margins of sheets. Examples are rare. (*Price, £225 unused*)

		a. Thick, narrower "W" in "TWO"	£160	

In the 2c. on 12c. the words of the surcharge are about 7½ mm from the bars.

The "cnet" error occurred on R. 9/5 of all sheets from the first printing of the 1c. on 10c. A single example of the error, No. 74b, is known from the second printing, but the error was then corrected, as shown by the evidence of a surviving plate block, only to have the correct spelling scratched out by a local employee, and "ne" substituted (No. 74ca).

The thick "W" variety occurs on all stamps of the last two horizontal rows of the first printing (12 stamps per sheet), and in the last two vertical rows of the second (20 stamps per sheet).

BRITISH MILITARY ADMINISTRATION

Following the Japanese surrender, elements of the British Military Administration reached Kuching on 11 September 1945. From 5 November 1945 current Australian 1d., 3d., 6d. and 1s. stamps were made available for civilian use until replaced by Nos. 126/45. Other Australian stamps were also accepted as valid for postage during this period.

These stamps, and the similarly overprinted stamps of North Borneo, were obtainable at all post offices throughout British Borneo (Brunei, Labuan, North Borneo and Sarawak), for use on local and overseas mail.

The administration of Sarawak was returned to the Brooke family on 15 April 1946, but the Rajah, after consulting the inhabitants, ceded the territory to Great Britain on 1 June 1946. Values from the 1934–41 issue were used until replaced by Nos. 150/64.

JAPANESE OCCUPATION OF SARAWAK

Japanese forces landed in North Borneo on 16 December 1941 and Sarawak was attacked on 23 December 1941.

Brunei, North Borneo, Sarawak and after a short period, Labuan, were administered as a single territory by the Japanese. Until September–October 1942, previous stamp issues, without overprint, continued to be used in conjunction with existing postmarks. From 1 October 1942 onwards unoverprinted stamps of Japan were made available and examples can be found used from the area for much of the remainder of the War. Japanese Occupation issues for Brunei, North Borneo and Sarawak were equally valid throughout the combined territory but not, in practice, equally available.

The overprint, being handstamped, exists inverted or double on some values. Those on Nos. J20b, J21a and J22a are diagonal. The remainder are horizontal.

Stamps of T **21** optd with Japanese symbols within an oval frame are revenue stamps, while the same stamps overprinted with three Japanese characters between two vertical double rules, were used as seals.

Nos. J1/26 have been extensively forged. Recent research indicates that complete or part sets on cover cancelled by Japanese circular postmarks in violet dated "17 11 21" (21 Nov 1942) or "18 3 1" (1 Mar 1943) have forged overprints.

Seychelles

Seychelles was administered as a dependency of Mauritius from 1810 until 1903, although separate stamp issues were provided from April 1890 onwards.

The first post office was opened, at Victoria on Mahé, on 11 December 1861 and the stamps of Mauritius were used there until 1890. No further post offices were opened until 1901.

ZR1	4c. lilac (No. R2)	£1800

Mauritius stamps are occasionally found cancelled with the "SEYCHELLES" cds. Examples are known dated between 25 and 29 February 1884 when it seems that Type Z **1** may have been mislaid (*Price from* £500).

We no longer list the G.B. 1862 6d. lilac with this obliteration as there is no evidence that the stamps of Great Britain were sold by the Victoria post office.

Malformed "S"

Repaired "S"

The malformed "S" occurs on R. 7/3 of the left pane from Key Plate 2. It is believed that the repair to it took place in mid-1898. Both states may occur on other stamps in Types **1** and **4**. Stamps subsequently printed from Key Plate 3 showed the "S" normal.

CROWN COLONY AND PROTECTORATE

The first settlement in Sierra Leone intended as a home for repatriated Africans, and subsequently those released by the Royal Navy from slave ships, was established in 1787. The Sierra Leone Company was created by Act of Parliament in 1791, but its charter was surrendered in 1808 and the coastal settlements then became a Crown Colony. The inland region was proclaimed a British protectorate on 21 August 1896.

A post office was established in 1843 but, until the inclusion of Freetown in the British Post Office packet system in 1850, overseas mail was carried at irregular intervals by passing merchant or naval vessels.

The stamps of GREAT BRITAIN were not sold at Sierra Leone post offices, although examples from ships of the West African Squadron do exist with local cancellations.

PRINTERS. All issues of Sierra Leone until 1932 were typographed by De La Rue & Co. Ltd, London.

*Earliest known postmark date.

1884 SIERRA 5s. LEONE SURCHARGE. From 2 June 1884 the administration decided that, as a temporary measure, revenue and fiscal duties were to be paid with ordinary postage stamps. At that time there was no postage value higher than 1s., so a local surcharge, reading "SIERRA 5s. LEONE", was applied to No. 22 (*Price £225 unused*). Until withdrawal on 1 March 1885 this surcharge was valid for both fiscal and postal purposes, although no genuine postal cover or piece has yet been found. One mint example is known with overprint inverted (*Price* £1200).

Remainders of the surcharge were cancelled by a horizontal red brush stroke (*Price £32 with upright surcharge, £160 with inverted surcharge*).

On Nos. 38/9 the surcharge and the cancelling bars were often applied separately using a separate forme. When the bar missed its intended position across the value tablet, second, or even third bars were added, sometimes by pen or brush. No. 39a exists with the bars either normal or inverted with the rest of the surcharge.

Forged surcharges with "HALF PENNY" shown on one line were prepared by employees of the printer. It is believed that only two examples of this forgery still exist.

The 6d. fiscal, inscribed "STAMP DUTY" as Type **6** surcharged "ONE-PENNY" is known used for postage between May and August 1894, but no official sanction for such usage has been found.

Nos. 55/8 and 59/62 were surcharged from a setting of 30 (10×3) which contained 22 examples of Type **8** (including three with square stops), five of Type **10**, two of Type **11** and one of Type **12**.

Two examples are known of No. 55a, five of No. 55b (of which two are in the Royal Collection) and two of No. 55c (one in the Royal Collection). A unique example of a double surcharge on No. 55 showing Types **8+12** is also in the Royal Collection.

No. 55d comes from the top row of a setting and was caused by the downward displacement of the overprint. Stamps in the lower rows show the overprint transposed with the obliterating bars at the top of the stamp.

Most values from the 1903, 1904–05 and 1907–12 issues are known with forged postmarks. These include oval registered examples dated "16 JUL 11" or "4 SP 11".

USED HIGH VALUES. The £2 and £5 values of the King George V series were intended for fiscal use only. Before the introduction of the airmail service at the end of 1926 there was no postal rate for which they could be used. Under the airmail rates used between 1926 and 1932 it is just possible that a very heavy letter may have required a £2 value. Postmarks on the £5 and on the £2 before December 1926 can only have been applied "by favour" or, in the case of the cds type, are on stamps removed from telegraph forms. Used prices quoted for Nos. 129/30 and 147/8 are for "by favour" cancellations.

Nos. 285/98 were issued in sheets of 30 (6×5) on green (postage) or yellow (airmail) backing paper with the emblems of Samuel Jones & Co. Ltd, self-adhesive paper-makers, on the back.

WARNING. These and later self-adhesive stamps should be kept on their backing paper except commercially used, which should be retained on cover or piece.

"POSTAGE" or "AIR MAIL" and value omitted: We only list examples where these are completely missing. This error also exists on other values but the only examples we have seen have the missing wording on the back of the backing paper due to a paper fold before printing.

STAMP BOOKLETS

1929.

SB1 1s. booklet containing twelve 1d. (No. 132a)

SB2 2s. booklet containing twelve 2d. (No. 134)

Singapore

A Crown Colony until the end of 1957. From 1 August 1958, an internally self-governing territory designated the State of Singapore. From 16 September 1963, part of the Malaysian Federation until 9 August 1965, when it became an independent republic within the Commonwealth.

Stamps in the Crown Colony Victory design with face values of 8c. and 15c. were prepared for Singapore in 1946, but were not issued.

(Currency. 100 cents = 1 Malayan, dollar)

Single-colour values were from single plate printings (Die II) and all bi-colour, except the 25c., from separate head and duty plates (Die I). For differences between the Dies see after Nos. 278/98 of Malaysia (Straits Settlements). The 25c. is unique in this series in that it combines a Die II frame with a separate head plate.

Nos. 28a and 29a occur on rows in the watermark in which the crowns and letters "CA" alternate.

Postal forgeries of the 50c., $1 and $2 exist on unwatermarked paper and perforated 14×14½.

Somaliland Protectorate

Egyptian post offices were opened in Somaliland during 1876 and the stamps of Egypt were used there until the garrisons were withdrawn in 1884.

Cancellations for these offices have been identified as follows (for illustrations of postmark types see SUDAN).

BARBARA (Berbera). Open 1876 to 1 November 1884. Circular datestamp as Sudan Type I.

ZEILA. Open 1876 to 1 November 1884. Circular datestamp as Sudan Types G and I, sometimes inscr ZEJLA. One example with seal type cancellation as Sudan Type B is also known.

Stamps of India were used at the two post offices from 1 January 1887 until 1903 usually cancelled with circular datestamps or the "B" obliterator used by all offices controlled from Bombay.

The Protectorate Post Office was established on 1 June 1903, when control of British Somaliland was transferred from the Indian Government to the British Foreign Office.

SETTINGS OF TYPE 1

In all printings the ½, 1, 2, 2½, 3, 4, 8, 12a. and 1r. values were overprinted from a setting of 240 (2 panes 12×10, one above the other), covering the entire sheet at one operation.

The 6a., which was in sheets of 320 (4 panes, each 8×10), had a modified setting of 160, applied twice to each sheet.

The high values were overprinted in sheets of 96 (8 panes, each 4×3).

The settings for the low value stamps contained two slightly different styles of overprint, identified by the position of "B" of "BRITISH". Type A shows this letter over the "M" of "SOMALILAND" and Type B over the "OM".

For the first printing with the overprint at the top of the design the 240 position setting showed all the stamps in the upper pane and 63 in the lower as Type A, with the remaining 57 as Type B. When the setting was used for the printing with overprint at foot it was amended slightly so that one of the Type A examples in the upper pane became a Type B.

The 6a. value with overprint at top shows 250 examples of Type A and 70 as Type B in each sheet. This proportion altered in the printing with overprint at foot to 256 as Type A and 64 as Type B.

OVERPRINT VARIETIES

Missing second "I" in "BRITISH"—Occurs on the stamps with overprint at top from R. 2/6 of the upper pane and R. 5/1 of the lower, although it is believed that the example on the 2½a. (No. 4a) only occurs from the second position. On the later printing with overprint at foot a similar error can be found on R. 7/12 of the upper pane. Some examples of both these errors show traces of the letter remaining, but the prices quoted are for stamps with it completely omitted.

BRITISH
SOMALILAND
i

Figure "1" for first "I" in "BRITISH" (i)—Occurs on R. 6/4 of the upper pane for all printings of the 240 impression setting. In addition it has been reported from R. 7/12 of the Queen Victoria 2½, 12a. and 1r. with overprint at foot. Both versions of the 6a. show the variety on R. 6/4 of the upper left and upper right panes.

BRITISH
SOMALILAND
ii

Curved overprint (ii)—Occurs on R. 3/4 of the top right-hand pane of the high values.

SOMALILAND iii SOMALILAND iv

"SUMALILAND"—Occurs on R. 2/9 of the upper pane for all low values with the overprint at foot, except the 6a (iii). A similar variety occurs on the high values from the same series on R. 1/3 of the top left pane (iv).

"SOMAL.LAND"—Occurs on R. 7/5 of the lower pane from the 240 impression setting with the overprint at foot. In addition the Edwardian values of this series also have an example on R. 6/7. The 6a. has examples of the flaw on R. 6/9 and R. 7/5 of both the lower right and left panes. A similar variety occurs on the high values from the same series at R. 3/4 of the third pane in the right-hand column.

OFFICIAL STAMPS

SERVICE

BRITISH SOMALILAND (O 1)

BRITISH SOMALILAND (O 2)

SETTING OF TYPE O 1

The 240 impression setting used for the Official stamps differs considerably from that on the contemporary postage issue with overprint at foot, although the "BR1TISH" error can still be found on R. 6/4 of the upper pane. The Official setting is recorded as consisting of 217 overprints as Type A and 23 as Type B.

OVERPRINT VARIETIES

Figure "1" for first "I" in "BRITISH"—Occurs on R. 6/4 of the upper pane as for the postage issue.

"BRITIS H"—Occurs on R. 8/4 of the lower pane.

1903 (1 June). Nos. O45, O48, O49a and O50/1 of India (Queen Victoria optd "O.H.M.S.") additionally optd with Type O **1** in Calcutta.

	a. "BR1TISH"	£1900	
	b. "BRITIS H"	£1600	
O1/5 *Set of* 5		55·00	£1200

No. O4c was caused by an attempt to correct a minor spacing error of the "O.H.M.S." overprint which is known on the equivalent India Official stamp.

SETTING OF TYPE O 2

This 240 impression setting of "BRITISH SOMALILAND" also differs from that used to prepare the postage issue with overprint at foot, although many of the errors from the latter still occur in the same positions for the Official stamps. The setting used for Nos. O6/9f contained 180 overprints as Type A and 60 as Type B.

OVERPRINT VARIETIES

Missing second "I" in "BRITISH"—Occurs R. 7/12 of upper pane as for the postage issue.

Figure "1" for first "I" in "BRITISH"—Occurs R. 6/4 of upper pane as for the postage issue.

"SUMALILAND"—Occurs R. 2/9 of the upper pane as for the postage issue.

"SOMAL.LAND"—Occurs R. 6/7 of the lower pane as for the postage issue.

SERVICE (O 2a)

"SERVICE" in wrong fount (Type O **2a**)—Occurs R. 1/7 of lower pane.

SETTING OF TYPE O 3

The anna values were overprinted in sheets of 120 (2 panes 6×10) from a setting matching the pane size. The full stop after the "M" on the fifth vertical column was either very faint or completely omitted. The prices quoted are for stamps with the stop missing; examples with a partial stop are worth much less.

The 1r. value was overprinted from a setting of 60.

All Somaliland Protectorate stamps were withdrawn from sale on 25 June 1960 and until the unification on 1 July, issues of Italian Somalia together with Nos. 353/5 of Republic of Somalia were used. Later issues will be found listed in Part 14 (*Africa since Independence N–Z*) of this catalogue.

South Africa

South Africa as a nation, rather than a geographical term, came into being with the creation of the Union of South Africa on 31 May 1910.

The development, both political and philatelic, of the area is very complex and the method adopted by the catalogue is to first list, in alphabetical order, the various colonies and republics which formed this federation, followed by stamps for the Union of South Africa.

The section is divided as follows:

I. CAPE OF GOOD HOPE.
British Kaffraria. Mafeking Siege Stamps. Vryburg
II. GRIQUALAND WEST
III. NATAL
IV. NEW REPUBLIC
V. ORANGE FREE STATE.
Orange River Colony
VI. TRANSVAAL.
Pietersburg. Local British Occupation Issues
VII. ZULULAND
VIII. BRITISH ARMY FIELD OFFICES DURING SOUTH AFRICAN WAR
IX. UNION OF SOUTH AFRICA
X. REPUBLIC OF SOUTH AFRICA

The method adopted for producing the plate of the 4d., 6d and 1s. stamps involved the use of two dies, so that there are two types of each of these values differing slightly in detail, but produced in equal numbers.

The 1d. value in dull rose on ungummed watermarked paper with the watermark sideways is a plate proof. (*Price* £400).

The 4d. is known bisected in 1858 and used with two other 4d. values to pay the inland registered fee. The 6d. is known bisected and used with 1d. for 4d. rate.

The paper of No. 5 is similar to that of Nos. 1/4, but is without the blueing. It is much thicker than the white paper used for later printings of the 1d. The evolution of the paper on these Cape of Good Hope stamps is similar to that of the line-engraved issues of Great Britain. Examples of the 6d. slate-lilac apparently on white paper have had the blueing washed out.

The 4d. value is known printed in black on white watermarked paper. Twelve authenticated copies have been recorded, the majority of which show cancellations or, at least, some indication that they have been used.

It was, at one time, believed that these stamps came from a small supply printed in black to mark the death of the Prince Consort, but references to examples can be found in the philatelic press before news of this event reached Cape Town.

It is now thought that these stamps represent proof sheets, possibly pressed into service during a shortage of stamps in 1861.

There is, however, no official confirmation of this theory. (*Price* £45000 *un*, £35000 *with obliteration*).

		e. Error. Vermilion	£200000	£40000
		ea. Carmine	—	£95000
		f. Sideways *tête-bêche* (pair)	†	£200000

Nos. 13/14 were each issued in *tête-bêche* pairs normally joined at edges bearing the same inscription ("POSTAGE" against "POSTAGE", etc). No. 14f, of which only one used example is known, comes from the first printing and shows the right-hand stamp misplaced so that "FOUR PENCE" adjoins "POSTAGE".

Nos. 13c/*ca* and 14e/*ea* were caused by the inclusion of incorrect clichés in the plates of the 1d. or 4d. values.

Both values were officially reprinted in March 1883, on wove paper. The 1d. is in deep red, and the 4d. in a deeper blue than that of the deepest shade of the issued stamp.

Examples of the reprints have done postal duty, but their use thus was not intended. There are no reprints of the errors or of the retouched 4d.

Further reprints were made privately but with official permission, in 1940/41, in colours much deeper than those of any of the original printings, and on thick carton paper.

Examples of the 4d. are known unofficially rouletted.

Early in 1863, Perkins Bacon Ltd handed over the four plates used for printing the triangular Cape of Good Hope stamps to De La Rue & Co, Ltd, who made all the subsequent printings.

22	**1**	1d. deep carmine-red	£25000	

No. 22 was a trial printing, and is only known unused.

Our prices for the 4d. blue are for stamps which are blue by comparison with the other listed shades. An exceptionally pale shade is recognised by specialists and is rare.

With the exception of the 4d., these stamps may be easily distinguished from those printed by Perkins Bacon by their colours, which are quite distinct.

The De La Rue stamps of all values are less clearly printed, the figure of Hope and the lettering of the inscriptions standing out less boldly, while the fine lines of the background appear blurred and broken when examined under a glass. The background as a whole often shows irregularity in the apparent depth of colour, due to wear of the plates.

For note regarding the two dies of the 4d., 6d., and 1s. values, see after No. 8.

All the triangular stamps were demonetised as from 1 October 1900.

The 1d. rose-red, 6d. lilac, and 1s. blue-green are known imperf, probably from proof sheets.

The 1d. and 4d. stamps of this issue may be found with side and/or top outer frame-lines missing, due to wear of the plates.

Examples may also be found with bars omitted or at the top of the stamp, due to misplacement of the sheet.

The space between the words and bars varies from 12½ to 16 mm, stamps with spacing 15½ and 16 mm being rare. There were two printings, one of 120,000 in November 1868 and another of 1,000,000 in December. Stamps showing widest spacings are probably from the earlier printing.

The double surcharge must also have existed showing variety a. but only variety b. is known.

There are numerous minor varieties, including letters broken or out of alignment, due to defective printing and use of poor type.

This was a definite colour change made at the request of the Postmaster-General owing to the similarity between the colours of the 1d. stamp and the 3d. in pale dull rose. Imperf copies are probably from proof sheets.

Proofs of this value were printed in brown, on unwatermarked wove paper and imperf, but the colour was rejected as unsuitable.

Cape of Good Hope became a province of the Union of South Africa on 31 May 1910. Stamps used during the Interprovincial Period (1 June 1910 – 31 August 1913) will be found listed under South Africa.

BRITISH KAFFRARIA

The history of the Cape eastern frontier was punctuated by a series of armed conflicts with the native population, known as the Kaffir Wars. After a particularly violent outbreak in 1846 the Governor, Sir Harry Smith, advanced the line of the Cape frontier to the Keikama and Tyumie Rivers. In the area between the new frontier and the Kei River a buffer state, British Kaffraria, was established on 17 December 1847. This area was not annexed to the Cape, but was administered as a separate Crown dependency by the Governor of Cape Colony in his capacity as High Commissioner for South Africa.

The territory, with its administration based on King William's Town, used the stamps of the Cape of Good Hope from 1853 onwards, the mail being sent via Port Elizabeth or overland from the Cape. Covers from British Kaffraria franked with the triangular issues are rare.

The first postal marking known from British Kaffraria is the 1849 type octagonal numeral No 47 from Port Beaufort. Oval post-marks of the 1853 type were used at Alice, Aliwal North, Bedford, Fort Beaufort, King William's Town and Queenstown. In 1864 numeral cancellations were issued to all post offices within the Cape system and it is known that the following numbers were initially assigned to post towns in Kaffraria: 4 (King William's Town), 7 (Bedford), 11 (Queenstown), 29 (East London), 32 (Fort Beaufort), 38 (Aliwal North) and 104 (Cathcart).

It is believed that post offices may have also existed at Adelaide, Barkly East, Sterkstoom and Stutterheim, but, to date, no examples of handstamps or cancellations are known from them during the British Kaffraria period.

Following the decimation by famine of the Xhosa tribes in 1857 British Kaffraria was annexed to Cape Colony in 1865. The area eventually formed the basis of the Ciskei independent "homeland".

BOER OCCUPATION

Vryburg was occupied by Boer forces on 15 October 1899. Unoverprinted stamps of Transvaal were used initially. Nos. 1/4 were only available from 25 to 29 November. The Boers evacuated the town on 7 May 1900.

		b. Surch 12.5 mm high	£15000	£4500

On the "2 PENCE" on 6d. the space between the lines of the surcharge is 7.3 mm. It is possible that this was the first value surcharged, as the remaining three show the space reduced to 5.3 mm, with the exception of R. 4/2 which remained at 7.3 mm. The "Italic 'Z'" variety occurs on R. 3/6 of the setting of 60.

Nos. 1-4 were subsequently declared valid for postage within Transvaal.

II. GRIQUALAND WEST

Griqualand West was situated to the North of Cape Colony, bounded on the north by what became British Bechuanaland and on the east by the Orange Free State.

The area was settled in the early nineteenth century by the Griqua tribal group, although many members of the tribe, including the paramount chief, migrated to Griqualand East (between Basutoland and the east coast of South Africa) in 1861–63. There was little European involvement in Griqualand West before 1866, but in that year the diamond fields along the Vaal River were discovered. Sovereignty was subsequently claimed by the Griqua Chief, the Orange Free State and the South African Republic (Transvaal). In 1871 the British authorities arbitrated in favour of the Griqua Chief who promptly ceded his territory to Great Britain. Griqualand West became a separate Crown Colony in January 1873.

During the initial stages of the prospecting boom, mail was passed via the Orange Free State, but a post office connected to the Cape Colony postal system was opened at Klip Drift (subsequently Barkly) in late 1870. Further offices at De Beer's New Rush (subsequently Kimberley), Douglas and Du Toit's Pan (subsequently Beaconsfield) were open by September 1873.

Cape of Good Hope stamps to the 5s. value were in use from October 1871, but those originating in Griqualand West can only be identified after the introduction of Barred Oval Diamond Numeral cancellations in 1873. Numbers known to have been issued in the territory are:

1 De Beers N.R. (New Rush) (subsequently Kimberley)
3 Junction R. & M. (Riet and Modder Rivers)
4 Barkly
6 or 9 Du Toit's Pan (subsequently Beaconsfield)
8 Langford (transferred to Douglas)
10 Thornhill

PRICES FOR STAMPS ON COVER. The stamps of Griqualand West are worth from ×10 the price quoted for used stamps, when on cover from the territory.

FORGED OVERPRINTS. Many stamps show forged overprints. Great care should be taken when purchasing the scarcer items.

*The 1d. with overprint Type **8** from this setting can only be distinguished from that of the second printing when *se-tenant* with overprint Type **3**.

Nos. 4/10 were overprinted by a setting of 120 covering two panes of 60 (6×10). This setting contained 41 examples of Type **1a**, 10 of Type **2**, 23 of Type **3**, 10 of Type **4**, 8 of Type **5**, 27 of Type **6** and 1 of Type **8**. Sub-types of Types **1a** and **2** exist. The single example of Type **8** occurs on R. 7/4 of the right-hand pane.

It is believed that there may have been an additional setting used for the 5s. which was in considerable demand to cover the postage and registration on diamond consignments. It is also possible that single panes of this value and of the 1s. were overprinted using the right-hand half of the normal 120 setting.

Nos. 14/23 were also overprinted using a double-pane setting of 120. Based on evidence from surviving ½d. and 1d. sheets all overprints in the left-hand pane were roman, Type **15**, and all those in the right-hand pane italic, Type **16**, except for R. 1/6, 4/5, 6/6, 7/6, 8/6, 9/6 and 10/6 which were Type **15**. There is considerable evidence to suggest that after the ½d. value had been overprinted the setting was amended to show a Type **15**, instead of a Type **16**, on R. 10/5 of the right-hand pane. Two strikes of the setting were required to overprint the sheets of 240 and it would appear that on many sheets the bottom two panes had the overprints inverted.

There were two settings of these overprints. The first setting, probably of 240, contained 60 examples of Type **7a**, 72 of Type **7b**, 20 of Type **7c**, 28 of Type **7d** and 60 of Type **7e**. The second, probably of 60 (6×10), contained Type **7e** only.

In the first setting the overprint is in the bottom half of the stamp on the 1d. and 1s. and in the top half on the 3d. and 6d. In the second setting the overprints were at the top of the 1d. and 1s. and at the bottom of the 3d. and 6d. Prices for Nos. 50/6 are for stamps from the second setting.

A single used example of No. 33 with overprint double is in the Royal Philatelic Collection.

For T T **3** the space between the bar obliterating "REVENUE" and the overprinted "TELEGRAPH" is 1.8 mm, for the narrow spacing varieties the space measures 1.2 mm. For the 1s. the word "SHILLING" is 9.3 mm long, but on Nos. T15b, T17b and T19b it measures 9.7 mm.

All values were surcharged in settings of 30 (6×5), eight of which made up the sheet of 240. For the 3d. the top row of the setting comprised T T **3**, the second and third row (1-4), T T **3** (narrow), the third row (5 and 6) and the fourth row, T T **4** and the fifth row T T **5**.

For the 1s. the top row was as T T **3**, the second, third and fourth rows as T T **3** (narrow) and the fifth row as T T **3** (large "SHILLING"), apart from R. 5/6, which was as T T **4**.

Natal became a province of the Union of South Africa on 31 May 1910. Stamps used during the Interprovincial Period (1 June 1910–31 August 1913) are listed under South Africa.

IV. NEW REPUBLIC

During the unrest following the death of Cetshwayo, the Zulu king, in 1884, a group of Boers from the Transvaal offered their support to his son, Dinizulu. The price for this support was the cession of a sizeable portion of Zulu territory to an independent Boer republic. The New Republic, centred on Vryheid, was proclaimed on 16 August 1884 with the remaining Zulu territory becoming a protectorate of the new administration. The first reference to an organised postal service occurs in December 1884.

Alarmed by these developments the British authorities annexed the southernmost part of the land grant, around St. Lucia Bay, to prevent access to the Indian Ocean. The remainder of the New Republic was, however, recognised as independent on 22 October 1886. Zululand was annexed by the British on 22 May 1887.

Difficulties beset the New Republic, however, and its Volksraad voted for union with the South African Republic (Transvaal). The two republics united on 21 July 1888. In 1903 the territory of the former New Republic was transferred to Natal.

Mail from Vryheid in 1884–85 was franked with issues of Transvaal (for dispatches made via Utrecht) or Natal (for those sent via Dundee from August 1885 onwards). Issues of the New Republic were never accepted as internationally valid by these administrations so that all external mail continued to show Transvaal or Natal stamps used in combination with those of the republic.

Stamps as Type **1** were produced as and when stocks were required, each printing including in its design the date on which it was prepared. The dates quoted above for Nos. 1/53 are those on which the various stamps first appeared. Details of the various printing dates are given below. From these dates it can be seen that some values share common printing dates, and, it is believed, that the different values were produced *se-tenant* within the same sheet, at least in some instances. A reported proof sheet of Nos. 79/95 in the Pretoria Postal Museum, on yellow paper and embossed, contains 4 examples of the 6d. value and 3 each of the 3d., 4d., 9d., 1s., 1/6, 2/-, 2/6, 3s., 4s., 5s., 5/6, 7/6, 10s., 10/6, £1 and 30s.

The date on No. 1 measures 17 mm; on all others it is 15 mm.

The significance, if any, of the two coloured papers and the use of the embossing machine have never been satisfactorily explained. Both the different papers and the embossing machine were introduced in January 1886, and occur throughout the period that the stamps with dates were used.

Supplies of Cape of Good Hope stamps were available at Bloemfontein and probably elsewhere in the Orange Free State, from mid-1856 onwards for use on mail to Cape Colony and beyond. Such arrangements continued after the introduction of Orange Free State stamps in 1868. It is not known if the dumb cancellations used on the few surviving covers were applied in the Free State or at Cape Town.

No. 21 was the first printing in one type only. Nos. 22 to 25 constitute the second printing about a year later, and are all found on the same sheet; and No. 26 the third printing of which about half have the stop raised.

Owing to defective printing, examples of Nos. 22 and 24/5 may be found with the obliterating bar at the top of the stamps or, from the top row, without the bar.

Types (*a*) and (*e*) differ from types (*b*) and (*f*) respectively, in the serifs of the "1", but owing to faulty overprinting this distinction is not always clearly to be seen.

1896 (Sept). No. 51 surch with T **9** (*a*) to (*g*).

The double and triple surcharges are often different types, but are always type (*g*), or in combination with type (*g*).

Double surcharges in the same type, but without the "d" and bar, also exist, probably from a trial sheet prepared by the printer. Both unused and used examples are known.

All values are found with a rectangular, instead of an oval, stop after "R". Misplaced surcharges (upwards or sideways) occur.

No. 110ca shows the missing "1" replaced by a handstamp in a different type face.

On No. 111c the stop is near the top of the "R". On 111d there is a 2mm space between "5" and "s"; lesser displacements exist on other positions.

No. 115a comes from a later setting, as do examples of a level stop after "V" at R. 1/6 and a level stop after "I" at R. 3/2, both on the 1d. value.

Stamps with thick "V" occur in seven or later six positions in *later* settings of the type with stops above the line (T **32**). *Earlier* settings with stops above the line have all stamps with thin "V".

Some confusion has previously been caused by the listing of certain varieties as though they occurred on stamps with thick "V" in fact they occur on stamps showing the normal thin "V", included in the settings which also contained the thick "V".

For a short period small blocks of unsurcharged Free State stamps could be handed in for surcharging so that varieties occur which are not found in the complete settings. Nos. 102a, 110a and 121a also occur from such stocks.

The inserted "R" variety occurs on positions 6 (T **32**) and 12 (T **33**) of the forme. The "R" of the original surcharge failed to print and the "R", but not the full stop, was added by the use of a handstamp. Traces of the original letter are often visible. The broken "V" flaw, also shown in the illustration, does not appear on No. 124n.

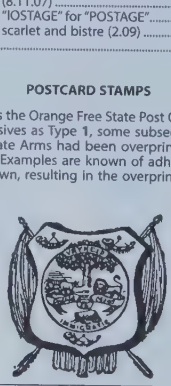
POSTCARD STAMPS

From 1889 onwards the Orange Free State Post Office sold postcards franked with adhesives as Type **1**, some subsequently surcharged, over which the State Arms had been overprinted by Curling and Co., Bloemfontein. Examples are known of adhesives being affixed to cards upside-down, resulting in the overprint being inverted on loose stamps.



There are five known dies of the Arms overprint which can be identified as follows:

(a) Shield without flags. Single 15 mm diameter circle. Three cows (two lying down, one standing) at left. Point of shield complete.

(b) Shield with flags. Single 13 mm diameter circle. Four cows (two lying down, two standing) at left (*illustrated*).

(c) Shield with flags. Double 13 mm diameter circle. Three cows (one lying down, two standing) at left.

(d) Shield without flags. Single 14.5 mm diameter circle. Three cows (one lying down, two standing) at left.

(e) Shield without flags. Double 15 mm diameter circle. Three cows (two lying down, one standing) at left. Point of shield broken.

There are also other differences between the dies.

PRICES. Those in the left-hand column are for unused examples on complete postcard; those on the right for used examples off card. Examples used on postcard are worth more.

RAILWAY OFFICIAL STAMPS

The following stamps were provided for use on official correspondence of the Central Southern Africa Railways.

C.S.A.R. RO 1

1905 (Feb). Nos. 139/41 and 143/6 optd with T RO **1** at CSAR's Departmental Printing Office, Germiston.

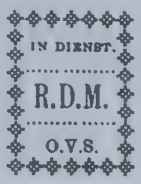
RO1	½d. yellow-green	£100	25·00
RO2	1d. scarlet	£100	20·00
RO3	2d. brown	£200	75·00
RO4	3d. mauve	£375	£150
RO5	4d. scarlet and sage-green	£375	£150
RO6	6d. scarlet and mauve	£375	£150
RO7	1s. scarlet and bistre	£550	£375

The overprint on Nos. RO1/7 was applied in a setting of 120 and was normally placed either at the top or bottom of the stamps, although central placings are known. The stamps were withdrawn on 13 October 1905, but examples of genuine late use have been recorded. Dangerous forgeries exist.

POLICE FRANK STAMPS

The following frank stamps were issued to members of the Orange Free State Mounted Police ("Rijdende Dienst Macht") for use on official correspondence.

PF 1 (eight ornaments at left and right)



PF 2

1896. P 12.

PF1	PF **1**	(–) Black	£250	£325

No. PF1 was printed in horizontal strips of five surrounded by wide margins.

1898. As Type PF **1**, but with nine ornaments at left and right. P 12.

PF2		(–) Black	£170	£225

No. PF2 was printed in blocks of four (2×2) surrounded by wide margins.

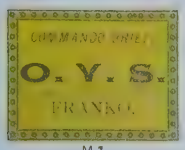
1899. P 12.

PF3	PF **2**	(–) Black/*yellow*	£140	£160
		a. No stop after "V"	£550	

No. PF3 was printed in sheets of 24 (6×4) with the edges of the sheet imperforate. It is believed that they were produced from a setting of eight (2×4) repeated three times. No. PF3a occurs on R. 1/1 of the setting.

Examples of No. PF3 are known postmarked as late as 28 April 1900. The O.F.S. Mounted Police were disbanded by the British authorities at the end of the following month.

MILITARY FRANK STAMP



M 1

(Typeset Curling & Co, Bloemfontein)

1899 (15 Oct). P 12.

M1	M **1**	(–) Black/*bistre-yellow*	30·00	60·00

Supplies of No. M1 were issued to members of the Orange Free State army on active service during the Second Boer War. To pass free through the O.F.S. fieldpost system, letters had to be franked with No. M1 or initialled by the appropriate unit commander. The franks were in use between October 1899 and February 1900.

No. M1 was printed in sheets of 20 (5×4) using a setting of five different types in a horizontal row. The colour in the paper runs in water.

Typeset forgeries can be identified by the appearance of 17 pearls, instead of the 16 of the originals, in the top and bottom frames. Forgeries produced by lithography omit the stops after "BRIEF" and "FRANKO".

FISCAL STAMPS USED FOR POSTAGE

The following were issued in December 1877 (Nos. F1 and F3 in 1882) and were authorised for postal use between 1882 and 1886.

The handstamp is known reading horizontally, diagonally and inverted.

T F (T 2) **Een Shilling.** (T 3)

1888 (Apr). Fiscal stamps as T F **2** optd and surch T T **2** and T T **3** by C. Borckenhagen, Bloemfontein.

T10		1s. on 7s. violet (No. F11)	65·00	12·00
T11		1s. on 8s. yellow (small "TF")	75·00	18·00
		a. Large "T" in "TF"	£150	35·00
T12		1s. on 8s. yellow (large "TF")	65·00	12·00
T13		1s. on 9s. olive-bistre (small "TF")	£100	30·00
		a. Large "T" in "TF"	£200	60·00
T14		1s. on 9s. olive-bistre (large "TF")	75·00	19·00

The "TF" overprint measures 8.2×2.9 mm on No. T10, 6.6×3.4 mm on Nos. T12 and T14 and 6.6×2.9 mm on T11 and T13.

No. T10 exists with an additional manuscript line through the original value, to correct misplacement of the T T **3** surcharge. The type used for T T **3** was in poor condition and numerous broken letter varieties exist, including "Ecn", "E-n" and damage to the first or second "l" or "n" of "Shilling".

T34		6d. blue (8.98)	2·00	1·25
T35		1s. brown (No. 87)	2·00	1·25

The 6d. blue was not issued without the T T **12** opt.

British Occupation

The Army controlled the telegraph system from the start of the British occupation in 1900. Initially existing telegraph stamps were overprinted "V.R.I.", they were later supplemented by stamps overprinted "V.R.I./AT".

1900 (April). Nos. T30 and T33/5 optd "V.R.I." (as T **32**, thin "V", raised stops).

T36		1d. purple	3·00	2·00
		a. Raised and level stops mixed	12·00	8·50
		b. Horiz gutter pair, right stamp "V.R.I." omitted	£750	
T37		3d. ultramarine	12·00	9·00
		a. Raised and level stops mixed	40·00	28·00
		b. "V.R.I." double	£325	£250
T38		6d. blue	24·00	12·00
		a. Raised and level stops mixed	70·00	35·00
T39		1s. brown	6·00	4·00
		a. Raised and level stops mixed	17·00	13·00

The "V.R.I." overprint is usually positioned at the top of the stamp but lower positions are not uncommon.

Mixed stop varieties occur as follows: level stop after "V" at R. 1/6, R. 5/6, R. 9/5 and R. 10/1, level stops after "V" and "I" at R. 9/4, level stops after "R" and "I" at R. 7/4 and R. 10/4, level stop after "R" at R. 8/4, level stop after "I" at R. 2/5 and R. 6/6.

T T **13** measures 7.1×3.0 mm.

1900 (Apr). No. T33 surcharged as T **32**.

T41		1d. on 1d. purple		

It is believed that No. T41 was the result of a sheet of telegraph stamps receiving the overprint due for the postage stamp in error. Forgeries exist.

1900 (Apr?). Postage stamps as T **1** and fiscal stamps as T F **2** optd with T T **14** (Nos. T42/5) or T T **15** (others).

		d. Broad short "A" in "AT" (R. 6/5)	£550	£375
		e. "VRY-STAAT"	£650	

In T T **14** "AT" measures 6.5 mm, in T T **15** it measures 7.5 mm.

The thick "V" occurs at R. 1/5, R. 3/5, R. 4/5, R. 7/3, R. 8/3 and R. 8/6 in the case of Nos. T42a/5a and at R. 1/2, R. 3/2, R. 4/2, R. 7/4, R. 8/1 and R. 8/4 in the case of Nos. T46a/9a.

1903 (Mar). Postage stamps Nos. 114 and 117 additionally surch as T T **16**.

		a. Thick "V" (as T **33**)	£150	£150
		ab. Inverted "1" for "I" (R. 7/1)	£300	£300

The "One Shilling" surcharge of No. T51 includes numerous wrong fount letters.

Orange Free State became a province of the Union of South Africa on 31 May 1910. Stamps used during the Interprovincial Period (1 June 1910–31 August 1913) are listed under South Africa.

VI. TRANSVAAL

(*formerly* South African Republic)

From 1852 mail from the Transvaal was forwarded to the Cape of Good Hope, via the Orange Free State, by a post office at Potchefstroom. In 1859 the Volksraad voted to set up a regular postal service and arrangements were made for letters sent to the Cape and for overseas to be franked with Cape of Good Hope stamps.

The Potchefstroom postmaster placed his first order for these on 23 August 1859 and examples of all four triangular values are known postmarked there. From 1868 mail via the Orange Free State required franking with their issues also.

A similar arrangement covering mail sent overseas via Natal was in operation from 9 July 1873 until the first British Occupation. Such letters carried combinations of Transvaal stamps, paying the rate to Natal, and Natal issues for the overseas postage. Such Natal stamps were sold, but not postmarked, by Transvaal post offices.

Examples of Nos. 1/6 may have been sold to dealers at some stage between their arrival in Transvaal during August 1869 and the sale of stamps to the public for postal purposes on 1 May 1870.

PLATES. The German printings of the 1d., 6d. and 1s. in Type **1** were from two pairs of plates, each pair printing sheets of 80 in two panes of five horizontal rows of eight.

One pair of plates, used for Nos. 4*a*, 4*c*, 5*a* and 6/*a*, produced stamps spaced 1¼ to 1½ mm apart with the rouletting close to the design on all four sides. The 1d. from these "narrow" plates shows a gap in the outer frame line at the bottom right-hand corner. The second pair, used for Nos. 1/3, 4, 4*b*, 5/*a* and 6*b*, had 2½ to 3½ mm between the stamps. These "wide" plates were sent to the Transvaal in 1869 and were used there to produce either single or double pane printings until 1883.

The 6d. and 1s. "wide" plates each had an inverted *cliché*. When printed these occurred on right-hand pane R. 4/1 of the 6d. and right-hand pane R. 1/1 of the 1s. These were never corrected and resulted in *tête-bêche* pairs of these values as late as 1883.

REPRINTS AND IMITATIONS. A number of unauthorised printings were made of these stamps by the German printer. Many of these can be identified by differences in the central arms, unusual colours or, in the case of the 1d., by an extra frame around the numeral tablets at top.

Genuine stamps always show the "D" of "EENDRAGT" higher than the remainder of the word, have no break in the border above "DR" and depict the flagstaff at bottom right, behind "MAGT", stopping short of the central shield. They also show the eagle's eye as a clear white circle. On the forgeries the eye is often blurred.

The most difficult of the reprints to detect is the 1s. yellow-green which was once regarded as genuine, but was subsequently identified, by J. N. Luff in *The Philatelic Record* 1911–12, as coming from an unauthorised plate of four. Stamps from this plate show either a white dot between "EEN" and "SHILLING" or a white flaw below the wagon pole.

The pin-perforated stamps have various gauges and were probably produced privately or by one or more post offices other than Pretoria.

On Nos. 63*c*/*ca*, 66*a* and 68*a* the brown gum used was so intense that it caused staining of the paper which is still visible on used examples.

See also Nos. 171/4.

FIRST BRITISH OCCUPATION

By 1876 conditions in the Transvaal had deteriorated and the country was faced by economic collapse, native wars and internal dissension. In early 1877 Sir Theophilus Shepstone, appointed Special Commissioner to the South African Republic by the British Government, arrived in Pretoria and on 12 April annexed the Transvaal with the acquiescence of at least part of the European population.

Nos. 116/32*c* were overprinted from various settings covering sheets of 80 or panes of 40 (8×5). Initially these settings contained Type **6** only, but from March 1878 settings also contained examples of Type **7**. Details of these mixed settings are as follows:

1d. red/*orange* (sheets of 80): all Type **6** except for 16 Type **7**.
3d. mauve/*buff* (panes of 40): 16 Type **7**.
3d. mauve/*green* (panes of 40): uncertain, some panes at least contained 27 Type **7**.
6d. blue/*blue* (sheets of 80): either 24 or 27 Type **7**.

Reprints are known of Nos. 172, 173, 173b and 173c. The paper of the first is *bright rose* in place of *dull rose*, and the impression is brownish black in place of grey-black to deep black. The reprints on white paper have the paper thinner than the originals, and the gum yellowish instead of white. The colour is a dull deep orange-red.

The used price quoted for No. 174b is for an example with telegraphic cancel. Postally used examples are worth much more. (See note below No. 139).

PERFORATIONS. Stamps perforated 11½×12 come from the first vertical row of sheets of the initial printing otherwise perforated 12½×12.

REPRINTS. Reprints of the general issues 1885–93, 1894–95, 1895–96 and 1896–97 exist in large quantities produced using the original plates from 1911 onwards. They cannot readily be distinguished from genuine originals except by comparison with used stamps, but the following general characteristics may be noted. The reprints are all perf 12½, large holes; the paper is whiter and thinner than that usually employed for the originals and their colours lack the lustre of those of the genuine stamps.

Forged surcharges have been made on these reprints.

SECOND BRITISH OCCUPATION

The Second Boer War began on 11 October 1899 and was concluded by the Peace of Vereeniging on 31 May 1902. Pretoria was occupied by the British on 5 June 1900 and a civilian postal service began operating thirteen days later.

FORGERIES. The forgeries of the "V.R.I." and "E.R.I." overprints most often met with can be recognised by the fact that the type used is perfect and the three stops are always in alignment with the bottom of the letters. In the genuine overprints, which were made from old type, it is impossible to find all three letters perfect and all three stops perfect and in exact alignment with the bottom of the letters.

*Many examples of No. 237 on the market are forgeries and the stamps should only be purchased if accompanied by a recent expert committee certificate.

The error "V.I.R." occurred on R. 4/4 in the first batch of stamps to be overprinted—a few sheets of the ½d., 2d. and 4d. The error was then corrected and stamps showing it are very rare. The corrected overprint shows the "I" dropped by 0.75mm. This variety is known on all values apart from the £5, but was later corrected.

A number of different settings were used to apply the overprint to Nos. 226/37. The missing stop varieties listed above developed during overprinting and occur on different positions in the various settings.

Although this stamp was distributed in " SPECIMEN" form by the UPU, the entire supply sent to Transvaal was destroyed.

The ½d., 1d. and 2d. exist from coils constructed from normal sheets for use in stamp machines introduced in 1911. These coils were originally joined horizontally but the 1d. was subsequently issued joined vertically.

Many of the King's Head stamps are found overprinted or perforated "C.S.A.R.", for use by the Central South African Railways.

RAILWAY OFFICIAL STAMPS

The following stamps were provided for use on official correspondence of the Central Southern Africa Railways.

RO 1

1904. Nos. 244/5 stencil-cut as T RO **1** at CSAR's Departmental Printing Office, germiston.

RO1		½d. grey-black and bluish green	†	£750
RO2		1d. grey-black and bluish green	†	£750

Contemporary reports exist of these stamps with "CSAR" stencil-cut in a single line, but no examples are known. The stencil-cut exists sideways on No. RO1 and inverted on No. RO2. They were probably trials, only used at CSAR's head office in Johannesburg.

1905 (Feb). Nos. 244/6, 228/50 and 256 optd with Type RO **1** of Orange River Colony at CSAR's Departmental Printing Office, Germiston.

RO3		½d. grey-black and bluish green	50·00	15·00

RO6		3d. grey-black and sage-green	£150	75·00
RO7		4d. grey-black and brown	£150	75·00
RO8		6d. black and orange brown	£200	£100
RO9		1s. bluish grey and red-brown	£350	£250

1905. As Nos. RO3/4 but Wmk Multiple Crown CA.

RO10		½d. grey-black and bluish green	75·00	45·00
RO11		1d. grey-black and bluish green	75·00	45·00

The overprint on Nos. RO3/11 was applied in a setting of 120 and was normally placed either at the top or the bottom of the stamp, although central placings are known. The stamps were withdrawn on 13 October 1905, but examples of genuine late usage have been recorded. Dangerous forgeries, including a 2½d. duty, exist.

TELEGRAPH STAMPS

In the 1880s Queen's Head postage stamps (Type **9**) and fiscal stamps were used for the prepayment of telegraph communication. Once these were used up it would seem that just postage stamps were used until the British occupation in 1900. In the early period of the occupation, postage stamps overprinted "V.R.I." up to the value of 2s.6d. and high value fiscal stamps similarly overprinted were used for telegraph purposes (Cape of Good Hope "Hope standing" 6d. and 1s. fiscal stamps overprinted "TRANSVAAL" were also used). The following stamps were overprinted or surcharged specifically for telegraphic use.

T4		2s.6d. dull violet and green (10.01)	42·00	26·00

Forgeries of T1-4 exist, used examples should have a clear "Army Telegraphs" cancellation.

1902. Fiscal stamp (as T **33**) optd T **35** and surch as T T **3**. Perf 11, 11×11½ or 11½.

T5		5s. on £2 red-brown (*shades*)	—	£140

1902 (June?). Nos. 217 and 222 handstamped as T T **4**.

T7		1d. rose-red and green		
T8		6d. lilac and green		

Only unused examples of Nos. T7/8 are known, and it is possible that they were not issued.

1902 (June). King Edward VII fiscal stamps handstamped as T T **4**.

T9		10s. grey-black and bright blue	£375	£180
T10		£1 grey-black and sage-green	£650	£325
T11		£5 grey-black and purple	£3500	

Forgeries of the T T **4** handstamp are known on cleaned fiscally used stamps.

There are two versions of the T T **4** handstamp, one as illustrated and the other with "T" of "Transvaal" above the "T" of "Telegraphs".

From 1903 postage stamps were once again used to pay telegraph charges.

Transvaal became a province of the Union of South Africa on 31 May 1910.

Stamps used during the Interprovincial Period (1 June 1910–31 August 1913) are listed under South Africa.

PIETERSBURG

After the fall of Pretoria to the British in June 1900 the Transvaal government withdrew to the north of the country. Those post offices in areas not occupied by the British continued to function. The following stamps were then authorised by the State Secretary. Pietersburg itself was taken by British forces on 9 April 1901.

PRICES. Genuinely used examples are very rare. Stamps cancelled by favour exist and are worth the same as the unused prices quoted.

The issued stamps are initialled by the Controller, J. T. de V. Smit. All values exist without his signature and these come from clandestine printings in excess of the official government print order. Unsigned stamps were not issued by the Post Office.

8		6d. lilac and green	£3750	£1000
9		1s. ochre and green	£5500	£3750

The above were cancelled by British Army postal service postmarks. These overprints with Transvaal cancellations are believed to be forgeries.

RUSTENBURG

British forces in Rustenburg, west of Pretoria, utilised Transvaal stamps, handstamped "V.R" on the command of Colonel Baden-Powell.

V.R.

5	**17**	½d. green	†	£600
6		1d. carmine	†	£600

Schweizer Renecke, near the Bechuanaland border, was occupied by a British garrison from July 1900 to 9 January 1901. The British commander authorised the above stamps shortly after 19 August. All stamps were cancelled with the dated circular town postmark ("Schweizer Renecke, Z.A.R."), usually after having been stuck on paper before use. Unused, without the postmark, do not exist.

No. 4 exists with double handstamp.

WOLMARANSSTAD

A British party occupied this town in the south-west of the Transvaal from 15 June to 27 July 1900. Transvaal stamps, to a face value of £5. 2s.6d., were found at the local firm of Thos. Leask and Co. and surcharged as below. The first mail left on 24 June and the last on 21 July.

VII. ZULULAND

Zululand remained an independent kingdom until annexed by Great Britain on 19 May 1887 when it was declared a Crown Colony.

The first European postal service was operated by a Natal postal agency at Eshowe opened in 1876 which cancelled Natal stamps with a "No. 56 P.O. Natal" postmark. The agency closed during the Zulu War of 1879 and did not re-open until 1885 when an Eshowe postmark was provided. "ZULULAND" was added to the cancellation in 1887 and stamps of Natal continued to be used until replaced by the overprinted series on 1 May 1888.

FISCAL STAMP USED FOR POSTAGE

ZULULAND
F 1

1891 (5 May*). F **1**, Fiscal stamp of Natal optd with T **1**. Wmk Crown CA. P 14.

F1	1d. dull mauve	4·00	3·00
	a. Top left triangle detached	£250	£190
	s. Handstamped *"SPECIMEN"*	65·00	

*Earliest known date of postal use. A proclamation published in the *Natal Government Gazette* on 27 June 1891 authorised the use of this stamp for postal purposes, but it is clear from the wording that such use had already commenced.

For illustration of "top left triangle detached" variety see above No. 21 of Antigua.

Other values, 1s. to £20 as No. F1 exist apparently with postmarks, but, as these were never authorised for postal use, they are no longer listed.

Zululand was annexed to Natal on 31 December 1897 and its stamps were withdrawn from sale on 30 June 1898.

Nos. AT3/4, AT6 and AT8/12 had originally been issued in 1895, and were used in small quantities during the Ashanti expedition. Nos. AT1, AT5 and AT7 followed in 1896, and were used with other values to 2s.6d. during Autumn manoeuvres in England, but the main usage of these stamps was in South Africa.

TWO PENCE
(T 5)

1900 (Feb). Nos. AT9 and AT10 surch as T **5**.

AT14	"TWO PENCE" on 2s.6d.green and brown (Verm.)	£2750	£120

AT15	"ONE SHILLING" on 5s. green and mauve (B.)	£2750	£110
	a. Bisected (6d.) on piece	†	£550

Used stamps usually bear a metal "ARMY TELEGRAPHS" datestamp with code letters either side of the date.

As the Anglo-Boer War progressed the "Army Telegraphs" stamps were replaced by overprinted Telegraph stamps in the occupied Orange Free State and by Fiscal and postage stamps in the Transvaal.

IX. UNION OF SOUTH AFRICA

The Interprovincial Period (1 June 1910 – 31 August 1913)

With the establishment of the Union on 31 May 1910, the only definitive stamps available were those of the four provinces; Cape of Good Hope, Natal, Orange River Colony and Transvaal. These became available for use throughout the Union from 1 June, although the public was not officially informed of the fact until it was published in the *Government Gazette* on 19 August.

The collecting of 'Interprovincials' is best thought of as the study of the period from 1 June 1910 until the issue of the first Union definitives on 1 September 1913, although in the case of the postage dues of Transvaal, the period can be extended until the issue of the relevant Union values in 1914–15. The only provincial stamps reprinted and issued during this period were those of Transvaal. As collectors generally include the use of provincial stamps in their 'home' province during the period, these are included in the listings below.

Usage of provincial stamps continued after 1 September 1913, until demonetisation on 1 January 1938, although during this period usage became increasingly philatelic and included stocks of earlier stamps, such as the Orange Free State 'V.R.I.' overprints. Our listings comprise only those stamps which were generally available at the time of Union. The 2½d. values are relatively scarce used in the true Interprovincial period, but there were considerable stocks left in September 1913 and their use outside the period is more common.

Our prices are for fine used stamps clearly dated within the period and showing the place they were used. Stamps on piece or cover showing full cancellations, and stamps used in smaller offices are worth more. Collectors are warned against the Natal high values with faked interprovincial cancels.

No. 30a exists in Afrikaans only. Nos. 30e and 31d were only issued in booklets.

No. 30d occurred on the bottom left-hand corner of one sheet and included the bottom four stamps in the first vertical row and the bottom two in the second. As listed No. 30d shows the left-hand stamp with the frame completely double and the right-hand stamp with two-thirds of the frame double.

*Both Nos. 31a and 31b occur in blocks of four with the other vertical pair imperforate at left.

**Nos. 30f and 31e are known with the top of the Springbok's head to the left or to the right, *as seen from the back of the stamp*.

For ½d. with pale grey centre, see No. 126.

For rotogravure printing see Nos. 42, etc.

For similar designs with "SUID-AFRIKA" hyphenated, see Nos. 54 etc. and Nos. 114 etc.

Nos. 42/3, 43*d*/4 exist in coils.

The unused prices quoted for Nos. 44*e* and 49*b* are for unmounted examples.

No. 42a comes from the coil printing on the cylinder for which two horizontal rows were incorrectly etched so that two Afrikaans-inscribed stamps were followed by two English. This variety is normally without a coil join, although some examples do occur showing a repair join.

The 1d. (Type I) exists without watwermark from a trial printing (*Price* £30 *un*).

No. 44 exists in sepia and mauve with smaller vignettes. Believed to be an early or trial printing replaced due to the vignette being too narrow for the frames. (*Price* £900 *unused*, £700 *used*).

Although it appears to be printed in one colour No. 45*c* was produced from vignette and frame cylinders in the same way as the bicoloured version. The clouds in the background, which are present on No. 45e, were printed from the frame cylinder.

The Rotogravure printings may be distinguished from the preceding Typographed and Recess printed issues by the following tests:—

2d. The newly built War Memorial appears to the left of the value.

3d. Two fine lines have been removed from the top part of the frame.

4d. No. 46. The scroll is in solid colour.
No. 46*c*. The scroll is white with a crooked line running through it. (No. 35*b*. The scroll is shaded by the diagonal lines.)

1s. The shading of the last "A" partly covers the flower beneath.

2s.6d. The top line of the centre frame is thick and leaves only one white line between it and the name.

5s. (Nos. 64/*b*). The leg of the "R" is straight.

Rotogravure impressions are generally coarser.

The ½d. and 1d. coil stamps may be found in blocks emanating from the residue of the large rolls which were cut into sheets and distributed to Post Offices.

Nos. 54 and 56 also exist in coils.

1d. Is printed from Type II. Frames of different sizes exist due to reductions made from time to time for the purpose of providing more space for the perforations.

3d. In No. 59 the frame is unscreened and composed of solid lines. Centre is diagonally screened. Scrolls above "3d." are clear lined, light in the middle and dark at sides.

6d. Die I. Green background lines faint. "SUID-AFRIKA" 16¼ mm long.
Die II. Green background lines heavy. "SUID-AFRIKA" 17 mm long. "S" near end of tablet. Scroll open.
Die III. Scroll closed up and design smaller (18×22 mm).

Single specimens of the 1933–48 issue inscribed in English may be distinguished from those of 1930–45 as follows:—

½d. and 1d. Centres in grey instead of varying intensities of black.
2d. The letters of "SOUTH AFRICA" are narrower and thinner.
3d. The trees are taller and the sky is without lines.
6d. The frame is vermilion.
1s. The frame is chalky blue.

For similar designs, but printed in screened rotogravure, see Nos. 114 to 122a.

BOOKLET PANES. Booklets issued in 1935 contained ½d. and 1d. stamps in panes with advertisements in the top and bottom margins and no margin at right (Nos. 54c and 56e). These were replaced in 1937 by editions showing blank margins on all four sides (Nos. 56f and 75ca). Following a period when the booklet panes were without margins a further 3s. booklet was issued in 1948 which had four margins on the panes and postal slogans at top and bottom (Nos. 56h, 87c and 114a).

In screened rotogravure the design is composed of very small squares of colour arranged in straight diagonal lines.

½d. Size 17¾×21¾ mm. Early printings have only the frame screened.

For the final printing of 114c, issued December 1951, the "Tick" flaw was removed, leaving a white "tick", but the spot on nose remained on R. 2/4.

1d. Size 18×22 mm. For smaller, redrawn design, see No. 135.

2d. For earlier issue with centre only screened, and in different colours, see Nos. 107/*a*.

3d. No. 117. Whole stamp screened with irregular grain. Scrolls above "3d." solid and toneless. Printed from two cylinders.

No. 117*a*. Whole stamp diagonally screened. Printed from one cylinder. Clouds more pronounced. Late printings were often in deep shades.

4d. Two groups of white leaves below name tablet and a clear white line down left and right sides of stamp.

WATERMARK. The first stamps on Type **127** showed a reasonably clear watermark, but a new paper introduced in late 1966 had a much fainter watermark. Type **127a** was introduced in mid-1967 and is invariably quite difficult to see, so care should be exercised in correctly identifying single stamps from this issue.

GUM. The 2, 3, 5, 20, 50c. and 1r. on W **127a** exist with PVA gum as well as gum arabic.

PHOSPHORISED PAPER. From October 1971 onwards phosphor bands (see Nos. 282/96) gave way to phosphorised paper which cannot be distinguished from non-phosphor stamps without the aid of a lamp. For this reason we do not distinguish these printings in the above issue, but some are slightly different shades and all have PVA gum. The 4c. and 9c. are on phosphorised paper only and differ from Nos. 288 and 292 by the lack of phosphor bands.

Nos. D59/70 were printed in two panes, one with inscriptions as Type D **6** and the other as Type D **7**.

*Nos. D54*a*, D62*b/c* and further supplies of D54 were part of a printing released in June 1969. Most sheets were printed on paper with the Arms watermark, but some were printed on RSA paper with the watermark upright and faint (W **127**). Of these many were spoilt, but a few sheets were issued in Types D **7** and D **6**, the latter being very scarce.

The 2c. (Types D **6** and D **7**) and 4c. (Type D **7** only) were reissued in 1971, perf 14.

Nos. O19a/c and O25a/c first appeared in a 1946 overprinting where the variety occurs on R. 1/5 (Afrikaans) and R. 1/6 (English). A setting of 60 (6×10) was applied to the top halves of the sheets only. The same setting was used for a printing of the 2d. value, applied twice to each sheet of 120, resulting in O36a. The diaeresis variety reappeared in the November 1947 printing of the 1s. and 2s.6d. values in position R. 6/2 on the Afrikaans stamp and R. 6/3 on the English stamp.

Horizontal rows of 6 of the 1s. exist with "OFFICIAL" twice on the first stamp and "OFFISIEEL" twice on the last stamp. Such rows are believed to come from two half sheets which were overprinted in 1947, but not placed into normal stock (*Price for row of* 6, £3750, *unused*).

Two different formes were used to overprint Type **34a** between 1944 and 1946. The first, applied to the left halves of sheets only, had a diaeresis over the second "E" of "OFFISIEEL" on all positions of the setting, except for R. 1/2, 2/2, 3/2 and 8/1. The second form, from which the majority of the stamps came, was applied twice to overprint complete sheets, had no diaeresis.

SELF-GOVERNMENT

The southern part of Rhodesia, previously administered by the British South Africa Company, was annexed by the British Government and granted the status of a self-governing colony from 1 October 1923.

The existing stamps of Rhodesia (the "Admiral" design first issued in 1913) remained in use until 31 March 1924 and continued to be valid for postal purposes until 30 April of that year.

South West Africa

Walvis (or Walfish) Bay, the major anchorage on the South West Africa coast, was claimed by Great Britain as early as 1796. In 1878 the 430 sq. mile area around the port, together with a number of offshore islands, was annexed to Cape Province, passing to the Union in 1910. Stamps of Cape of Good Hope and, later, South Africa, were used at Walvis Bay, often cancelled with the numeral obliterator "300", until the enclave was transferred to the South West African administration on 1 October 1922.

Germany declared a protectorate over the southern part of the territory, around Luderitzbucht, in 1884, extending its reach and establishing boundaries with surrounding administrations by 1890, establishing authority over the entire country, apart from the Walvis Bay enclave.

German post offices were opened from 1888, selling current German stamps which may be identified by their cancellations. In 1897 the German stamps overprinted "Deutsch-/Sudwest-Afrika" and, later "Deutsch-/Sudwestafrica" were introduced, to be followed by the colonial "Yacht" series in 1901.

After a rebellion in South Africa, aided by arms supplied from German South West Africa, had been defeated in December 1914, South African troops invaded the protectorate, with the German forces finally capitulating on 9 July 1915.

As civil post offices were opened by the occupying forces, they sold South African stamps, generally postmarked by altered German colonial cancellers.

On 17 December 1920 the League of Nations conferred a mandate of administration of the territory on His Britannic Majesty, to be exercised by the government in South Africa. The Mandate came into force on 1 January 1923, on which date the first South African stamps overprinted for use in the territory were issued.

The following listing covers South African stamps used in South West Africa up to 31 January 1923 when they ceased to be valid. The cancellations during this period are of great interest with many provisional and altered German types; the prices given are for the more common markings.

INSCRIPTIONS. Most of the postage stamps up to No. 140 are inscribed alternately in English and Afrikaans throughout the sheets and the same applies to all the Official stamps and to Nos. D30/33.

PRICES for Nos. 1/140 are for unused horizontal pairs, used horizontal pairs or used singles (either inscr), *unless otherwise indicated*.

OVERPRINT SETTINGS. Between 1923 and 1928 the King George V definitives of South Africa, Types **2** and **3**, and the various postage due stamps were issued overprinted for use in South West Africa. A number of overprint settings were used:

Setting I – Overprint Types **1** and **2** ("Zuid-West Afrika"). 14 mm between lines of overprint. See Nos. 1/12 and D1/9

Setting II – As Setting I, but 10 mm between lines of overprint. See Nos. 13/15 and D10/13

Setting III – Overprint Types **3** ("Zuidwest Afrika") and **4**. "South West" 14 mm long. "Zuidwest" 11 mm long. 14 mm between lines of overprint. See Nos. 16/27 and D14/17

Setting IV – As Setting III, but "South West" 16 mm long, "Zuidwest" 12 mm long and 14 mm between lines of overprint. See Nos. 28 and D17*a*/20

Setting V – As Setting IV, but 12 mm between lines of overprint. See Nos. D21/4

Setting VI – As Setting IV, but 9½ mm between lines of overprint. See Nos. 29/40 and D25/32.

1/12 *Set of* 12		£2250	£4750	£650
1s/12s Optd "SPECIMEN" *Set of* 12 *singles*		£1700		

Nos. 1/12 were overprinted in complete sheets of 240 (4 panes 6×10).

No. 3b shows traces of a type spacer to the right of where the "t" should have been. This spacer is not visible on Nos. 1a and 2b.

Minor varieties, such as broken "t" in "West", were caused by worn type. Stamps showing one line of overprint only or with the lower line above the upper line due to overprint misplacement may also be found. All values exist showing a faint stop after "Afrika" on R. 17/8, but only examples of the 1d. and 1s. have been seen with it completely omitted.

29/40 *Set of* 12		£500	£1000	£120
35s, 39s/40 H/S "SPECIMEN" *Set of* 3		£500		

Nos. 29/40 were overprinted in complete sheets of 240 (4 panes of 6×10) with, initially, "South West Africa" 16½ mm long on the upper two panes and 16 mm long on the lower two. This order was subsequently reversed. For printings from 8 November 1926 all four panes showed the 16½ mm measurement. No. 40*a* only comes from this printing.

Examples of most values are known showing a forged Windhoek postmark dated "30 SEP 24".

On the ½d., 1d. and 6d. the missing stop variety occurs three times on each sheet, R. 1/7, 13/4 and one position not yet identified. For the other values it comes on R. 2/3 of the right pane and, for the 2s.6d., 5s. and 10s., on R. 8/1 of the left pane.

The missing stop after "W" on the 3d. occurs on R. 10/5 of the right pane.

The overprint is normally found at the base of the ½d., 1d., 6d., 1s.3d. and £1 values and at the top of the remainder.

Examples of all values are known showing a forged Windhoek postmark dated "20 MAR 31".

For Setting VI the overprint was applied to sheets of 120 (2 panes of 60) of the 1d., 3d. and 6d., and to individual panes of 60 for the other values. The two measurements of "South West", as detailed under No. 40, also occur on the postage dues. Nos. D25 and D31/2 show it 16 mm long, No. 27 16½ mm long and the other stamps can be found with either measurement. In addition to the complete panes the 16½ mm long "South West" also occurs on R. 2/4 in the 16 mm left pane for Nos. D28 and D30/2.

Official records also list post offices at the following locations, but no genuine postal markings from them have yet been reported: Chaka, Dara, Debeira, El Abiad, El Fasher, El Kalabat, Faras, Fashoda, Fazogl, Ishkeit, Kalkal, Karkok, Mesellemia, Sara, Sennar and Taoufikia (not to be confused with the town of the same name in Egypt).

M

The post office at Kassala was operated by Italy from 1894 until 1896, using stamps of Eritrea cancelled with postmark type M.

From the last years of the nineteenth century that part of Sudan lying south of the 5 degree North latitude line was administered by Uganda (the area to the east of the Nile) (until 1912) or by Belgium (the area to the west of the Nile, known as the Lado Enclave) (until 1910).

Stamps of Uganda or East Africa and Uganda were used at Gondokoro and Nimuli between 1901 and 1911, usually cancelled with circular date stamps or, probably in transit at Khartoum, by a lozenge-shaped grid of 18×17 dots.

Stamps of Belgian Congo were used from the Lado Enclave between 1897 and 1910, as were those of Uganda (1901–10) and Sudan (1902–10), although no local postmarks were supplied, examples being initially cancelled in manuscript.

Stamps of Sudan were used at Gambeila (Ethiopia) between 1910 and 10 June 1940 and from 22 March 1941 until 15 October 1956. Sudan stamps were also used at Sabderat (Eritrea) between March 1910 and 1940.

Numerous forgeries exist including some which show the characteristics of the varieties mentioned below.

There are six varieties of the overprint we were previously recognised by specialists, but one of these is now regarded as an unauthorised reprint from the original type. Here reprints can only be detected when in multiples. The 2pi. with inverted watermark only exists with this unauthorised overprint so it is not listed.

In some printings the large dot is omitted from the left-hand Arabic character on one stamp in the pane of 60.

Only two examples, one unused and the other used (in the Royal Collection), are known of No. 8a. In both instances one impression is partially albino.

ARMY SERVICE STAMPS

ARMY (A 1) OFFICIAL ARMY (A 2) OFFICIAL Army Service (A 3)

1905 (1 Jan). T **2** optd at Khartoum as Types A **1** or A **2**. W **4** (Mult Star and Crescent).

(i) "ARMY" reading up

A1	1m. brown and carmine (A **1**)	10·00	4·00
	a. "!" for "1"	85·00	50·00
	b. Opt Type A **2**	65·00	32·00
	c. Pair. Types A **1** and A **2** *se-tenant*	£120	£160

(ii) Overprint horizontal

A2	1m. brown and carmine (A **1**)	£600	
	a. "!" for "1"	£6500	
	b. Opt Type A **2**	£4250	

The horizontal overprint exists with either "ARMY" or "OFFICIAL" reading the right way up. It did not fit the stamps, resulting in misplacements where more than one whole overprint appears, or when the two words are transposed.

(iii) "ARMY" reading down

A3	1m. brown and carmine (A **1**)	£190	£100
	a. "!" for "1"	£1500	£1500
	b. Opt Type A **2**	£1300	£800

1905 (Nov). As No. A1, W **3** (Quatrefoil).

A4	1m. brown and pink (A **1**)	£225	£250
	a. "!" for "1"	£6000	£4000
	b. Opt Type A **2**	£3500	£3500
	c. Pair. Types A **1** and A **2** *se-tenant*	£5000	

The setting used for overprinting Nos. A1/4 was 30 (6×5). The "!" for "1" variety occurs on R. 5/4 and overprint Type A **2** on R. 1/6 and 2/6 of the setting.

Two varieties of the 1 millieme.

A. 1st Ptg. 14 mm between lines of opt.
B. Later Ptgs. 12 mm between lines.

All other values are Type B.

1906 (Jan)–**11**. T **2** optd as Type A **3**.

*(i) W **4** (Mult Star and Crescent)*

A5	1m. brown and carmine (Type A)	£700	£450
	a. Opt double, one albino	£800	
A6	1m. brown and carmine (Type B)	3·50	20
	a. Opt double, one diagonal	†	£1600
	b. Opt inverted	£800	£800
	c. Pair, one without opt	†	£7500
	d. "Service" omitted	†	£4750
A7	2m. green and brown	28·00	1·00
	a. Pair, one without opt	£4750	
	b. "Army" omitted	£4500	£4500
A8	3m. mauve and green	25·00	40
	a. Opt inverted	£2000	
A9	5m. scarlet and black	5·00	10
	a. Opt. double	£400	£250
	ab. Opt double, one diagonal	£350	
	b. Opt inverted	†	£450
	c. "Army"	†	£2750
	e. Opt double, one inverted	£1800	£700
	f. "Armv" for "Army" (R. 4/9)		
A10	1p. blue and brown	30·00	15
	a. "Army" omitted	—	£3500
	b. Opt double	†	£3000
A11	2p. black and blue (1.09)	£100	13·00
	a. Opt double	—	£3000
A12	5p. brown and green (5.08)	£190	70·00
A13	10p. black and mauve (5.11)	£600	£750
A6s/10s Optd "SPECIMEN" *Set of 5*		£130	

There were a number of printings of these Army Service stamps; the earlier are as Type A **3**; the 1908 printing has a narrower "A" in "Army" and the 1910–11 printings have the tail of the "y" in "Army" much shorter.

The two overprints on No. A11a are almost coincident. The error comes from the 'short "y"' printing.

A variety with no cross-bar to "A" of "Army" is known on some values, but does not appear to be constant.

No. A13 has been extensively forged, and should only be purchased with a reliable gurantee.

*(ii) W **3** (Quatrefoil)*

A14	2p. black and blue	95·00	10·00
A15	5p. brown and green	£130	£275
A16	10p. black and mauve	£160	£425

A25		10p. black and mauve (1914)	£500	£275
A17/25 *Set of 9*			£900	£375

1922–24. Nos. 31*a* and 34/5 punctured "AS" by machine. The "A" has 8 holes and the "S" 9.

A26	**6**	2m. yellow and chocolate (1924)	£110	55·00
A27		5m. olive-brown and black (4.2.22)	25·00	7·00
A28		10m. carmine and black	32·00	10·00
A26/8 *Set of 3*			£150	65·00

The use of Nos. A17/28 on internal Army mail ceased when the Egyptian units were withdrawn at the end of 1924, but existing stocks continued to be used on Army mail to foreign destinations until supplies were exhausted.

TELEGRAPH STAMPS

From March to May 1885 the Military Telegraph stamps of Great Britain (Bechuanaland Nos. MT1/8) were in use in Sudan. Identifying postmark codes are "SK" (Suakin), "QI" (Quarantine Island), "HQ" (Headquarters), "WR" (Western Redoubt) and "ZA" (No.1 Post and, later, 2nd Brigade HQ).

Telegraph stamps were reintroduced during the Sudan campaign of 1896–8.

TRIPARTITE GOVERNMENT

Following internal unrest and problems caused by the multitude of commercial concessions granted by the Swazi king the British and Transvaal governments intervened during 1889 to establish a tripartite administration under which the country was controlled by their representatives, acting with the agent of the Swazi king.

The Pretoria government had previously purchased the concession to run the postal service and, on the establishment of the tripartite administration, provided overprinted Transvaal stamps for use from a post office at Embekelweni and later at Bremersdorp and Darkton.

The "Swazielan" variety occurs on R. 6/1 in each sheet of certain printings.

A printing of the ½d, 1d., 2d. and 10s. yellow-brown with stop after "Swazieland" was made in July 1894, but such stamps were not issued.

It is possible that the dates quoted above were those on which the overprinting took place in Pretoria and that the stamps were issued slightly later in Swaziland itself.

		a. Opt inverted	£500	
		b. Opt double	£500	£500
		c. Pair, one without opt	†	£2000

No. 10 was overprinted in Pretoria during August 1892 when Swaziland was under quarantine due to smallpox. It is unlikely that it saw much postal use before all the overprints were withdrawn, although cancelled-to-order examples are plentiful.

It appears likely that no further supplies of stamps overprinted "Swazieland" were provided by Pretoria after December 1892, although stocks held at post offices were used up. The overprinted stamps were declared to be invalid from 7 November 1894. They were replaced by unoverprinted issues of the Transvaal (South African Republic).

Prices are for clear and fairly complete postmarks. Examples dated in 1892 and 1893 are worth a premium. For list of post offices open during this period see boxed note below. Most known examples are from Bremersdorp (squared circle inscr "SWAZIEL" later replaced by "Z.A.R." or c.d.s.) or Darkton (c.d.s.).

Shortly after the outbreak of the Boer War in 1899 the Transvaal administration withdrew from Swaziland, although the post office at Darkton, which was on the border, was still operating in early 1900. There was, however, no further organised postal service in Swaziland until the country became a British Protectorate in March 1902.

The following post offices or postal agencies existed in Swaziland before 1933. Dates given are those on which it is generally accepted that the offices were first opened. Some were subsequently closed before the end of the period. This revised listing is based on that in *Swaziland Philately to 1968*, edited by Peter van der Molen.

MAFIA ISLAND

BRITISH OCCUPATION

Mafia Island was captured by the British from the Germans in January 1915. Letters were first sent out unstamped, then with stamps handstamped with Type M **1**. Later the military were supplied with handstamps by the post office in Zanzibar. These were used to produce Nos. M11/52

There is continuing debate about the status of the Mafia provisional issues, but we are satisfied that they were produced with proper authorisation, under wartime conditions.

All values exist with the overprint inverted, and several are known with overprint double or sideways.

Type M **4** (a handstamp made up from metal type) was originally applied as a combined overprint and postmark, between November 1915 and July 1916, and can be found tying the 3p., ½a. and 1a. values to piece or cover. A "MAFIA" circular datestamp was supplied from Zanzibar in early July 1916, and from July to September 1916 type M **4** was used as an overprint only, mainly for philatelic purposes.

Until early April 1917 India "I.E.F" stamps were in use on Mafia without additional overprint, but the new overprint type M **5** (a rubber handstamp) was then introduced, producing Nos. M43/52.

1917 (Apr). Nos. E1/2, E4/9, E11 and E13 of Indian Expeditionary Forces (India King George V optd "I.E.F.") with further opt Type M **5** handstruck in green, greenish black, dull blue or violet.

M52	1r. red-brown and deep blue-green	£650	£750
M43/52 *Set of* 10		£2500	£2750

Stamps with handstamp inverted are known.

Used examples of Nos. M43/52 with black double-ring backdated postmarks of "JA 23 1915" and other dates prior to April 1917 are worth about 50% of the prices quoted.

Nos. M43/52 were in use until August 1918, when they were replaced by the Tanganyika "G.E.A." issue (Nos. 45/61). India "I.E.F." stamps without additional overprint also remained in use during the period.

NYASALAND-RHODESIAN FORCE

This issue was sanctioned for use by the Nyasaland-Rhodesian Force during operations in German East Africa, Mozambique and Nyasaland. Unoverprinted Nyasaland stamps were used by the Force prior to the introduction of Nos. N1/5 and, again, in 1918.

Of No. N3a only six examples were printed, these being the bottom row on one pane issued at M'bamba Bay F.P.O., German East Africa in March 1918.

This overprint was applied in a setting of 60 (10 rows of 6) and the following minor varieties occur on all values: small stop after "N" (R. 1/1); broken "F" (R. 4/3); very small stop after "F" (R. 6/5); no serifs at top left and bottom of "N" (R. 10/1).

TANGANYIKA

BRITISH OCCUPATION OF GERMAN EAST AFRICA

Following the invasion of German East Africa by Allied forces civilian mail was accepted by the Indian Army postal service, using Indian stamps overprinted "I.E.F.". Some offices reverted to civilian control on 1 June 1917 and these used stamps of East Africa and Uganda until the "G.E.A." overprints were ready. The last field post offices, in the southern part of the country, did not come under civilian control until 15 March 1919.

The "OFFICIA" error (Nos. O32b, O36b) occurred initially only on R10/9 of the setting of 100. Subsequently the "L" of "OFFICIAL" deteriorated on R10/10 also, and examples of the 40c. value have been seen with complete omission from this second position.

The letterpress overprint can be distinguished from the photogravure by its absence of screening dots and the overprint showing through to the reverse, apart from the difference in length.

POSTAGE DUE STAMPS

Postage Due stamps of Kenya and Uganda were issued for provisional use as such in Tanganyika on 1 July 1933. The postmark is the only means of identification.

The Postage Due stamps of Kenya, Uganda and Tanganyika were used in Tanganyika until 2 January 1967.

ANGLO-FRENCH OCCUPATION

French forces invaded southern Togo on 8 August 1914 and the British had entered Lomé by the same date, examples of Gold Coast stamps being known cancelled there on the 8th. The German administration surrendered on 26 August 1914.

The territory was jointly administered under martial law, but was formally divided between Great Britain and France, effective 1 October 1920. League of Nations mandates were issued for both areas from 20 July 1922.

SETTINGS. Nos. H1/33 were all overprinted or surcharged by the Catholic Mission, Lomé.

The initial setting for the 3pf. to 80pf. was of 50 (10×5), repeated twice on each sheet of 100. Overprints from this setting, used for Nos. H1/9, had the lines of type 3 mm apart.

Nos. H1/2 were subsequently surcharged, also from a setting of 50, to form Nos. H12/13. The surcharge setting showed a thin dropped "y" with small serifs on R. 1/1–2, 2/1, 3/1, 4/1 and 5/1–2.

The type from the overprint and surcharge was then amalgamated in a new setting of 50 on which the lines of the overprint were only 2 mm apart. On this amalgamated setting, used for Nos. H27/8, the thin "y" varieties were still present and R. 4/7 showed the second "O" of "TOGO" omitted.

The surcharge was subsequently removed from this "2 mm" setting which was then used to produce Nos. H17/19. The missing "O" was spotted and corrected before any of the 30pf. stamps were overprinted.

The remaining low values of the second issue, Nos. H14/16 and H20/2, were overprinted from settings of 25 (5×5), either taken from the last setting of 50 or from an amended version on which there was no space either side of the hyphen. This slightly narrower overprint was subsequently used for Nos. H29/33. It shows the top of the second "O" broken so that it resembles a "U" on R. 1/5.

The mark values were overprinted from settings of 20 (5×4), showing the same differences in the spacing of the lines as on the low values.

It is believed that odd examples of some German colonial values were overprinted from individual settings in either spacing.

1914 (17 Sept*). Optd with T **1** by Catholic Mission, Lomé. Wide setting. Lines 3 mm apart.

*The post office at Lomé was open for four hours on 17 September, before closing again on instructions from Accra. It finally reopened on 24 September.

The *tête-bêche* overprint on the 10pf. is due to the sheet being turned round after the upper 50 stamps had been overprinted so that vertical pairs from the two middle rows have the overprint *tête-bêche*.

		b. Thin "G" in "TOGO"	£650	
		f. "CCUPATION" for "OCCUPATION"	£850	
H34/46 *Set of* 12			£200	£275

Nos. H34/46 were overprinted in panes of 60 (6×10), using a setting of movable type. There were three printings:
1st printing (all values, 3d. No. H38 only).
2nd printing (all values, 3d. No. H38*g* only).
3rd printing (recorded on 1d., 3d. (H38), 2s., 2s.6d., 5s. only.)

Varieties occur as follows (Nos. indicate position in setting)
a. Small "F" in "FRENCH" (25, 58, 59). Present in all three printings on pos. 25, and on pos. 58 and 59 in 1st and 2nd printings.
b. Thin "G" in "TOGO" (24) Constant in all three printings. The letter is from a slightly smaller fount.
c. No hyphen after "ANGLO" (5, 28). Occurs on pos. 5 during the 1st printing (½d., 1d., 2d., 2½d., 3d. (No. H38), rare on the 2d. and 2½d.), and again on the 3rd printing (1d., 3d., (No. H38), 2s., 2s.6d., 5s.). It is also found on pos. 28 in the 1st printing (½d. and 1d. only).
d. Two hyphens after "ANGLO" (5). Occurs on pos. 5 during the 1st printing (2d., 2½d. only). The two hyphens vary in character. The same two values are also found with misplaced hyphen from this position.
e. "CUPATION" for "OCCUPATION" (33) ½d. value only, 1st printing.
f. "CCUPATION" for "OCCUPATION" (57). All values, 1st printing.

CHARACTERISTICS OF THE ACCRA OVERPRINT

Being set up from movable type, no two positions are exactly the same and there are many minor varieties of broken type. The two "C"s in "OCCUPATION" often differ slightly in shape and one or both usually have closed jaws. The word "OCCUPATION" is generally fractionally shorter (at 14½ to 14¾ mm) than in the subsequent London overprint, where the length is consistently 15 mm. The impression is variable, but usually appears weaker than the London overprint, which is normally bold and well-inked.

The position of the overprint on the stamp varies greatly, with the word "TOGO" often encroaching on the crown above the King's head (high position) or the word "OCCUPATION" encroaching on the value tablet (low position). The subsequent London overprint is invariably well-centred, leaving both crown and value tablet clear.

Note that the 3d. (No. H38*g*) and 5s. (No. H44) with white back do not occur with the London overprint.

The 1d. opt inverted (No. H35h) exists with small "F" (*Price* £1700 *unused*), thin "G" (*Price* £4500 *unused*) and "No hyphen" (*Price* £4500 *unused*).

Examples of all values, and especially the varieties, are known showing a forged Lomé postmark dated "22 1 15".

H47/58 *Set of* 12			£200	£275
H47s/58s Optd "SPECIMEN" *Set of* 12			£350	

Nos. H47/58 were overprinted by De La Rue using a stereotyped plate, probably of 120 (two panes, each 6×10). The overprint is much more consistent than the Accra printings and is usually bold and well-inked, with letters that appear thicker, particularly in the word "TOGO". "OCCUPATION" measures 15 mm in length. The two "C"s in "OCCUPATION" are identical in size and style, with open jaws.

The overprint is invariably well-centred, with the top of the word "TOGO" placed just below the top of the King's head on the 1d. and just below the base of the crown on the other values, leaving the value tablet completely clear.

Nos. H51*a*, 53*a*/*c*, 56/*a* and 57*a* are all shades which were overprinted only in London and do not exist with the Accra overprint. Nos. H51*a* and 56*a*, described as on "buff-yellow" paper, include second printings made in 1920, which are not easy to distinguish. Viewed from the back, the paper appears rather pale and dull, in comparison with the bright (almost lemon) yellow of Nos. H51 and 56.

Nos. H47/58 were withdrawn in October 1920 when Gold Coast stamps were introduced.

The mandates were transferred to the United Nations in January 1946. The inhabitants of the British mandate voted to join Ghana in 1957.

Nos. 26b and 28b were in sheets of 48 (2 panes 6×4). The panes were separated before the surcharges were applied.

There are variations in the relative positions of the words "Half" and "Penny", both vertically and horizontally.

Dangerous forgeries of the above issue are known to exist, and no rarity should be acquired without a reliable guarantee. But note that whereas the violet typewritten part of the surcharge has been cleverly imitated, using a machine of the same model as was used for the original issue, such fakes also have a forged version of the black typeset Tongan surcharge.

No. O117	—

Transjordan was part of the Turkish Empire from 1516 to 1918.

Turkish post offices are known to have existed at Ajlun ("Adjiloun"), Amman ("Omman"), Amman Station, Kerak ("Kerek"), Ma'an ("Mohan" or "Maan"), Qatrana, Salt and Tafila ("Tafile"). Stamps cancelled "Ibin" may have been used at Ibbin.

The area was overrun by British and Arab forces, organised by Colonel T. E. Lawrence, in September 1918, and as Occupied Enemy Territory (East), became part of the Syrian state under the Emir Faisal, who was king of Syria from 11 March to 24 July 1920. During 1920 the stamps of the Arab Kingdom of Syria were in use. On 25 April 1920 the Supreme Council of the Allies assigned to the United Kingdom a mandate to administer both Palestine and Transjordan, as the area to the east of the Jordan was called. The mandate came into operation on 29 September 1923.

E.E.F. post offices, using the stamps of Palestine, operated in the area from September 1918.

FORGERIES. Collectors are warned that the early provisional overprints and surcharges on T **3** or Palestine have been extensively forged. This particularly concerns Nos. 1/8, 20/88*a* and 98A/109. Nos. 9/19 and 106A/B and 107A/B must, however, always be genuine, as the underlying stamps of Palestine T **3** were never issued perf 14 without opt.

BRITISH MANDATED TERRITORY

(Currency. 1000 milliemes = 100 piastres = £1 Egyptian)

"EAST". Where the word "East" appears in Arabic overprints it is not used in its widest sense but as implying the land or government "East of Jordan".

9/19 *Set of 11*			£100	£300

Nos. 1/19 were surcharged from five different settings of 120 (12×10) which produced eight sub-types of Type **1**. Type **1a** occurred on R. 8/12 from one setting. The 9p. also exists with this overprint, but no example appears to have survived without further overprint or surcharge.

Nos. 9/19 (P 14) were never issued without opt, and the Type **1** opt on this perforation must always be genuine.

The Type **1** opt ("Sharqi Al-urdun") comprises seven Arabic characters, reading (from right to left) Sh-R-Qi-Al-R-D-N. The key features of the rare Type **1a** are a) the absence of the dots above "Qi" and b) the short left stroke of the "Al". Other variants exist with the missing dots, but only Type **1a** also has the short left stroke. Type **1a** is often misidentified, and forgeries exist.

1920 (Nov). Issued at Kerak. Handstamped. Manuscript initials "AK" in violet. Imperf.

19*a*	**1b**	(1p.) pale blue	£3500	£4000

No. 19*a* was issued in November 1920 by the political officer for Moab District, Captain (later Sir) Alex Kirkbride, and was used until supplies of Nos. 1/19 reached the area in March 1921. The local Turkish canceller was used as a postmark.

Emir Abdullah, 1 April 1921–22 May 1946

Abdullah, a son of the King of the Hejaz, was made Emir of Transjordan in 1921. On 26 May 1923 Transjordan was recognised as an autonomous state and on 20 February 1928 it was accorded a degree of independence.

T **2** reads "tenths of a piastre" and T **3** "the piastre", both with Arabic figures below. These surcharges were applied in order to translate the Egyptian face values of the stamps into the currency of the Arab Kingdom of Syria, but the actual face value of the stamps remained unchanged.

Being handstamped the surcharge may be found either at the top or bottom of the stamp, and exists double on most values.

The Types **2/3** handstamped surcharges have been extensively forged. Forged examples of Nos. 20/7 also often have a forged Type **1** opt.

1922 (Dec). Stamps of 1920 handstamped with a steel die as T **4** in red-purple, violet or black*.

*The ink of the "black" overprint is not a true black, but is caused by a mixture of inks from different ink-pads. The colour is, however, very distinct from either of the others.

Most values are known with inverted and/or double overprints.

The Type **4** handstamp has been extensively forged, often in conjunction with a forged Type **1** opt on stamps perf 15×14.

The 9p. perforated 15×14 was also prepared with this overprint, but the entire stock was used for No. 85.

The 20p. exists with top line of overprint only or with the lines transposed, both due to misplacement.

It should be noted that as Arabic is read from right to left, the overprint described as reading downwards appears to the English reader as though reading upwards. Our illustration of Type **11** shows the overprint reading downwards

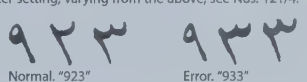
In this setting the third line of the overprint measures 19–21 mm. On 35 stamps out of the setting of 36 the Arabic "9" (right-hand character in bottom line) is widely spaced from the rest of the inscription. Minor varieties of this setting exist on all values.

For later setting, varying from the above, see Nos. 121/4.



Normal. "923" Error. "933"

An error reading "933" instead of "923" occurs as No. 3 in the setting of 24 on all values. Only 24 stamps are believed to have been overprinted for each of Nos. 103A, 108A, 105B and 107B so that for these stamps only one example of the error can exist. No example has yet been confirmed for Nos. 103A or 105B.

The Type **11** opt has been extensively forged on all values, but note that the 9p. and 10p. (Nos. 106A/B and 107A/B) will always be genuine, if correctly perf 14. The genuine Type **11** opt shows numerous breaks in the Arabic lettering, which tend to be absent from the more heavily printed forged opts.

This setting is from fresh type with the third line measuring 18¼ mm.

On all stamps in this setting (except Nos. 1, 9, 32 and 33) the Arabic "9" is close to the rest of the inscription.

The dots on the character "Y" (the second character from the left in the second line) are on many stamps vertical (:) instead of horizontal (..).

On some sheets of the ½p. and ½p. the right-hand character, "H", in the first line, was omitted from the second stamp in the first row of the sheet.

Type **11** of Saudi Arabia was printed in sheets of 36 (6×6). The ¼p. value had the bottom three rows inverted, giving six vertical *tête-bêche* pairs. A few sheets were overprinted with the normal setting of Type **17**, with the result that the overprints on the bottom rows were inverted in relation to the stamp, including on one of the stamps in the *tête-bêche* pair (No. 126c). A corrected setting with the overprint inverted on the lower rows was used for the majority of the printing giving *tête-bêche* pairs with the overprints both normal in relation to the stamps (No. 126a).

TRINIDAD

CROWN COLONY

The first post office was established at Port of Spain in 1800 to deal with overseas mail. Before 1851 there was no post office inland service, although a privately-operated one along the coast did exist, for which rates were officially fixed (see No. 1). During 1851 the colonial authorities established an inland postal system which commenced operation on 14 August. Responsibility for the overseas mails passed to the local post authorities in 1858.

No. CC1 is recorded in the G.P.O. Record Book on 21 March 1852, but no examples have been recorded used on cover before February 1858. The prepayment of postage on mail to Great Britain was made compulsory from 9 October 1858. From March 1859 it was used with the early Britannia 1d. stamps to indicate prepayment of the additional overseas rate in cash or, later, to show that letters were fully franked with adhesive stamps. This is the normal usage of the handstamp and commands little, if any premium over the cover price quoted below for the stamps involved. The use of the handstamp without an adhesive is rare.

1847 (16 Apr). Litho. Imperf.

1	**1**	(5c.) blue	£28000	£10000

The "LADY McLEOD" stamps were issued in April 1847, by David Bryce, owner of the S.S. *Lady McLeod*, and sold at five cents each for the prepayment of the carriage of letters by his vessel between Port of Spain and San Fernando.

The price quoted for used examples of No. 1 is for pen-cancelled. Stamps cancelled by having a corner skimmed-off are worth less.

No. 2 is known on paper bearing the sheet watermark "STACEY WISE/RUSH MILLS".

*No. 4 shows the paper deeply and evenly blued, especially on the back. It has more the appearance of having been printed on blue paper rather than on white paper that has become blued.

The following provisional issues were lithographed in the Colony (from die engraved by Charles Petit), and brought into use to meet shortages of the Perkins Bacon stamps during the following periods:[1-4]
(1) Sept 1852–May 1853; (2) March 1855–June 1855; (3) Dec 1856–Jan 1857; (4) Oct 1858–Jan 1859; (5) March 1860–June 1860.

1852–60. No value expressed. Imperf.

A. First Issue (Sept 1852). Fine impression; lines of background clear and distinct

(i) Yellowish paper

13	**3**	(1d.) blue	£9000	£1700

(ii) Bluish cartridge paper (Feb 1853)

14	**3**	(1d.) blue	—	£1900

B. Second issue (March 1855). Thinner paper. Impression less distinct than before.

15	**3**	(1d.) pale blue *to* greenish blue	—	£1000

C. Third issue (August 1856). Background often of solid colour, but with clear lines in places

16	**3**	(1d.) bright blue *to* deep blue	£4500	£1000

D. Fourth issue (October 1858). Impression less distinct, and rarely showing more than traces of background lines

17	**3**	(1d.) very deep greenish blue	—	£750
18		(1d.) slate-blue	£4000	£650

E. Fifth issue (March 1860). Impression shows no (or hardly any) background lines

19	**3**	(1d.) grey to bluish grey	£4000	£400
20		(1d.) red (*shades*)	16·00	£600

In the worn impression of the fourth and fifth issues, the impression varies according to the position on the stone. Generally speaking, stamps of the fifth issue have a flatter appearance and cancellations are often less well defined. The paper of both these issues is thin or very thin. In all issues except 1853 (Feb) the gum tends to give the paper a toned appearance.

Stamps in the slate-blue shade (No. 18) also occur in the fifth issue, but are not readily distinguishable.

PERKINS BACON "CANCELLED". For notes on these handstamps, showing "CANCELLED" between horizontal bars forming an oval, see Catalogue Introduction.

TOBAGO

Although a Colonial Postmaster was appointed in January 1765 it was not until 1841 that the British G.P.O established a branch office at Scarborough, the island capital, to handle the overseas mail.

The stamps of Great Britain were in use from May 1858 to the end of April 1860 when the control of the postal service passed to the local authorities.

From April 1860 Nos. CC1/2 were again used on overseas mail, pending the introduction of Tobago stamps in 1879.

The surcharge is in a setting of 12 (two rows of six), repeated five times in a pane.

The measurements given below (and below Nos. 31 and 33) are to the nearest ¼ mm and are for the space between the upright of "1" of "½" or "1" and the upright of the "P".

On Nos. 26/9 the normal spacing is 3¼ mm, but there are slightly narrower spacings on stamps 1 (3 *mm*) and 7 (2¾ *mm*) of most settings. The listed wider spacing (4¼ *mm*) occurs on stamp 10 of Nos. 26, 28, one of the four settings of No. 27 and one of the two settings of No. 29. It occurs on stamps 3 and 10 of a second setting of No. 27 and on stamp 7 in a second setting of No. 29. The "P" may be found raised in various positions in some settings.

		b. Surch double	£3500	£3500

On Nos. 30/1 the normal spacing is 2¾ mm, but there is a slightly wider space (3 *mm*) on stamps 3 and 7 of No. 30 and stamp 12 of No. 31. There is a slightly narrower space (2½ *mm*) on stamp 9 of No. 30. A new setting of No. 30 gave rise to the listed wider space (3¼ *mm*) on stamp 7.

1896. Fiscal stamp (T **1**, value in second colour, wmk Crown CA, P 14), surch with T **6** by the Government Printing Office, Scarborough.

33		½d. on 4d. lilac and carmine	£100	55·00
		a. Space between "½" and "d"	£140	80·00
		b. Malformed "CE" in "PENCE"	£1300	£800
		c. Surch double		

On No. 33 there are two settings, a scarcer one with a normal space of 3½ mm between the "1" of "½" and the upright of the "d" and a more common one with wide spacings on stamp 5 (5 *mm*), stamps 6 and 8 (4½ *mm*) and stamps 9 and 11 (4¼ *mm*).

Tobago became a ward of Trinidad on 1 January 1899. Stamps of Trinidad were used until issues inscribed "TRINIDAD AND TOBAGO" appeared in 1913.

1914 (18 Sept). Red Cross Label authorised for use as ½d. stamp. Typo. P 11–12.

157	**18a**	(½d.) red	28·00	£225

The above was authorised for internal postal use on one day only, to frank circular letters appealing for funds for the Red Cross. It had gone on sale the previous day (advertised price 24c. per 100) but has long been accepted as a ½d. value as this was the rate it covered during its one day of postal validity. The used price is for stamp on cover cancelled on 18 Sep 1914. Labels affixed to earlier or later items of mail had no postal validity.

PRINTING METHOD. The "War Tax" overprints, types **19a** to **26a**, were lithographed locally by the Govt Printer, using settings of 120.

FORGERIES. Beware of forgeries of the "War Tax" errors listed below. There are also other unlisted errors which are purely fakes.

WAR TAX (19b) WAR TAX (20) WAR TAX (21) WAR TAX (22)

1917 (29 Mar). Optd with T **19b**.

176	**17**	1d. red	4·25	3·25
		a. Opt inverted	£225	£300

		a. Pair, one without opt	£900	£1400
		b. Scarlet	5·50	1·00
		ba. Opt double	£160	

The varieties without overprint were caused by the overprint being shifted over towards the left so that some stamps in the right-hand column of each pane escaped.

1917 (June). Optd with T **21**.

179	**17**	½d. yellow-green (21.6.17)	7·00	27·00
		a. Pale green	30	17·00
		b. Deep green	3·50	17·00
180		1d. red (25.6.17)	15	75
		a. Pair, one without opt		

No. 180a was caused by a shifting of the overprint to the left-hand side, but only a few stamps on the right-hand vertical row escaped the overprint and such pairs are very rare.

1917 (21 July–Sept). Optd with T **22**.

		b. Rose-red (12.18)	10	60

Both values exist with "Tax" omitted, the ½d. due to a paper fold and the 1d. due to misplacement.

1918 (14 Sept). New printing as T **26**, but 19 stamps on each sheet have the letters of the word "Tax" wider spaced, the "x" being to the right of "r" of "War" as T **26a**. Thick bluish paper.

189	**17**	1d. scarlet ("Tax" spaced)	7·00	24·00
		a. Opt double	£300	
		b. Pair, one without opt	£1600

*The normal sideways watermark shows the Crown to the left of CA, *as seen from the back of the stamp*.

The date quoted for the glazed, ordinary paper printings is that of receipt at the G.P.O.; the dates of issue are not known.

The listed missing die-stamped heads have the heads completely omitted and, except for No. 352a which results from a shift, show a blind impression of the die. They should not be confused with stamps from sheets containing a row of partially missing heads progressing down to mere specks of foil. The 20c. value also exists with the gold omitted from the map only. We have also seen stamps

with an additional "blind" profile cutting into the rear of the head but without a second die-stamped impression. Varieties of this nature are outside the scope of this catalogue.

Nos. 340/2 were later reissued with W w **12** upright and No. 344a with W w **14**.

Tristan da Cunha

Although first settled in 1817 no surviving mail is known from Tristan da Cunha until two whaler's letters written in 1836 and 1843, these being carried home in other whaling ships. Then there is a long gap until the late 1800's when other letters are known—surprisingly only some seven in number, up to 1908 when the first of the island cachet handstamps came into use.

The collecting of postal history material from 1908 to 1952, when Tristan's first stamps were issued, revolves around the numerous cachets of origin which were struck on mail from the island during these 44 years. The handstamps producing these cachets were supplied over the years by various people particularly interested in the island and the islanders, and were mostly used by the clergymen who volunteered to go and serve as the community's ministers.

The postal cachets are illustrated below. The use of the different cachets on mail frequently overlapped, at one period in 1930 there were five different types of handstamp in use. As there was no official source for providing them they appeared on the island from various donors; then disappeared without trace once they became worn out. Only one of these early rubber handstamps has apparently survived, Cachet Va.

Covers bearing the cachets are recognised collector's items, but are difficult to value in general terms. As elsewhere the value is discounted by poor condition of the cover, and may be increased by use on a scarce date or with additional postal markings. Some cachets are known in more than one colour, but we do not list these variations.

Cachet Types V and VII on cover are the commonest, Type Va, used only for three months, and Type IVa are the scarcest, equalling the scarcest use of Type I examples. All cacheted covers, particularly if non-philatelic, are desirable forerunner items. Even a philatelic cover of Type V is, at present, worth in the region of £35.

Dates given are of the first recorded use.

Cachet VII

C9 **1936** (1 Feb). Cachet VII ..... *from* 22·00

During World War II there was little mail from the island as its function as a meteorological station was cloaked by security. Such covers as are known are generally struck with the "tombstone" naval censor mark and postmarked "maritime mail" or have South African postal markings. A few philatelic items from early in the war bearing cachets exist, but this usage was soon stopped by the military commander and the handstamps were put away until peace returned. Covers from the period would be worth from £75 to at least £350.

Cachet VIII

C10 **1946** (8 May). Cachet VIII ..... *from* 90·00

Cachet IX

C11 **1948** (29 Feb). Cachet IX ..... *from* 55·00

Cachet X

C12 **1948** (2 Feb). Cachet X ..... *from* 45·00

This cachet with "A.B.C." below the date was in private use between 1942 and 1946.

Although an earlier example of Cachet X is now known, we have retained the traditional sequence insofar as Cachets IX and X are concerned, for the convenience of collectors.

RESETTLEMENT SURVEY – 1962

Cachet XIII

Cachets XI to XIII from the 1961/63 "volcano eruption" and "return to the island" period vary in value from £30 to £120, due to philatelic usage on the one hand and scarce mailings from the small survey parties on shore during this period on the other.

POSTAL FISCAL STAMPS

NATIONAL SAVINGS
(F **1**)

1970 (15 May). No. 77 optd with Type F **1** in red.

F1	6d. black and green	20	30

No. F1 was originally intended as a National Savings Stamp, but also retained postal validity.

Trucial States

The Trucial States consisted of Abu Dhabi, Ajman (with Manama), Dubai, Fujeira, Ras al Khaima, Sharjah and Umm al Qiwain. However the following issue of stamps was only put into use in Dubai, despite the inscription "TRUCIAL STATES".

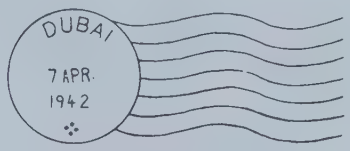
The first organised postal service in Dubai commenced on 19 August 1909 when an Indian Branch Office, administered from Karachi, was opened, using the unoverprinted stamps of India, principally the ½a. and 1a. values.

The initial cancellation was a single-ring type inscribed "DUBAI B.O. PERSIAN GULF", which remained in use until 1933.

1909 Cancellation

Its replacement was of the Indian double-circle type showing a similar inscription.

Dubai was upgraded to Sub-Post Office status on 1 April 1942 and this change was reflected in a new double-ring mark inscribed "DUBAI" only. At the same time the office was provided with a single-ring handstamp which also incorporated a cancelling device of seven wavy lines.



1942 Handstamp (*illustration reduced: actual size 65×27 mm*)

A further version of the double-ring type appeared in 1946, showing the "PERSIAN GULF" inscription restored to the lower segment of the postmark.

In October 1947 control of the Dubai Post Office passed to Pakistan whose stamps were used there until the end of March 1948.

On 1 April 1948 the post office was transferred, yet again, to British control and Great Britain stamps surcharged for use in the British Postal Agencies in Eastern Arabia were then sold in Dubai until 6 January 1961, being cancelled with British style single and double-ring postmarks.

Stamps of the British Postal Agencies in Eastern Arabia (Nos. 81, 83 and 85/6) overprinted "AJMAN", "FUJAIRAH" or "UMM AL QAIWAIN" are bogus.

1881 (1 Jan). Stamps of the preceding issues surcharged locally, in black. Sheets of 30 (10×3).

There are twelve different settings of the ½d., nine settings of the 2½d., and six settings of the 4d.

(2) (3)

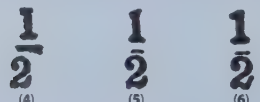
Setting 1. T **2**. Long fraction bar. Two varieties in a horizontal pair repeated fifteen times in the sheet.

7	½ on 6d black	£100	£170

Setting 2. T **3**. Short fraction bar. Three varieties in a vertical strip repeated ten times in sheet.

Setting 3. Similar to setting 2, but the middle stamp of the three varieties has a longer bar.

8	½ on 6d. black (*setting 2 only*)	£100	£150
9	½ on 1s. dull blue	£140	£200
	a. Surch double	£8000	



(4) (5) (6)

Three varieties in a vertical strip repeated ten times in sheet.

Setting 4. Types **4**, **5**, **6**.

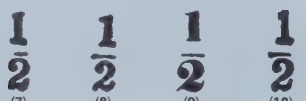
Setting 5. Types **4** (without bar), **5**, **6**.

Setting 6. Types **4**, **5**, **6** (without bar).

Setting 7. Types **4** (shorter thick bar), **6**, **6**.

10	½ on 1d. dull red (*setting 7 only*) (T **6**)		
	a. Type **4** (shorter thick bar)	£16000	
11	½ on 1s. dull blue (*setting 6 and 7*) (T **4**)	£2000	
	a. Type **4** (shorter thick bar)	£3000	
	b. Type **5**	£1500	
	c. Type **6**	£1200	
	d. Type **6** (without bar)	£2500	
	e. Surch double (T **4**)	£14000	
	f. Surch double (T **5**)	£14000	
	g. Surch double (T **6** without bar)		
12	½ on 1s. lilac (T **4**)	£275	£425
	a. Without bar	£600	
	b. With short thick bar	£550	
	c. Surch double	£4000	
	cb. Surch double and short thick bar	£14000	
13	½ on 1s. lilac (T **5**)	£160	£300
	a. Surch double	£3750	
14	½ on 1s. lilac (T **6**)	£150	£275
	a. Without bar	£700	
	b. Surch double	£8000	
	ba. Surch double and without bar	£14000	

Care should be taken in the identification of Types **6** and **7** which are very similar. For the 1s. value some varieties of No. 9 are often confused with Nos. 11b/c.



(7) (8) (9) (10)

Setting 8. T **7**. Three varieties in a vertical strip. All have a very short bar.

15	½. on 1d dull red	85·00	£160
	a. Throat flaw	£350	
	b. Surch double	£7500	

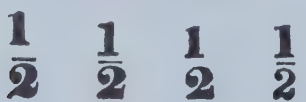
Setting 9. T **8**. Three varieties in a vertical strip. Bars long and thick and "1" leaning a little to left.

16	½ on 1d. dull red	£200	£350
	a. Surch double	£6000	
	b. Throat flaw	£700	

Setting 10. T **9** and **10**. Fifteen varieties repeated twice in a sheet. Ten are of T **9** (Rows 1 and 2), five of T **10** (Row 3).

17	½ on 1d. dull red (T **9**)	60·00	£150
	a. Surch double	£6500	
18	½ on 1d. dull red (T **10**)	95·00	£200
	a. Surch double	£11000	
	b. Throat flaw	£350	
19	½ on 1s. lilac (T **9**)	£100	£225
20	½ on 1s. lilac (T **10**)	£180	£400
20*a*	½. on 1s dull blue (T **9**)	£12000	
20*b*	½ on 1s. dull blue (T **10**)	£22000	

Types **9** and **11**. The difference is in the position of the "2" in relation to the "1". In setting 10 the "2" is to the left of the "1" except on No. 10 (where it is directly below the "1") and in setting 11 it is to the right except on No. 2 (where it is to the left, as in setting 10).



(11) (12) (13) (14)

Setting 11. T **9** and **11** to **14**. Fifteen varieties repeated twice in a sheet. Nine of T **11**, three of T **12**, and one each of T **9**, **13** and **14**.

Setting 12. Similar to last, but T **13** replaced by another T **12**.

21	½ on 1d. dull red (T **11**)	£120	£225
22	½ on 1d. dull red (T **12**)	£325	
	a. Throat flaw	£1300	
23	½ on 1d. dull red (T **13**)	£1100	
	a. Throat flaw	£1100	
24	½ on 1d. dull red (T **14**)	£700	
24*a*	½ on 1s. dull blue (T **11**)	£22000	

Type **9** from these settings, where it occurs on position 2, can only be distinguished from similar stamps from setting 10 when *se-tenant* with Type **11**.

In setting 11 Type **13** occupied R. 3/4 in the setting (5×3), corresponding to the position of the "Throat flaw" on the left half of each sheet of 30 (10×3). Nos. 23 and 23a therefore exist in equal quantities.

(15) (16)

Setting 1. T **15**. Fraction in very small type.

25	2½ on 6d. black	£16000	

Setting 2. T **16**. Two varieties repeated fifteen times in a sheet. Large "2" on level with top of the "1", long thin bar.

26	2½ on 6d. black	£400	£600
	a. Imperf between (horiz pair)	£42000	
	b. Surch double	£18000	

(17) (18) (19)

Setting 3. T **17**. As T **16**, but large "2" not so high up.

27	2½ on 1s. lilac	£4000	

Setting 4. T **18**. Three varieties in a vertical strip repeated ten times in sheet. Large "2" placed lower and small bar.

28	2½ on 6d. black	£250	£450
	a. Surch double	£17000	

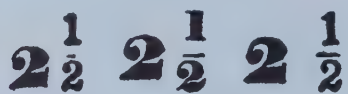
Setting 5. T **19**. Three varieties in a vertical strip repeated ten times in sheet "2" further from "½", small fraction bar.

29	2½ on 1s. lilac	£550	£1000

(20) (21)

Setting 6. T **20** and **21**. Fifteen varieties. Ten of T **20** and five of T **21**, repeated twice in a sheet.

30	2½ on 1s. lilac (T **20**)	£14000
31	2½ on 1s. lilac (T **21**)	£25000



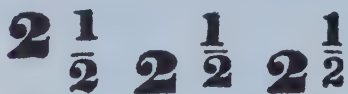
(22) (23) (24)

Setting 7. T **22**. Three varieties in a vertical strip, repeated ten times in a sheet.

32	2½ on 6d. black	£9500
33	2½ on 1s. dull blue	£28000

Setting 8. T **23** and **24**. Fifteen varieties. Ten of T **23** and five of T **24** repeated twice in a sheet.

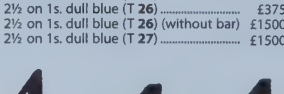
34	2½ on 1d. dull red (T **23**)	£800	
35	2½ on 1d. dull red (T **24**)	£1600	
	a. Throat flaw	£4750	
36	2½ on 1s. lilac (T **23**)	£600	£900
	a. Surch "½" double	£4750	
37	2½ on 1s. lilac (T **24**)	£1200	
	a. Surch "½" double	£9000	



(25) (26) (27)

Setting 9. T **25**, **26**, and **27**. Fifteen varieties. Ten of T **25**, three of T **26**, one of T **26** without bar, and one of T **27**, repeated twice in a sheet.

38	2½ on 1s. dull blue (T **25**)	£1100
39	2½ on 1s. dull blue (T **26**)	£3750
40	2½ on 1s. dull blue (T **26**) (without bar)	£15000
41	2½ on 1s. dull blue (T **27**)	£15000



(28) (29) (30)

Setting 1. T **28**. "4" 8 mm high, pointed top.

42	4 on 6d. black	£750	£350

Settings 2-6. T **29** and **30**.

43	4 on 6d. black (T **29**)	£110	£160
44	4 on 6d. black (T **30**)	£400	£550
45	4 on 1s. lilac (T **29**)	£475	£750

The overprint was in a setting of 60, using a plate supplied by De La Rue, applied twice to the sheets of 120. One sheet of the 1d. exists with the right-hand impression of the setting misplaced one row to the left so that stamps in vertical row 6 show a double overprint (No. 140ab). It appears that the right-hand vertical row on this sheet had the overprint applied at a third operation.

In Nos. 140e/f the inverted overprint is at foot and reads "TAX WAR" owing to displacement. No. 140e also exists with "WAR" omitted from the inverted overprint.

In both values of the first printings the stamp in the bottom left-hand corner of the sheet has a long "T" in "TAX", and on the first stamp of the sixth row the "X" is damaged and looks like a reversed "K". The long "T" was subsequently converted.

1917 (Oct). Second printing with overprint at top or in middle of stamp.

PRICES FOR STAMPS ON COVER TO 1945

The type-written stamps of Uganda, Nos. 1/53, are very rare used on cover.

Nos. 54/60	*from* × 20
No. 61	—
Nos. 70/5	*from* × 12
No. 76	—
Nos. 84/90	*from* × 20

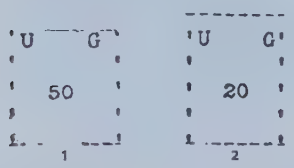
Nos. 92/3	*from* × 40

PROTECTORATE

Following a period of conflict between Islamic, Protestant and Roman Catholic factions, Uganda was declared to be in the British sphere of influence by the Anglo-German Agreement of July 1890. The British East Africa Company exercised a variable degree of control until 27 August 1894 when the country was declared a British Protectorate.

Before the introduction of Nos. 84/91 the stamps of Uganda were only valid for internal postage. Letters for overseas were franked with British East Africa issues on arrival at Mombasa.

(Currency. 200 cowries = 1 rupee)



1 2

TYPE-WRITTEN STAMPS. Nos. 1/53 were type-written by the Revd. E. Millar at Mengo for the Uganda administration. For all "printings" a thin laid paper was used, and all issues were imperforate and ungummed. The laid lines are invariably horizontal, with the exception of Nos. 19a, 20a and 38b.

The original typewriter used had wide letters, but in late April, 1895 Millar obtained a new machine on which the type face was in a narrower fount.

Each sheet was made up of whatever values were required at the time, so that different values can be found *se-tenant* or *tête-bêche*. These last were caused by the paper being inverted in the machine so that space at the foot could be utilised.

For the first issue the sheets were of 117 (9×13), but with the introduction of the narrower width (Nos. 17 onwards) a larger number of stamps per sheet, 143 (11×13), was adopted.

PRICES. The prices of Nos. 1/53 vary greatly according to condition. The thin paper used is subject to creasing, staining and thinning. Catalogue quality is for fine examples, with borders visible on at least three sides. Used stamps are usually found with manuscript crosses in pencil, crayon or ink; examples with initials, dates or place names may command a premium, but note that stamps cancelled to order with circular datestamps (usually at Kampala in 1898) tend to be worth less.

1895 (20 Mar). Wide letters. Wide stamps, 20 to 26 mm wide.

1	**1**	10 (c.) black	£4250	£2250
2		20 (c.) black	£7500	£1800

		a. "U A" for "U G"	†	£8500
6		60 (c.) black	£2500	£2250

It is now believed that the 5, 15 and 25 cowries values in this width, formerly listed, do not exist.

1895 (May). Wide stamps with pen-written surcharges, in black.

8	**1**	5 on 10 (c.) black		† £70000
9		10 on 30 (c.) black		† £70000

15		25 on 50 (c.) black		† £70000
16		50 on 60 (c.) black		† £70000

The manuscript provisionals, Nos. 9/16 come from the Mission at Ngogwe, most of the manuscript surcharges including the initials of the Revd. G. R. Blackledge stationed there. But No. 8, known only in *se-tenant* form with an unsurcharged pair of No. 1 on cover, was initialled "E.M." by Revd. E. Millar, presumably at Mengo.

1895 (April). Wide letters. Narrow stamps, 16 to 18 mm wide.

17	**1**	5 (c.) black	£3250	£1300
18		10 (c.) black	£3250	£1600

23		40 (c.) black	£8000	£8000
24		50 (c.) black	£3750	£4250
25		60 (c.) black	£8000	£8500

A used pair of No. 19a and two used examples of No. 20a have been seen. With the exception of No. 38b, Nos. 1/53 otherwise show the laid lines horizontal.

To qualify as Nos. 22/5, which are very rare stamps, examples must show borders on both vertical sides and not exceed 18 mm in width. Examples not fulfilling both criteria can only be classified as belonging to the "Wide stamps" group, Nos. 3/6.

1895 (May). Narrow letters. Narrow stamps 16 to 18 mm wide.

42		50 (c.) violet	£2000	£1500
43		100 (c.) violet	£2500	£3000

Stamps of 35 (c.) and 45 (c.) have been recorded in violet, on vertically laid paper. They were never prepared for postal use, and did not represent a postal rate, but were type-written to oblige a local official. (*Price £2750 each, unused*)

Nos. 84/9 exist without watermark or with double-lined lettering from the marginal watermark due to the way in which sheets were cut for printing.

On 1 April 1901 the postal administrations of British East Africa and Uganda were merged. Subsequent issues to 1962 are listed under KENYA, UGANDA and TANGANYIKA.

In all values the left-hand vertical row of the sheet is imperf at left and the bottom horizontal row is imperf at foot. The above were crudely perforated, resulting in variations in the sizes of the stamps.

The above were withdrawn on 15 January 1968 and thereafter decimal currency postage stamps were used for postage due purposes with appropriate cancellations.

Zanzibar

An Indian post office opened in Zanzibar in November 1868, but was closed for political reasons on 1 April of the following year. Little has survived from this period. Subsequently mail was forwarded via Seychelles or, later, Aden.

Stamps of INDIA were used in Zanzibar from 1 October 1875 until 10 November 1895, when the administration of the postal service was transferred from India to British East Africa. Separate cancellations for Zanzibar are known from 1 June 1878.

A French post office was opened on the island on 1 February 1889 and this service used the stamps of FRANCE until 1894 when specific stamps for this office were provided. The French postal service on the island closed on 31 July 1904 and it is known that French stamps were again utilised during the final month.

A German postal agency operated in Zanzibar between 27 August 1890 and 31 July 1891, using stamps of GERMANY.

Forged examples of the blue overprints, Nos. 1/2, can be found on piece with genuine cancellations as type Z **7**, dated "13 FE 97".

There were a number of different settings for this overprint.

Values to 1r. were initially overprinted from settings of 120 (12×10) including one which showed "Zanzidar" on R. 4/6 and R. 8/5 (soon corrected) and "Zanizbar" on R. 1/9 (also soon corrected). Later supplies of these values were overprinted from settings of 80 (8×10) for the 6a. only or 60 (6×10) for the others. One of these settings included "Zanibar" on R. 7/2. Another late setting, size unknown, showed a diaeresis over last "a" on R. 10/5.

Many forgeries of this overprint exist and also bogus errors.

MINOR VARIETIES. The following minor varieties of type exist on Nos. 1/21:

A. First "Z" antique (sloping serifs) (all values)
B. Broken "p" for "n" (all values to 1r.)
C. Tall second "z" (all values)
D. Small second "z" (all values)
E. Small second "z" and inverted "q" for "b" (all values)
F. Second "z" Gothic (lower limb bent upwards) (½a. to 12a. and 1r.) (No. 18) (black opts only)
G. No dot over "i" (all values to 1r.)
H. Inverted "q" for "b" (all values to 1r.)
I. Arabic "2" for "r" (all values to 1r.) (black opts only)

Varieties D and E are worth the same as normal examples, A (2, 3, 5r.) and C normal plus 50%, G and I from 3 times normal, A (values to 1r.), F and H from 4 times normal and B from 5 times normal.

MINOR VARIETIES. The various minor varieties of type detailed in the note below No. 21 also occur on Nos. 22 to 46 as indicated below:

A. Nos. 23, 25, 27, 30, 35, 38, 41/6
B. Nos. 22/3, 26, 29/30, 32/3, 36, 39, 44/6
C. Nos. 22, 25/6, 32, 36, 38, 40/6
D. Nos. 22/46
E. Nos. 22/46
F. Nos. 22, 25/6, 29, 41/6
G. Nos. 25/6, 29, 35, 37/8, 40/6
H. Nos. 22, 41/6 (on the British East Africa stamps this variety occurs in the same position as variety C)
I. Nos. 26, 29, 35, 38, 41/6

The scarcity of these varieties on the surcharges (Nos. 22/40) is similar to those on the basic stamps, but examples on the British East Africa values (Nos. 41/6) are more common.

PRINTERS. All Zanzibar stamps up to Type **37** were printed by De La Rue & Co.

REPUBLIC

When the Post Office opened on 14 January 1964, after the revolution deposing the Sultan, the stamps on sale had the portrait cancelled by a manuscript cross. Stamps thus cancelled on cover or piece used between January 14 and 17 are therefore of interest.

The concept initiated by the 1935 Silver Jubilee omnibus issue has provided a pattern for a series of Royal commemoratives over the past 50 years which have introduced countless collectors to the hobby.

The Crown Colony Windsor Castle design by Hugo Fleury is, surely, one of the most impressive produced to the 20th-century and its reproduction in the recess process by three of the leading stamp-printing firms of the era has provided a subject for philatelic research which has yet to be exhausted.

Each of the three, Bradbury, Wilkinson & Co. and Waterlow and Sons, who both produced fifteen issues, together with De La Rue & Co. who printed fourteen, used a series of vignette (centre) plates coupled with individual frame plates for each value. All were taken from dies made by Waterlow. Several worthwhile varieties exist on the frame plates but most interest has been concentrated on the centre plates, each of which was used to print a considerable number of different stamps.

Sheets printed by Bradbury, Wilkinson were without printed plate numbers, but research has now identified twelve centre plates which were probably used in permanent pairings. Stamps from some of these centre plates have revealed a number of prominent plate flaws, the most famous of which, the extra flagstaff, has been eagerly sought by collectors for many years.

Extra flagstaff (Plate "1" R. 9/1)

Short extra flagstaff (Plate "2" R. 2/1)

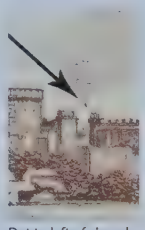
Lightning conductor (Plate "3" R. 2/5)

Flagstaff on right-hand turret (Plate "5" R. 7/1)

Double flagstaff (Plate "6" R. 5/2)

De La Rue sheets were initially printed with plate numbers, but in many instances these were subsequently trimmed off. Surviving examples do, however, enable a positive identification of six centre plates, 2A, 2B, (2A), (2B), 4 and 4/ to be made. The evidence of sheet markings and plate flaws clearly demonstrates that there were two different pairs of plates numbered 2A 2B. The second pair is designated (2A) (2B) by specialist collectors to avoid further confusion. The number of major plate flaws is not so great as on the Bradbury, Wilkinson sheets, but four examples are included in the catalogue.

Diagonal line by turret (Plate 2A R. 10/1 and 10/2)



Dot to left of chapel (Plate 2B R. 8/3)

Dot by flagstaff (Plate 4 R. 8/4)

Dash by turret (Plate 4/ R. 3/6)

Much less is known concerning the Waterlow centre plate system as the sheets did not show plate numbers. Ten individual plates have, so far, been identified and it is believed that these were used in pairs. The two versions of the kite and log flaw from plate "2" show that this plate exists in two states.

Damaged turret (Plate "1" R. 5/6)

Kite and vertical log (Plate "2A" R. 10/6)

Kite and horizontal log (Plate "2B" R. 10/6)

Bird by turret (Plate "7" R. 1/5)

Don't think we can pay you up to 36% more?

COLLECTORS ARE RIGHT TO BE WARY OF LOFTY CLAIMS BUT THERE MAY BE GOOD REASONS WHY YOU MAY FIND SOME OF THEM TO BE TRUE

The stamp market constantly fluctuates so that at any given moment **if there is too much of what you wish to sell on the market,** despite what anybody claims, no dealer can offer you **massively** more.

However, there may be good reasons why some stamp organisations can offer you significantly more and pay you immediately rather than waiting months for the unknown of what you may or may not sell at auction – and you will be waiting even longer for payment.

It all depends upon that stamp dealer's/auction's business model. UPA buys and sells globally but if for example the nearest stamp dealer you approach only sells British stamps to a small market place then there is a strong possibility that he/she may be fully stocked already – so that if a price is proffered to you there is an increased likelihood of your receiving a lower offer as your collection, or part of your collection may be 'traded on' to a larger dealer. Worse still, other unrelated areas of your collection may be neglected or not valued in any offer you receive.

If you consign your collection to auction and it is unsuitable or too time-consuming for that auction to 'break' it into smaller lots – then there is a very strong probability that you will be paying an auction to sell your stamps to a stamp dealer WHO could afford to pay you up to 36% more than you will receive. Don't forget most auctions charge the buyer of your collection up to twice the commission, or more, that they charge you.

It doesn't make sense for you to pay an auction to sell your stamps to a stamp dealer, when – if you handle the transaction wisely – you can receive the up to 36% more for yourself.

What happens when you ask UPA to make you an offer?

First we ask you to tell us about your collection *and we listen.* Then we ask you how much you know about the market for your type of collection? At this stage we add to your knowledge, informing you of current conditions you may be unaware of. Then we discuss whether we may be well placed to assist you and how that may be achieved.

Providing your collection has sufficient potential we may offer to visit without charge or obligation, or we will offer to uplift your collection from your home at our expense, insured in transit (and whilst in our care) free of charge. If you are situated in mainland UK and your collection is too bulky for you to pack, provided your collection is valuable enough, we may even provide a free packing service in addition to shipping to our office.

Now we assess your collection and offer you the choice of agreeing a price that will be paid immediately – or of our bidding against other dealers so that you know you are achieving the best possible price.

Guarantee: We guarantee that you will never be under pressure at any stage of the process; you will always be in control. E-mail or Contact UPA now: 01451 861 111

Why can UPA often pay considerably more?

We often buy at auction. That auction takes the "**up to 36% more" that we pay that YOU DO NOT RECEIVE.**

However – there is another equally important reason .... namely **The UPA Business Model.** Unlike most dealers we believe that if an item is not selling, then it must be too expensive. This is the reason why when you receive our quarterly catalogues of up to 20,671 different lots (you can request a sample one free) ... you will find that if an item has been previously unsold **we actually tell you.** Furthermore each time an item is unsold we reduce the price and **we keep on reducing the price – until finally the lot sells** or it is given away. In practice good material sells quickly whilst other material finally finds its own price and sells. This is the reason why there are always 1,000's of new offers at UPA .... and part of the reason why we are usually in a position to pay you more and pay you immediately.

Furthermore, unlike some, UPA has not one but **4 different selling systems** selling 95% of stamps to collectors, so that when a collection is purchased the most valuable/interesting stamps go into our Universal Philatelic Auctions (a UK record 1,750 different bidders in the last auction). Intermediate/lower-priced sets/singles enter our Omniphil and Avon Approvals systems (established 56 years and over 1,200 regular collector clients), inexpensive stamps enter the Avon Mixtures system and eBay (universalphilatelic) for surplus material. All of which is why UPA can purchase and pay for almost literally anything.....

WHAT DOES UPA BUY?

UPA literally purchases almost any country collection worth £200 upwards from sets and singles to classics and entire British, British Empire, Europe and World collections. At the moment UPA has **exceptional demand for original collections of Great Britain and British Empire** in particular.

What do I do next?

You contact UPA and talk to one of our friendly Team who will help to inform you so that you can decide how to progress matters ... there is no charge and no obligation ... **please CONTACT UPA NOW.**

Remember, if you are selling a collection ... collectors buy the stamps they are missing; this is why dealers exist. Most intact collections offered at auction sell to dealers. **Save commissions and uncertainty by contacting UPA today.** We guarantee that you will never be under pressure at any stage of the process, you will always be in control.

UNSOLICITED TESTIMONIAL:

Dear Folk at UPA,

I've dealt with the public for 37 + years, and as both a consumer, and a businessman, I have created huge numbers of orders from all over the world from a complete range of suppliers from all aspects of our daily lives.

But I don't believe I have ever encountered such sensitivity, such kind thought, such understanding as I have with you in our initial meeting, our subsequent successful transaction, and now this.

I recall well the item you highlight, and realise that this one item has such colossal personal value, I could never part with it.

It has been an absolute pleasure dealing with yourself, and I am more than willing for you to use this e-mail as commendation to others who may be thinking of disposing of their collection.

Many, many thanks for a memorable experience, and I will try to emulate your thought and care in my own business sphere.

Yours sincerely

D. E. B. Bath, UK
